

# Requirements Elicitation

(taken from Client Meeting #1, last updated 4/10/21)

## Requirements changed or removed by client request for Sprint #3

- Ordering - to only be alphabetical, other ordering is unnecessary
- No dark mode
- No notification for lacking progress
- No ability to add other users

## Updated requirements added for Sprint #2

- Edit information page for user
- Logout button
- Ability to create client

## Outline client provided of what they would like:

### Profile page

Name

Gender

Photo(optional)

Numbers

Email

Address

Company

Position

Available meeting method

Progress

- Filter

Priority

- Text

Created time

- Time the client was added in CRM

Last contact time

- Last time there was a stage change in progress

Search: name/phone number

- Want to be able to search by name or phone number

Filter: Progress(new, invited, met, negotiation, conclude), Priority(High, Med, Low)

Ordering: newest created, latest contacted, longest time without progress

- Not that important

Notification:

Meeting days.

Customer hasn't contact over half months.

### What do you want it to look like?

<b>Style</b> (eg clean, minimal, colourful, dynamic)	<b>Must have elements</b> (eg specific colours or fonts)
<ul style="list-style-type: none"><li>- Not fussed</li><li>- Bootstrap</li><li>- No colour</li><li>- Darkish colours</li><li>- Simple</li><li>- Dark mode?</li><li>- Phone book vibes</li><li>- Tap icon in corner</li></ul>	<ul style="list-style-type: none"><li>- Good UI</li></ul>

### Practical requirements

#### What should its security be like?

- Hash coding for password
- Don't save raw data into database

#### What platforms do you want it to run on (desktop, mobile, etc)?

- Web app

### Overall requirements

<b>Must have features</b>	<b>Should have features</b>	<b>Could have features (if time)</b>	<b>Won't have</b>
(Client information) Name, gender, phone number email	Filter (priority)	Ordering - <b>only alphabetical</b>	Message system
(Company info) Company, position, location	Notification (last contact)	Notifications (meeting days)	Dashboard
Search function	Filter (progress)	Profile photos	

Good UI		Dark mode	
List of clients (click to get details) - where you can filter		Notifications (lacking progress)	
Contacts UI vibe			
Login page (just password)			
Secure (don't save raw data into database - encode password)
