

Chronological order from 29/9/21 – 22/10/21

 **Nicholas** 29/09/2021
actually do we need the first name and family name for the user (FanYu)?
and for the search function it only seems to work if the name is searched from the beginning
like if i search john it gives johnny bravo and the other johns
but if i search like bravo it gives nth

 @Nicholas actually do we need the first name and family name for the user (FanYu)?
Rebecca 29/09/2021
Maybe we can just do a name instead of first and last?

 @Nicholas but if i search like bravo it gives nth
Rebecca 29/09/2021
Good find 

 @Rebecca Maybe we can just do a name instead of first and last?
Nicholas 29/09/2021
but why do we need to store his name tho

 **Rebecca** 29/09/2021
Idk it just feels more personal to me
But either way is fine I guess?

 **Nicholas** 29/09/2021
we store it but nvr use it

 **Rebecca** 29/09/2021
Hmm ok that's true. I guess get rid of it? If anyone else feels strongly about keeping it then we can discuss it more

 **Zakarya** 29/09/2021
Why do we store user name?
So we know which customer we referring to.
To didpisy on the profile page
To have a clear distinction between customers
Can we make first name and family name into one? No. Why? Something called human error. People might not add the last name in just a name box. So we will end up with multiple people with just the first name and that's not good practice
Do we want to search by last name too? I can do that, I thought it was just first name.

 **Rebecca** 29/09/2021
We're talking about our client's name
 1
But in regards to the search I believe we should search for both

 @Rebecca But in regards to the search I believe we should search for both
Tiana 29/09/2021
yeah i agree
both would be good
 1
and @Nicholas can definitely not store the user's name if it's unnecessary i just put it on the design cos wasn't sure

 @Tiana and @Nicholas can definitely not store the user's name if it's unnecessary i just put it on the design cos wasn't sure
Zakarya 29/09/2021
Again it's good practice in my opinion to store name. Something like extensibility, if we have more customers, legally we should know there names as well. The username and email might not tell us anything. For example if we store dulapeep, it does not tell me Fanyu is the owner of this account right?

 **Tiana** 29/09/2021
yeah i was thinking in terms of extensibility it could be useful
like we aren't actually going to create multiple accounts right? but i guess storing name would make it easier to make that change in future

 **Zakarya** 29/09/2021
Yeah feels like more of a future thing but good practice in my opinion.

 **Tiana** 29/09/2021
sure okay

 **Rebecca** 29/09/2021
I mean it could go either way bc adding it wouldn't force us to actually change the inherent structure of the code or anything at any point and we're not doing anything with it right now (edited)

 **Zakarya** 29/09/2021
Hmm yeah OK, we can get rid of it then @Nicholas

 **Nicholas** 29/09/2021
I mean it's fine to keep it. I was just curious since it didn't seem to be used

 **Rebecca** 29/09/2021
If we are already storing it then we can leave it

 **Tiana** 29/09/2021
yea jus leave it hten
 1

 **Tiana** 29/09/2021
btw @team if yall are ok with it gonna fill out the project checklist again and will send thru before tmr night so everyone can review/make edits as needed
that also means we need to have all artefacts uploaded to git by fri night when it's due

 **Zakarya** 29/09/2021
which artefacts are we specifically uploading? :))
 **@Zakarya** which artefacts are we specifically uploading? :))

 **Tiana** 29/09/2021
i don't think we have much honestly
it's any additional design artefacts, testing artefacts, minutes and ofc the code

 **Zakarya** 29/09/2021
do we also add code to the week 9 folder?

 **Tiana** 29/09/2021
i'll put the acceptance criteria in the actual week 9 folder and the acceptance tests ig
nah nah i don't think so
actually should the tests go in the testing folder
 1
*tests folder

 **Zakarya** 29/09/2021
not the acceptance tests right

 **Tiana** 29/09/2021
isnt that part of tests tho?

 **Zakarya** 29/09/2021
i thought tests were like code testing but if that makes sense then sure :))

 **Rebecca** 29/09/2021
How should we do the screenshots for our communication? A PDF pushed to git docs?

 **Zakarya** 29/09/2021
yeah should be good

 **Tiana** 29/09/2021
yep

 **@Zakarya** i thought tests were like code testing but if that makes sense then sure :))

 **Tiana** 29/09/2021
there's a couple ways of testing we can also put scripts there we use for automated testing but also manual testing things can be included
 1

 **Zakarya** 29/09/2021
Hey team, so hosting is getting a bit weird as we have sub folders inside our original repo. I am thinking of making a separate repo which will contain the code we want to push to our live server. So whenever we think we need to push to live server we can just copy the files there.

Does that sound reasonable?

 **Rebecca** 29/09/2021
Yes if that works 
 1

 **Rebecca** 29/09/2021
any opinions on a bolded priority? I thought it's probably the most important thing on the page and the letters looked weird skinny and coloured

Name	Progress	Priority
John Doe	New	High
Jane Doe	New	Low
Jenny Dope	Conclude	Medium
Johnny Bravo	New	High

 1

 **Zakarya** 29/09/2021
Sounds good :))

 **Terry_t** 29/09/2021

Guys, what's going on?

 **Zakarya** 29/09/2021
Npm install it

 **Terry_t** 29/09/2021
gotcha

 **Zakarya** 29/09/2021
hope it worked :))

 **Terry_t** 29/09/2021
it did thanks lul
 1

 @Zakarya Hey team, so hosting is getting a bit weird as we have sub folders inside our original repo. I am thinking of making a separate repo which will contain the code we want...

 **Tiana** 29/09/2021
yeah sounds good
we have to include a bit about hosting on the week 9 checklist

 **Zakarya** 29/09/2021
great, will get it done then :))

 **Tiana** 29/09/2021
 amazing
 1

 **Tiana** 29/09/2021
in the checklist where it says "completed a sprint retrospective?" do yall think that means for the first sprint or this current sprint..

Rebecca 29/09/2021

did it have that in the week 6 checklist

if not, i recc it's just a retrospective

Terry_t 29/09/2021

@Tiana I finished the dropdown menu for the notifs can you check whether it's what you have in mind?

Tiana 29/09/2021

im not on the main branch still cos i havent pushed my changes (im also in bed lol) but i can look tmr

@Rebecca did it have that in the week 6 checklist

Tiana 29/09/2021

it didnt so yes im thinking (hoepfully) just asjng if u did oke

one

@Tiana it didnt so yes im thinking (hoepfully) just asjng if u did oke

Rebecca 29/09/2021

we have one planned for after the checklist is done and we've done one already so should be g?

can you please use 4 instead of 2 for indents? @Terry_t

Terry_t 29/09/2021

okay!

wait

how do you change that?

 **Zakarya** 29/09/2021
u using vscode?

 **Terry_t** 29/09/2021
yeh

 **Rebecca** 29/09/2021
should be at the bottom

 **Zakarya** 29/09/2021
on the bottom right

 **Terry_t** 29/09/2021
aight
I changed it on mine
soz team

 **Rebecca** 29/09/2021
Ln 262, Col 44 Tab Size: 4 UTF-8 CRLF

if you haven't already could you update coding standards to include that? even tho we've been discussing it for a day or 2 already oop **@Zakarya**

 1

I think the notifs you've done looks good Terry i dont think we need to make any design changes

 2

 **Rebecca** 29/09/2021
ok so basically all the elements we originally designed is now all on the main page (+ Nic currently doing the edit info stuff) phew wow

 1

just gotta do some fixes for some elements

 **Zakarya** 29/09/2021
woo nearly there! 😊

 **Zakarya** 30/09/2021
Deployed team! 😊
<https://chetohs-crm.herokuapp.com/>

 **React App**
Web site created using create-react-app

Congrats :))

 **Tiana** 30/09/2021
yayyy thanks Zak

 1

 **Tiana** 30/09/2021
@Zakarya should profiles be working on deployment or did u just deploy the main branch?

 **Tiana** 30/09/2021
fyi guys ive added sprint tags to our tasks so we can track what we did per sprint easily
so if u make a task make sure u add the relevant sprint label

 **Tiana** 30/09/2021
@team also going to screenshot everything from sprint to under "done" on trello tmr night so we can include it in the checklist, so make sure u move tasks that are done over by then

 2

 **@Tiana** **@Zakarya** should profiles be working on deployment or did u just deploy the main branch?

 **Zakarya** 30/09/2021
You can only deploy one branch, so even we merge you will see profile too :)

 **@Zakarya** You can only deploy one branch, so even we merge you will see profile too :)

 **Tiana** 30/09/2021
sure no worries

 1

Tiana 30/09/2021

question about notifications

do we want them to function like - the number 1 shows up for 1 new notification, if you open up the notification tab the number goes away?
indicating you've read it?
and should it be like a drop down with a max size that you can scroll through if there's more notifications than can be seen in the max size?
that's probably the least complex way to implement the read/unread stuff i guess

Zakarya 30/09/2021

Yeah I think we discussed it would be similar to the fb notification style :)

Tiana 30/09/2021

yeaa but fb notifications you have to click on the notif itself for it to be read

Zakarya 30/09/2021

How will we do that in our case?

Tiana 30/09/2021

which is prob unnecessary

Zakarya 30/09/2021

Sorry didn't completely understand

Tiana 30/09/2021

so i'm just clarifying that we aren't going to do that

well on facebook if you get a notification you click the bell to see a drop down of the notifs

but it doesn't mark them as "read"

though it does erase the number actually now that i've checked

Zakarya 30/09/2021

Maybe add a tick?

Tiana 30/09/2021

eg they're unread if they're bolded

add a tick? wdyt

Zakarya 30/09/2021

For read?

Tiana 30/09/2021

i'm just saying we probs don't need to implement that at all
like no need for bolding/indicating if specific notifications have been read

Zakarya 30/09/2021

Oh ok
So same display regardless?

Tiana 30/09/2021
yeaaa exactly

Zakarya 30/09/2021
Yeah we can do that

Tiana 30/09/2021
otherwise it might get a bit complicated
okay sweet

Zakarya 30/09/2021
But are new notifications
Going to pop up on the bell icon?

Tiana 30/09/2021
yep

Zakarya 30/09/2021
OK cool

Tiana 30/09/2021
and when u click it it erases the number

Zakarya 30/09/2021
Go for it
Perfecto!

★ 1

Tiana 30/09/2021
i'm not actually implementing notifs tho hahaha i just wanted to clarify that the acceptance criteria and tests are right
i think terry's working on the FE still? (edited)

Zakarya 30/09/2021

What exactly do we show in notifications, is there somewhere I can see?

Tiana 30/09/2021

it's explained on the user stories

there's two kinds of notifications

one is for upcoming meetings and one is for lack of contact/progress (edited)

Rebecca 30/09/2021

Oh yeah defect for search: if you search for smth that doesn't fulfil any names it doesn't do anything. I think it should show 0

Tiana 30/09/2021

yeah i agree

should we start creating tasks if we find a bug or smth that is broken etc?

ive created a bug fix label on trello

so u can flag it as that and put it in the product backlog

Rebecca 30/09/2021

Um yeah we should have a diff section for defects

Instead of cramming it in with development

Tiana 30/09/2021

yea i mean we can

i think u do usually put them in sprints tho

so they just go in the product backlog and then we can put them in the sprint (edited)

Rebecca 30/09/2021

Hmm in my internship bugs/defect stuff were kept separate from development and I think that makes sense

Bc we're listed individual bugs too

It doesn't really make sense to me to have bugs with dev

Tiana 30/09/2021

yeah it differs based on how the team wants to do stuff

it's still part of ur sprint tho

Rebecca 30/09/2021

Yes but I feel very strongly about having them be diff columns

Tiana 30/09/2021

okay haha they're still gonna have to be flagged within a sprint regardless

Rebecca 30/09/2021

I feel like it's confusing as well to have them tog when they're 2 separate things to do

Oh yeah that fine idc about that

Tiana 30/09/2021

im not sure what u mean then

do u want a different backlog?

and a different done for bugs?

Rebecca 30/09/2021

i dont think bugs shoud be listed in 'backlog'

for example we have a column for `doing`, like that we should have a column for `bugs/defects`

and then move it to doing as usual i guess

the sprint tags are fine

Tiana 30/09/2021

okeydoke ill make a bug column then

Rebecca 30/09/2021

much thank scrum master

should we do documentation for the defect process or is that too much?

Tiana 30/09/2021

idk i think we need to ask doc about how we're supposed to amnage them

cos personally i still think that bugs should be listed in sprint backlogs but idk what the best practice is

Rebecca 30/09/2021

like for example what i did was like have a doc with all the steps i took to get the defect/find it working fine

Tiana 30/09/2021
so im happy to use a bug list unless doc says otherwise (edited)

Rebecca 30/09/2021
development and testing are 2 diff things
they shouldn't really go under the same backlog

Tiana 30/09/2021
idk i was looking it up a bit
and often bugs are just included in sprint and product backlogs
but idc if it will make u haappy we can have the bug list

Rebecca 30/09/2021
like for example in the workplace the team that does development is separte from the team testing

Tiana 30/09/2021
well that's not always the case

Rebecca 30/09/2021
it just makes sense

Tiana 30/09/2021
depends how big the teams are

Rebecca 30/09/2021
but it doesn't make sense to have bugs inside the development backlog

Tiana 30/09/2021
and company

Rebecca 30/09/2021
that's just so messy

Tiana 30/09/2021
it's a product backlog tho
like in teams that test things themselves
they have all that in the product backlog

and stuff they need to fix

Rebecca 30/09/2021

each individual bug?
that a lot tho
theoretically

Tiana 30/09/2021

well the bugs will be linked to existing tasks it really just depends on the team and the scale
but lets just use the bug list
i dont want to distress u (edited)

Rebecca 30/09/2021

no i just grump rn
idk logically to me idk why you'd have development and bugs tog bc i feel like it would be quite robust

Tiana 30/09/2021

its just cos the bugs are still part of the development and the sprints
but it dont matter everyone does stuff differently

Rebecca 30/09/2021

@Zakarya Click to see attachment

Rebecca 30/09/2021

@team this is the colour theme we've decided on atm, if anyone has other suggestions/objections lmk (edited)

some bugs added to our trello btw. Add whatever bugs you see there as well

also designs have been updated

could put that into our week 9 checklist/docs or whatever @Tiana

Rebecca 30/09/2021

also with the search bar how do we want it to work with like a full name

i think we should for example search hn do and have John Doe show up as a result

@Rebecca also with the search bar how do we want it to work with like a full name i think we should for example search hn do and have John Doe show up as a result

Zakarya 30/09/2021

yeah i can do that

thats simple regex

i forgot to do it

noted it down now

Rebecca 30/09/2021

oh ok bc i remember talking about last name but wasn't sure about the whole

Zakarya 30/09/2021

yeah noted now will fix

Rebecca 30/09/2021

i've listed it and assigned you and put it to doing (edited)

(on our trello)

Tiana 30/09/2021
@Rebecca could put that into our week 9 checklist/docs or whatever @Tiana

yer ive included that

Rebecca 30/09/2021

shoudl we still have the circle of colours besides our progress like on the design?

Zakarya 30/09/2021
@Rebecca shoudl we still have the circle of colours besides our progress like on the design?

u think text is enough?

Rebecca 30/09/2021

well it's bolded so it stands out enough?

Zakarya 30/09/2021

wait lemme look at design

Rebecca 30/09/2021

yeah take a look and lemme know your thoughts

Zakarya 30/09/2021

oh yeah it should be enough in my opinion

Tiana 30/09/2021
oh tru we dont have htose
yeah we can get rid

Zakarya 30/09/2021
unless we want to make it look cool

Tiana 30/09/2021
hm
does someone wanna try making a singular one
and see how easy it is lol
or actually
put in product backlog for if we have itme?

Zakarya 30/09/2021
agree

Tiana 30/09/2021
oke will add to backlog

Rebecca 30/09/2021
Ok cool!
I can do it after dinner and send you screenshots
If it's easy

Tiana 30/09/2021
should we jus leave in product bcaklog for if there's time?

Rebecca 30/09/2021
Ok sure

Tiana 30/09/2021
this is small but should we make the search bar a diff colour?
like grey?
or leave as white

Search for contacts

or leave as white

A screenshot of a contact management application interface. At the top, there is a search bar labeled "Search for contacts". Below the search bar is a table with the following data:

Name	Status	Progress
John Doe	new	● high
Client #2	invited	● medium
Client #3	met	● low
Client #4	negotiation	● high
Client #5	conclude	● medium
Client #6	conclude	● low

6 contacts.

oops ignore the blue but i kinda vibe with it here

Rebecca 30/09/2021

im indifferent, would have to look into changing colour of searchba

1

Zakarya 30/09/2021

yes if possible that will be good :))

Tiana 30/09/2021

thats like an mui serachabrd

whoa

*searchbar

so should be feasible

Zakarya 30/09/2021

A screenshot of the Chetohs application interface. At the top, there is a navigation bar with buttons for "CREATE CONTACT", "EDIT INFORMATION", and "LOG OUT". Below the navigation bar is a search bar labeled "Search for contacts". The main area displays a table with the following data:

Name	Status	Progress
John Doe	New	High
Jane Doe	New	Low
Jenny Dope	Conclude	Medium
Johnny Brando	New	High

4 contacts.

this good?

Tiana 30/09/2021

beautiful !!!!!!!

Zakarya 30/09/2021

WOOHOO!

Tiana 30/09/2021

can u pls fix the name of edit info

Zakarya 30/09/2021

oh man

Tiana 30/09/2021

wait eidt info hasnt been merged w password yet has it

Zakarya 30/09/2021

didnt notice that haha

not yet no

Tiana 30/09/2021

sure nws

Zakarya 30/09/2021

i think Nic working on that

Tiana 30/09/2021

i think @Nicholas wss doing that

yerrrr

but buttons look good!

Zakarya 30/09/2021

yaaay! 😊

Tiana 30/09/2021

also might change the add contact button on the designs for create client
probs hsould be consistent with other buttons

Zakarya 30/09/2021

isnt it consistent?

should i get rid of the plus?

Tiana 30/09/2021

no no that's good

i mean on the actual create contact page
the button to create it

Zakarya 30/09/2021

oh ok

Tiana 30/09/2021

i think uve used the button we've been using anyways so that's fine
but it was diff on the design

Zakarya 30/09/2021

yeah i did

i can trv to do that too :))

Tiana 30/09/2021

nah i changed it dw
i prefer the consistency
oh also can we makethe button sad "add client" not "add contact"
does that make more sense?

Zakarya 30/09/2021

done

Tiana 30/09/2021

danke

Zakarya 30/09/2021

also
live search works now
no need to press enter

Tiana 30/09/2021

👑 amaze

1

Rebecca 30/09/2021

could you push that stuff by today? just so i dont have stuff in the way while i reorganise the main page lol

Zakarya 30/09/2021

yes I have pushed

Rebecca 30/09/2021

sick

also i think i either accidentally added a new client or a blank one was made oop

Zakarya 30/09/2021

thats all g!

removed :))

Rebecca 30/09/2021

long search bar

Chetohs

Search for contacts

Name	Progress	Priority
------	----------	----------

HANGE PASSWORD

John Doe	New	High
Jane Doe	New	Low
Jenny Dope	Conclude	Medium
Johnny Bravo	New	High

5 contact(s)

Zakarya 30/09/2021

looks great!

Tiana 30/09/2021

noiceeeeeee

ioooooo interesting i think i did that

i was testing it

didnt think it worked

Rebecca 30/09/2021

is the contact(s) thing ok

Tiana 30/09/2021

yea thats fine

donut stress about making it change

that is very minor

Rebecca 30/09/2021

yeah ok

i push so we can merge all the changes rn

you know what makes me happy

merges with no conflicts

Zakarya 30/09/2021
Same! 📲

Rebecca 30/09/2021
feel free to redeploy

Zakarya 30/09/2021
I need to make some minor changes in the code before I do that
Cos otherwise I have to change the link of all post and get requests

Rebecca 30/09/2021
yeah no worries i just hate seeing all the buttons haha

Zakarya 30/09/2021
Haha u won't see it on local now
In the latest push

Rebecca 30/09/2021
ok with this latest change to the page it makes it so much easier to align everything haha

Zakarya 30/09/2021
Haha yeah sure does! All the best :))
 1

Rebecca 30/09/2021
ok i know what's wrong with the logo stuff it's bc if you have a vertical scroll that pops up, clicking on any of the top bar options will get rid of it and it shifts the entire top bar since it takes up 100% of the screen so I don't think it's a bug but just annoying

Zakarya 30/09/2021
Is this for menu?

Tiana 30/09/2021
ah there shouldbbe a way to fix that
cos yea also if u scroll down and click on notifs is hops back up to the top

Rebecca 30/09/2021
there's no problem with that for the menu so just need to port something over? idk [@Terry_t](#)

 @Zakarya Is this for menu?

Rebecca 30/09/2021
for any of the options up top you click on

 1

 **Terry_t** 30/09/2021
Wait
Lemme check

 **Rebecca** 30/09/2021
it doesn't do that for the menu so idk what is diff

 **Terry_t** 30/09/2021
Ah i see
Lemme try something

 **Rebecca** 30/09/2021
can you also do the medium priority thing we had for notifs?
dont need to bother with the low priority notif but would be nice to have the notifs fully done by tues  (edited)

 **Terry_t** 30/09/2021
wait, I don't think I'm working on the backend for the notifs?

 **Rebecca** 30/09/2021
oh you're not? well if you can still get the FE bits working hopefully? bc the backend just need to create data and whatnot

 1
if you could do the BE too that would be great it looks like a few of us have quite a few cards in doing rn so a bit busy
regardless hopefully done by first week of the last sprint haha
maybe **@Zakarya** you can help?

 **Terry_t** 30/09/2021
soz, I legit avoided all the backend parts since last year 
so basically I have no ideas how to do any BE parts...

 **Rebecca** 30/09/2021
i think zak also has 1 card atm in the doing column so if he's not too busy y'all can get that up and running

Terry_t 30/09/2021

The screenshot shows a contact list titled "Chetos" with four entries:

Contact	Status	Risk
John Doe	New	High
Jane Doe	New	Low
Jeremy Doe	Conclude	Medium
Johnny Brass	New	High

Below the list is a note: "0 contacts". To the right, there is a message history:

- 1 hour ago: Meeting with Jane Doe. Open today.
- 1 day ago: 1 day since contact with John Doe.
- 2 days ago: Meeting with Johnny Brass. Open today.

better?

Rebecca 30/09/2021

if it works then 😊

Terry_t 30/09/2021

it's just a position thing lul

@Rebecca if it works then 😊

Terry_t 30/09/2021

lets goooooo

@Terry_t Click to see attachment

Zakarya 30/09/2021

umm the thing is, i dont think we set meeting times with clients do we? anywhere?

Rebecca 30/09/2021

it's manually input i think?

like the "next meeting" thingy

Zakarya 30/09/2021

on the profile page?

Rebecca 30/09/2021

yes iirc

we had like meeting and contact stored right?

The screenshot shows a user profile or company info screen. On the left, there are two buttons: "MEDIUM" and "MET". On the right, under "Company Info", the following details are listed:

- Name: Cheetos
- Location: Melb
- Position: Head

Someone change the design on figma to remove all of this?

 @Rebecca Someone change the design on figma to remove all of this?

Zakarya 30/09/2021
thats why I was confused

Rebecca 30/09/2021
did we decide not to do it?

Terry_t 30/09/2021
Lemme check the requirement
Notifs for meeting days is a 'could have'
We don't need to do it tbh

Rebecca 30/09/2021
then what's the notif that he wanted?
is it the x amount time since last contact?

Terry_t 30/09/2021
Yeh
Apparently
We could ask him again during the sprint review
But i reckon we wouldn't have to do it

 1

Rebecca 30/09/2021
so uh just don't implement notifications?
if it's too hard then ig that's fine but if it's doable we should lmao we have 1 sprint left

Zakarya 30/09/2021
we could do just like last contact?

Rebecca 30/09/2021

tiana and i are going to do a sprint planning soon so we can have a chat about the stuff left

👍 2

Zakarya 30/09/2021

yeah thats good

really need that

Rebecca 30/09/2021

yeah like x amount of time since last contact? (edited)

wasn't that one prioritised

Zakarya 30/09/2021

yeah that can be done

i mean if that can be done then other one can be done too ig but might take a while

Rebecca 30/09/2021

i think we should at least try do it for the one he wanted more

Zakarya 30/09/2021

yeah yeah i can do that!

:))

Rebecca 30/09/2021

the sprint is coming to an end we could finish the stuff in time hehe

our backlog is emptier than last time i think

Zakarya 30/09/2021

yeah thats the aim! :))

yeah it sure is!

1 October 2021

Zakarya 01/10/2021

@Nicholas , I made a config.json for the crm folder which is like the dotenv for the frontend, the local host link is there so if you need to use it anywhere please call it from there than you :))

Tiana 01/10/2021

yeah the one that was prioritised was x time since last contact
and the idea was Fanyu could just edit that manually to put in the last time he had contact
and then if 7 days had passed since that date then he'd get a notif

Tiana 01/10/2021

@Zakarya cheers for filling out the hosting part of the checklist 😊

Tiana 01/10/2021

what tools do we need for testing
/have we used

Rebecca 01/10/2021

Manually and Trello?

We've done unit testing too right

Tiana 01/10/2021

well yea but like

the computer and network and that (edited)

also we might need to formalise our bug reporting system a bit more

but ill send details soon

Rebecca 01/10/2021

Thank you for the details! ❤️

Tiana 01/10/2021

shush bec

ohhh

there's 3 kinds of notifications

Rebecca 01/10/2021

What's the third?

Tiana 01/10/2021

the third is low priority but it's "lacking progress"

so i guess like if its been a while since the last time progress was changed

Rebecca 01/10/2021

Rightio

Tiana 01/10/2021

btw all da designs have bene updated

i think they look a lot better now

2

especially w the menu amen

Rebecca 01/10/2021

Oh didn't know you were religious Tiana. What religion?

1

Tiana 01/10/2021

god bless

1

Rebecca 01/10/2021

I'll say a little prayer for you

1

Tiana 01/10/2021

@team new system of reporting bugs - there's now a defect report template in this folder, and all defects/bugs should be reported in a new document that uses that template. the document should then be linked in the description of a trello card under "bug triage" that has a name which very briefly describes the issue. see defect folder here: https://drive.google.com/drive/u/2/folders/1XEogPivNU_i7Xfujhf7lcfFltQqgt6Ss (edited)

1

ill fix up all the current bugs, so just for future reference

Tiana 01/10/2021

ok have submitted wk 9 checklist!

2

-  **Zakarya** 01/10/2021
yaaay! thank you! 🎉
-  **Nicholas** 01/10/2021
Thank you Tiana
-  **Terry_t** 01/10/2021
Thanks Tiana!
-  **Rebecca** 01/10/2021
you are a star
-  **Tiana** 01/10/2021
no worries hope it was more detailed this time haha
 1
-  **Zakarya** 01/10/2021
its gonna be a 10/10 lets go! :))
-  **Tiana** 01/10/2021
love the ambition 😁
 1
-
- 2 October 2021
-  **Tiana** 02/10/2021
fyi team - Fanyu has said we should not search by mobile and we shouldnt implement notifications for lacking progress
he decided they're redundant
-  **Rebecca** 02/10/2021
he's also indifferent to dark mode bc he didn't really ask for it
 1
-  **Tiana** 02/10/2021
so team meet on monday 8pm?
 4

Rebecca 02/10/2021
@team

3 October 2021

Zakarya 03/10/2021
So I fixed all bugs except this, didnt make sense

Also the cross thingy for search bar, apparently it doesn't work for anyone, so for now I don't think we can fix it but we can get rid of it completely, like hide it. :))

@Zakarya So I fixed all bugs except this, didnt make sense 🤦

Tiana 03/10/2021

☀️ 1

did u watch the video?
and read the defect report
theres a demo

🤔 1

@Zakarya So I fixed all bugs except this, didnt make sense 🤦

Rebecca 03/10/2021

This means that when search is cleared, the chosen filters don't reset but they don't apply to the client list. So to get the filter to work from then you have to deselect and then select again

-  **Tiana** 03/10/2021
yeah exactly the defect report and video should explain it 😊
so we can either get the filter to clear when search is cleared, OR (which probs makes more sense) we can have a manual "clear" button for the filter
that way u dont lose the filter when ur entering a diff search but u want the same criteria (edited)
-  **Rebecca** 03/10/2021
Logically when search is cleared the filter shouldn't clear and the filter should still be applying, no?
-  **Tiana** 03/10/2021
yeah thats what ive just said
-  **Rebecca** 03/10/2021
Filter don't need a clear can just deselect
Oh yeah sorry I was typing 😅
-  **Tiana** 03/10/2021
yeah clear filter is the same as deselect all
it oke
-  **Rebecca** 03/10/2021
Forgive me for I have sinned
 1
-  **Tiana** 03/10/2021
may the power of chirst compell u'
 1
compel
-  **Rebecca** 03/10/2021
You're exorcising me?
-  **Tiana** 03/10/2021
yes
 2
-
-  **Rebecca** 05/10/2021
Do we need to meet before the tute today since we met yesterday?

5 October 2021

Lakaiya 05/10/2021

I think we had the sprint planning right so should be all g

Tiana 05/10/2021

we gotta do the retrospective guys

we can do it at 4 tho

it wont take long

Rebecca 05/10/2021

oh ye

okie

Tiana 05/10/2021

oh noo i think the reminder for the team meet has broken cos of the time change

sad

i will fix

Rebecca 05/10/2021

many things broke bc of the time change

like my sleeping schedule

1

Tiana 05/10/2021

https://docs.google.com/document/d/1BD1kfgpT_dGz5P8Ua9eAqIZYxVI6qW_6ukjg5hXTbjw/edit

Google Docs - create and edit documents online, for free.

Create a new document and edit with others at the same time -- from your computer, phone or tablet. Get stuff done with or without an internet connection. Use Docs to edit Word files. Free from Google.

Tiana 05/10/2021

@Terry_t thats the sprint retrospective if u can fill out ur thoughts when ur done with work

Terry_t 05/10/2021

Okay!

 Terry_t 05/10/2021

video0.mov 
3.68 MB

💡 2

So basically every dimensions works except for the phone now

 **Rebecca** 05/10/2021
briliant

 **Zakarya** 05/10/2021
hopefully you can get phoen to work now 😭 (edited)

 @Terry_t Click to see attachment

 **Tiana** 05/10/2021
<https://mui.com/components/avatars/>

React Avatar component - MUI

Avatars are found throughout material design with uses in everything from tables to dialog menus.

The React UI library

? for profile photos

Rebecca 05/10/2021

there's still the problem with actually handling the image lol
but ye that would be the top way to display it

@Rebecca there's still the problem with actually handling the image lol

Tiana 05/10/2021

wdym
idk how we'd upload them
but that's an easy way to present them

Rebecca 05/10/2021

well the avatar component is only how you would present it
you would have to handle uploading, authenticating and actual storage and then calling

6 October 2021

Zakarya 06/10/2021

Hey team
I was thinking
Can I make 2 separate buttons for date and time?

That way we can open a separate calendar to set date and then a drop down or a normal text field for time
I am doing that for now but if we need to change let me know

Zakarya 06/10/2021

4	5	6	7	8	9	10
11	12	13	14	15	16	17
18	19	20	21	22	23	24
25	26	27	28	29	30	31

so a calendar pops up for setting date
and just a normal text box for time
have a look on profile page if anything doesn't make sense :))

 @Zakarya That way we can open a separate calendar to set date and then a drop down or a normal text field for time

 **Tiana** 06/10/2021

that's a good idea

would it make notifications a bit tricky having them separate ?

i was thinking about just removing the time part and having it all be one line since Date stores the date and time
also one thing we did forget about is the ability to edit all the diff things

ill make tasks for it

 **Tiana** 06/10/2021

@Zakarya did u merge the branches?

 **Rebecca** 06/10/2021

yes he did

he also sounds angry at search and filter with his commits haha

 1

not sure how complete your fix is but this is what i'm seeing for the latest push [@Terry_t](#)

Name	Progress	Priority
John Doe	New	High
Jenny Doe	New	High
Johnny Bravo	Met	Medium
Marshal Mathers	Invited	Low

 1

Terry_t 06/10/2021

yeh, I just saw that too

I'll fix it later

Rebecca 06/10/2021

getting pretty close tho gg (edited)

also again can you pls use 4 and not 2 for indentation

Terry_t 06/10/2021

I tried to change it so many times lul, even manually

1

but yeh, will do

@Tiana i was thinking about just removing the time part and having it all be the one line since Date stores the date and time

Zakarya 06/10/2021

No shouldn't be a problem

@Rebecca he also sounds angry at search and filter with his commits haha

Zakarya 06/10/2021

Heyy my all caps don't mean angry Rebecca haha

1

@Rebecca he also sounds angry at search and filter with his commits haha

Tiana 06/10/2021

he does

but rmb its his personality

1

7 October 2021

Zakarya 07/10/2021

hey team, a small update, for the UserHome.js page, I had to copy over the code from Topbar.js for notifications, so please do code for that on that page thank you :)

1 hour ago

Meeting with John Doe, 10:00 on 16-9-2021

Any ideas for how I can do this?

Zakarya 07/10/2021

Also @Terry_t , something wrong here

NameProgressPriority ⚡

⌚ @Zakarya Any ideas for how I can do this?

Rebecca 07/10/2021

Don't worry about it, I think that's a bit hard and not exactly what we need

Rebecca 07/10/2021

Ok guys looks like fanyu is kinda leaving it up to us. I reckon we get a sort function for alphabetical at the very least I suppose

Zakarya 07/10/2021

From what I understand he saying if it's hard for us to do the priority sorting (which we already one) then we can do the alphabetical right

Rebecca 07/10/2021

Yep! That's what I get from it too

Zakarya 07/10/2021

Then we can let him know

Rebecca 07/10/2021

But he had ordering by many other things too so now he's giving us permission to stick to alphabetical

Zakarya 07/10/2021

We done the other sorting

Rebecca 07/10/2021

Yeah we've already showed him it

Zakarya 07/10/2021

But it's fixed now haha

Rebecca 07/10/2021

Yeah lol

Anyway alphabetical should be alright then?

Zakarya 07/10/2021

Yeah ig

Just one way?

Rebecca 07/10/2021

He isn't very specific with it lol. He didn't answer my other questions and he's not v responsive

So at least order A-Z and maybe Z-A

By last name maybe? That's usually how it's done

Or can do first too if that's simple enough

Zakarya 07/10/2021

First it is

Rebecca 07/10/2021

Ok let's try get at least that down and then we can evaluate

Terry_t 07/10/2021

bruv who reverted my commits.....

@Terry_t bruv who reverted my commits.....

Zakarya 07/10/2021

did u find out :((

Terry_t 07/10/2021

I manually put everything back already but such a pain tbh

especially with MOC as well 😢

Zakarya 07/10/2021

yeah it can be a pain

so sorry to hear

Rebecca 07/10/2021

ah unfortunately if it was reverted somehow it could've only been one of zak's commits as he's the only one with commits after yours 😅

😢 2

but i dont see an outright revert so it prob just merging error perhaps somewhere

Zakarya 07/10/2021

@Terry_t which file was it

Terry_t 07/10/2021

userHome and component.css

I only made changes to those lul

Zakarya 07/10/2021

idk how then cos i didnt have to do any conflict handling

thats odd

sorry about that man

Terry_t 07/10/2021

that's aight

bit of a pain, but kinda take my mind off MOC lul

Zakarya 07/10/2021

also @Rebecca , do we wanna put sort alphabetically at the top of the filter list?

↳ 🧑‍💻 @Terry_t bit of a pain, but kinda take my mind off MOC lul

Zakarya 07/10/2021

haha so your welcome then? 😊

😢 1

↳ 🧑‍💻 @Zakarya also @Rebecca , do we wanna put sort alphabetically at the top of the filter list?

Rebecca 07/10/2021

i think we maybe might separate out sort and filter as diff functions?

at least that's how i believe it's currently envisioned as

Zakarya 07/10/2021

ok then how we doing that

Rebecca 07/10/2021

just another button haha
but not filter button

Zakarya 07/10/2021

so we click on it to sort alphabetically and then click on it again to go back?

using this one

Name	Progress	Priority
John Doe	New	High
Jenny Doe	New	High
Johnny Bravo	Met	Medium
Marshal Mathers	Invited	Low

@Terry_t

is this normal

Rebecca 07/10/2021

Yes I'm happy with that if you all are?

@Zakarya is this normal

Rebecca 07/10/2021

that was the state this morning when i last pulled

Zakarya 07/10/2021

whats wrong with material ui icons

i cant find them
and mui icons arent working
so stupid

 **Rebecca** 07/10/2021
wym?

if material ui isn't working just try mui

 **Zakarya** 07/10/2021

```
import Sort from '@material-ui/icons/Sort';
```

this is from before and it works

this is now

```
import SortByAlphaIcon from '@mui/icons-material/SortByAlpha';
```

and its not working

 **Rebecca** 07/10/2021
yes you need to npm install mui

 **Zakarya** 07/10/2021
i cant find the material ui icons library
i did

 **Rebecca** 07/10/2021
material-ui is the older 'version' of mui
they're diff

 **Zakarya** 07/10/2021
yeah u told me haha
lemme try again ig

```
./node_modules/@mui/styled-engine/index.js
Module not found: Can't resolve '@emotion/styled' in
'C:\Users\zakry\Documents\Year3\it_project\it_project\code\crm\node_modules\@mui\styled-engine'
```

this weird error

any idea?

Rebecca 07/10/2021

looks like you need to npm install something else
check the @ on goog

Zakarya 07/10/2021

also installed that emotion style thingy

Rebecca 07/10/2021

try `npm install @emotion/react`

Zakarya 07/10/2021

i did

no success

Rebecca 07/10/2021

what about `npm install @emotion/styled` as well

@Zakarya Click to see attachment

Terry_t 07/10/2021

why is this keep happeningggggg

Zakarya 07/10/2021

can try that

@Terry_t why is this keep happeningggggg

Zakarya 07/10/2021

you working on FE, you explain

Terry_t 07/10/2021

Chetohs		
Name	Frequent	Priority
JW-OOE	None	High
jeremy.lion	None	High
DRIVE Blue	Mid	Medium
Marcelo.Rodrigues	Often	Low

when I'm in developer tools it looks fine lul

 **Rebecca** 07/10/2021

maybe it's just not responsive enuff?
like it's fine for your browser/laptop

 @Rebecca maybe it's just not responsive enuff?

 **Zakarya** 07/10/2021

yeah no work on my large screen

 @Rebecca maybe it's just not responsive enuff?

 **Terry_t** 07/10/2021

idk why lmao

 @Rebecca what about `npm install @emotion/styled` as well

 **Zakarya** 07/10/2021

this worked thanks

 1

 @Zakarya yeah no work on my large screen

 **Terry_t** 07/10/2021

same, lul

 @Terry_t same, lul

 **Zakarya** 07/10/2021

what if Fanyu has large screen

 1

we no good

 **Rebecca** 07/10/2021

lol now you feel my pain?

i legit went crazy bc it wasn't nice on all devices and stuff

-  @Terry_t Click to see attachment 
- Rebecca** 07/10/2021
also i ran into the same problem with centring bc using percentages to offset from one side doesn't mean it actually centres properly, just gives you that percentage of space and ignores the other side lol
-  **Terry_t** 07/10/2021
it wasn't properly centered becuz I used the leftover spaces for side bar
-  **Rebecca** 07/10/2021
we could try negate that by getting rid of the titles component and integrating it within the same code as the rest idk you could envelop them in a single box instead?
-  **Terry_t** 07/10/2021
hmmm
-  @Terry_t it wasn't properly centered becuz I used the leftover spaces for side bar
Rebecca 07/10/2021
oh hahaha nah just centre it fully dont worry about the space for the side bar
-  @Rebecca oh hahaha nah just centre it fully dont worry about the space for the side bar
Terry_t 07/10/2021
okiee
-  @Rebecca we could try negate that by getting rid of the titles component and integrating it within the same code as the rest idk you could envelop them in a single box instead?
Terry_t 07/10/2021
we can tbh
but it such a pain moving stuffs around tho
-  **Rebecca** 07/10/2021
i mean that's kinda worst case scenario but having all these components tog and not separated is not best practice 😊 but works > pretty code
 1
-  @Rebecca i mean that's kinda worst case scenario but having all these components tog and not separated is not best practice 😊 but works > pretty code
Terry_t 07/10/2021
exactly haha

Terry_t 09/10/2021

Oops never realised bout this...

😊 1

Zakarya 09/10/2021

just set horizontal scroll to fixed?

Terry_t 09/10/2021

Nah just need to change the position for the titles lul

All g now

Zakarya 09/10/2021

oh cool thats good! :))

11 October 2021

Rebecca 11/10/2021

Hey guys recently got my second jab and I'm feeling kinda awful

😢 1

 @Rebecca Hey guys recently got my second jab and I'm feeling kinda awful 
Zakarya 11/10/2021
oh no, same here, take some meds and get a lot of rest, hope you recover quickly 

 **Rebecca** 11/10/2021
ladies and gentlemen I have good news
I finally got theme to work
bad news I can't find a good colour

i think the second one looks better right
oh damn login is not part of App.js.....
that's how I'm propagating the theme

 @Rebecca Click to see attachment 
Zakarya 11/10/2021
yeah this looks good!

Rebecca 11/10/2021

as in the login doesn't have it's own route which is a bit of a problem

→ **@Rebecca** oh damn login is not part of App.js.....

Zakarya 11/10/2021

oh ok, were you able to add it?

Rebecca 11/10/2021

lemme see if i can fix

→ **Zakarya** oh ok, were you able to add it?

Zakarya 11/10/2021

its just the home route isnt it

```
12 import Register from './Register/Register';
13 import useToken from './useToken';
14 import Profile from './Profile/Profile';
15 import EditInfo from './Edit/EditInfo';
16 import AddContact from './MainPageComponents/AddContact';
17
18 function App() {
19   const { token, setToken } = useToken();
20
21   if(!token) {
22     return <Login setToken={setToken} />
23   }
24
25   return [
26     <BrowserRouter>
27       <Switch>
28         {/* User Home Page Route */}
29           <Route exact path="/" component={UserHome}>/>
```

line 22

don't make a route for it

it's supposed to be that way

Rebecca 11/10/2021

that's the problem

i think i have a fix lemme see

Zakarya 11/10/2021

ok be careful

Rebecca 11/10/2021

i don't think there's a darker red

Zakarya 11/10/2021

that looks good

Rebecca 11/10/2021

guys you have no idea how long i spent on that haha

1

bc of v4 vs v5

Zakarya @Rebecca bc of v4 vs v5

11/10/2021

whats this

Rebecca 11/10/2021

(we're using mainly v4)

version

Zakarya 11/10/2021

ooosh

you fianlly got it! well done! :))

1

Rebecca 11/10/2021

1

Tiana 11/10/2021

are we using a mix of v4 and v5 of mui?
does that work fine?

Rebecca 11/10/2021

we shouldn't honestly
it could break stuff

Tiana 11/10/2021

yea lel
what's using v5 tho

Rebecca 11/10/2021

whatever is importing `mui`
`material-ui` is v4

Tiana 11/10/2021

yeah ik
but i mean where
i dont believe theres any on profile page

Rebecca 11/10/2021

i think you can port v5 to v4 just need to check documentation
snackbar

Tiana 11/10/2021

ah
yeah u just need to go off of the v4 docs
snkacbar existed in v4

so i dont think it would be too diff
did u do the themeing in v4 or 5 tho

 **Rebecca** 11/10/2021
v4

 **Tiana** 11/10/2021
oke good

 **Rebecca** 11/10/2021
kept it consistent

 **Tiana** 11/10/2021
cos yeah it's quite diff in v5 i believe
themeing and customisation stuff at least
but idk

 **Rebecca** 11/10/2021
also the problem with our main page is that our "titles" and client list aren't wrapped tog lmao
whoever is on that
ok so we're using `red[900]` fyi [@Tiana](#)
if you wanna use that for design purposes

 **Tiana** 11/10/2021
oke
i can edit them
later this week
or something
is that critical

 **Rebecca** 11/10/2021
no just wanted to let you know!

 **Tiana** 11/10/2021
oke danke 😊
 2

Terry_t 12/10/2021

@team I don't think I can make it to our tute today :(((

There's an emergency at work, as manager, I have to stay back lol (edited)

Rebecca 12/10/2021

Name	Progress	Priority	Actions
Jenny Doe	New	High	<input checked="" type="checkbox"/> New <input type="checkbox"/> Invited <input type="checkbox"/> Met <input type="checkbox"/> Negotiation <input type="checkbox"/> Conclude
Elon Musk	New	High	<input checked="" type="checkbox"/> New <input type="checkbox"/> Invited <input type="checkbox"/> Met <input type="checkbox"/> Negotiation <input type="checkbox"/> Conclude
Dulapewp Johnson	New	High	<input checked="" type="checkbox"/> New <input type="checkbox"/> Invited <input type="checkbox"/> Met <input type="checkbox"/> Negotiation <input type="checkbox"/> Conclude
Johnny Bravo	Met	Medium	<input type="checkbox"/> High <input checked="" type="checkbox"/> Medium <input checked="" type="checkbox"/> Low
John Doe	Invited	Low	<input type="checkbox"/> High <input checked="" type="checkbox"/> Medium <input checked="" type="checkbox"/> Low
Marshal Mothers	Invited	Low	<input type="checkbox"/> High <input checked="" type="checkbox"/> Medium <input checked="" type="checkbox"/> Low

Zakarya 12/10/2021

Selecting progress & priority doesn't only show results that match BOTH selected filters

ZA

Rebecca 12/10/2021

@Terry_t do you think you could finish making it responsive and alignment issues by next tuesday? (that's when our demo is)

Terry_t 12/10/2021

It's doable

Tell doc that's my main task for this week please, thank youuu

ZA @Terry_t Tell doc that's my main task for this week please, thank youuu

Zakarya 12/10/2021

no stand up so is ok :))

1

Rebecca 12/10/2021

what are your emails guys?

oh nvm ill just create invite link

Tiana 12/10/2021

yer

Rebecca 12/10/2021

https://www.canva.com/brand/join?token=undrzDMnUQ_UQ1fCDJlzRQ&referrer=team-invite

https://www.canva.com/design/DAEslkwuf9Q/GMxLV2z0Cn9umH3LH-_qvA/edit?utm_content=DAEslkwuf9Q&utm_campaign=designshare&utm_medium=link2&utm_source=sharebutton

Canva

HOT CHEETOS presentation

Check out this presentation designed by Rebecca Ye.

Tiana 12/10/2021

i dont think taht design is in the team

Rebecca 12/10/2021

changed permissions should werk now

Rebecca 12/10/2021

canva doesn't support pics where background has been removed? 😞

Tiana 12/10/2021

did u save as a png?

it does

Rebecca 12/10/2021

no i noot save

i just copy over

Tiana 12/10/2021

check what file it is

transparent bg doesnt work with jpg

otherwise save as a png

and upload to canva

Rebecca 12/10/2021

2

Tiana 12/10/2021

hehe

do u like the theme

i changed the colours from the original

Rebecca 12/10/2021

i like the orange theme
cheeto vibez

Tiana 12/10/2021

yeehaw

Zakarya 12/10/2021

yes looks so cool!

Rebecca 12/10/2021

should i buy some hot cheetos and display it

Tiana 12/10/2021

it was like a blue and pink theme

yes

Rebecca 12/10/2021

i think we should ALL get hot cheetos and display it in our screen

Tiana 12/10/2021

we should be eating cheetos

Rebecca 12/10/2021

during the pres

Tiana 12/10/2021

yes

i think we ALL eat hot cheetos

Rebecca 12/10/2021

it's just katy perry xx

Tiana 12/10/2021

also yes i know that bio is obnoxious but i think we should go for the pitchy company vibe
its fun

Rebecca 12/10/2021
ugh i hate being stuffy
i get embarazz

Tiana 12/10/2021
stuffy?

Rebecca 12/10/2021
like pretentious and linkedin vibes

Tiana 12/10/2021
yeah but obviously its not legit

1

we're just havin a bit of fun
so its not embrarazzing
plus we can act all cheeto obsessed
we should drop lots of cheeto jokes

Rebecca 12/10/2021
wym act
if you need to act like you love hot cheetos should you be in here
we should do a skit
with the "i think WE ALL"
liek
"some have asked us who eats the most hot cheetos"
"it's bec"
"definitely bec"
"i think WE ALL love hot cheetos"
or we could directly mirror the interview
it won't go over well if the others not up to date with pop culture tho 😞

Tiana 12/10/2021
i edited it
now it has heat jokes

Rebecca 12/10/2021
nice

should we say "flaming passion"
I want flaming to be somewhere in there
or more specifically "flaming hot" (edited)
im down to present the team details
and talk about hot cheetos

Rebecca 12/10/2021
does anyone know what this is about? (warnings at compilation time)

Line 30: Asset pack conflicts for existing dependency 'com.badlogic.gdx:gdx-box2d:1.9.10' (from 'com.badlogic.gdx.gdx-platform:1.9.10') and 'com.badlogic.gdx:gdx-box2d:1.9.11' (from 'com.badlogic.gdx.gdx-platform:1.9.11'). Either exclude them or resolve the dependency version.

Zakarya 12/10/2021
oh i think those are from what i added
i can look into it

Rebecca 12/10/2021
ok sure i'm trying to get rid of all the warnings

Zakarya 12/10/2021
yes thats a good idea

Rebecca 12/10/2021
we have a lot of things that are defined but never used

Zakarya 12/10/2021
yeah will look into it :))

1

Tiana 12/10/2021
can everyone send a pic of themselves for the presentation

Rebecca 12/10/2021
no
you can use this

 **Tiana** 12/10/2021

i found a better one for u bec
it on the slides 😊

 **Rebecca** 12/10/2021

NOOOO CANCELLEDT (edited)

 **Tiana** 12/10/2021

hheeheh

 **Rebecca** 12/10/2021

i report you
dont make me bring out toe

 **Tiana** 12/10/2021

 @Rebecca you can use this 

 **Tiana** 12/10/2021

make this a reacc

 2

Tiana 12/10/2021

sob

Rebecca 12/10/2021

same

1

15 October 2021

Zakarya 15/10/2021

Hey team, any place we decided to put down whos working on which part of the presentation?

Tiana 15/10/2021

i don't think we have

i think we probably need to have a meeting about the presentation v soon

2

cos the slides themselves wont take long but working out who is gonna talk about what will

Tiana 15/10/2021

when is everyone free tmr/sun

@team

Nicholas 15/10/2021

I'm free on both days

Terry_t 15/10/2021

Tmr after 10pm for me

Tiana 15/10/2021

eek okay maybe we do sunday then

Rebecca 15/10/2021

I'm good for both

Zakarya 15/10/2021

Sunday what time

Rebecca 15/10/2021

would night be better? Bc of your tz

Zakarya 15/10/2021

Anytime after 4 pm is good

4 pm AEDT

Rebecca 15/10/2021

AEDT?

Ok cool

Tiana 15/10/2021

should we do sat

i can do after 10 ill just be a bit sleepy

its just probs the sooner the better

👍 2

Rebecca 15/10/2021

Any way you can do before 10? [@Terry_t](#)

Terry_t 15/10/2021

Hmm 9.30?

Cuz my shifts end at 9

Rebecca 15/10/2021

that works for me if everyone else is happy with it

👍 3

Rebecca 17/10/2021

Meeting tmr for presentation at 5pm AEDT? [@team](#)

👍 3 ⚡ 1

Tiana 17/10/2021

@team i have filled out the template for the slides, can everyone pls pop in their info for their slides when they can :)) try make it sound pitchy and minimise words (add what youll say in the noted if you want)!

and also if u can pls put your photo on the team page that would be sweet

2

18 October 2021 —

Tiana 18/10/2021

oh we're supposed to invite fanyu?

Rebecca 18/10/2021

Oh are we?

Tiana 18/10/2021

idk the slides seemed to indicate that

Rebecca 18/10/2021

I'll message him

Tiana 18/10/2021

doc didnt say that but ig we should
also we should organise the review/handover (edited)
cos the checklist asks us if we've organised the handover

Rebecca 18/10/2021

Yes what time are you available?

Tiana 18/10/2021

i think we all probs need to be there
unless we do the review and handover separate

Rebecca 18/10/2021

It'll be easier to do them tog
As in to organise

Tiana 18/10/2021

yea sure then when suits everyone?
can we do it next week maybe

Rebecca 18/10/2021

Sure. When?

Tiana 18/10/2021

idm maybe monday arvo or tuesday

Rebecca 18/10/2021

I'm good for that

Tiana 18/10/2021

sweet

do we have a week12 folder

Rebecca 18/10/2021

Not atm I belieb

Tiana 18/10/2021

can someone pls make one

i am incompetent

@**Tiana** can someone pls make one

Nicholas 18/10/2021

done

Tiana 18/10/2021

tysm

Tiana 18/10/2021

is alphabetical sort by first or surname

or is it first then surname

Rebecca 18/10/2021

ok fanyu replied to the team but guys Tuesday next week 4pm AEDT we're gonna do the review/retrospective/handover all tog. Any problems? **@team**

1

Tiana 18/10/2021

probs not retrospective

we can do that without fanyu

like after he leaves maybe

Rebecca 18/10/2021

yeah i meant but we do it in the 1 sesh
but retro after yea

Tiana 18/10/2021

teeee

Rebecca 18/10/2021

?

Tiana 18/10/2021

*yeeee

19 October 2021

Zakarya 19/10/2021

Hey team, do you think in our live demo, we also show backend? Or atleast mention that the users private details such as password have been hashed to preserve security?

Rebecca 19/10/2021

yeha that might be a good idea

Tiana 19/10/2021

yeah good shout

Nicholas 19/10/2021

I guess we could also showcase entering the wrong login info cos i have error messages for those just to prolong the presentation. I also have success and error messages for editing your own profile info so if we really want to prolong it i guess we could change login info, logout and login again

Rebecca 19/10/2021

yes that's good i like that pop up

Tiana 19/10/2021

yep good shout

@Terry_1 maybe outline what ull cover somewhere so u rmbr the order and what to do

Rebecca 19/10/2021

yea good idea, it would be nice to be as smooth and cohesive as possible

Tiana 19/10/2021

@Terry_t where ua t

Rebecca 19/10/2021

let's hop into the tute room 5 mins before to set up and stuff
so like 4:10pm AEDT

Tiana 19/10/2021

i think we were supposed to hop in 15 before

isnt that wat doc said last week
or 10 mins

Rebecca 19/10/2021

oh ok yes

also we need to upload the slides, is everyone done with them?

Tiana 19/10/2021

yea im g

Nicholas 19/10/2021

yup

Terry_t 19/10/2021

same

Tiana 19/10/2021

actually

one sec

Rebecca 19/10/2021

ok

Zakarya 19/10/2021

So hop 15 min before?

Tiana 19/10/2021

@Nicholas ur slide just needs to be updated
the requirements

Zakarya 19/10/2021

Guys my nets been soo dead lately :((

1

Tiana 19/10/2021

it says notifications for upcomin meetings and too much time between meets

Zakarya 19/10/2021

Hopefully mothing bad happens

Tiana 19/10/2021

but the other notif isnt too much time between meets its too uch time since having contact
does that make sense

just so when terry shows the next meeting and last contact calendars it relates 2 the requirements

@Tiana it says notifications for upcomin meetings and too much time between meets

Nicholas 19/10/2021

got it

Tiana 19/10/2021

cheerss

Rebecca 19/10/2021

ill submit the slides after our pres

Tiana 19/10/2021

yea they arent due til friday technically riht
right

@Tiana just so when terry shows the next meeting and last contact calendars it relates 2 the requirements

Terry_t 19/10/2021

So I'll say it have both next meeting and last contact?

Rebecca 19/10/2021

yeah but i mean once we're done with them no need to change stuff

@Terry_t So I'll say it have both next meeting and last contact?

Tiana 19/10/2021

yea

Rebecca 19/10/2021

just get it over with

Rebecca 19/10/2021

after the pres i'll remove the workaround
rip im so lonely in the zoom

Tiana 19/10/2021

is it open

Rebecca 19/10/2021

ye

Tiana 19/10/2021

make sure u put ur bgs on

Zakarya 19/10/2021

send link

for zoom

Tiana 19/10/2021

its the class one

Zakarya 19/10/2021

yeah my nets dead

Tiana 19/10/2021

oh rip

Zakarya 19/10/2021

its not even loading

Tiana 19/10/2021

oke

Zakarya 19/10/2021

thank you

Tiana 19/10/2021

Rebecca 19/10/2021

uploading slides

Keep in mind, this submission will count for everyone in your Groups group.

Rebecca 19/10/2021

So are we going to not have notifs on profile page?

Zakarya 19/10/2021

No

1

Rebecca 19/10/2021

um so i can't test the notification stuff until it's done lmao

so kinda needa complete that kinda stuff by thurs

Tiana 19/10/2021

@team can everyone pls move their tasks on the board to done if they are done

2

ty!

also about to add a bunch of new tasks for stuff to be fixed before friday

so pls add urselves to that

or ill add whoever i thought was doing whatever to the task and change it if its wrong

Tiana 19/10/2021

@team so basically, the app needs to be done by Thursday night

1

since zak needs to update the deployed version

and we should do that a day in advance

in case of issues

so everyone pls check what ur doing and make sure ull have time to get it done by then and let the team know now if u think u need some help (edited)

20 October 2021

Rebecca 20/10/2021

well i don't promise i can remove the horizontal scroll from all the pages HAHAH bc i know where the problem is but not exactly how to fix it

Tiana 20/10/2021

yea its ok

and we can all help each other out

 is everyone ok w their tasks?

Rebecca 20/10/2021

yes. just waiting for everything to be put tog so i can test and stuff as well

 **Tiana** 20/10/2021

yes.

oke good

after i finish moc tonight i finish test cases

we have to do usability test

sob

i think a lot of wat i test not done either

 **Rebecca** 20/10/2021

will be a bit hard to do all testing before fri tbh

 **Tiana** 20/10/2021

yeah and i have work on fri lol 😞

its fine

we just have to link to the docs folder

wait actually

no thats not fine

cos dont they take the repo

im confused

 **Rebecca** 20/10/2021

yeah they take the repo but you'd prob have to point to specific parts for each section

dunno if they would go through the entire thing

21 October 2021

 **Rebecca** Yesterday at 09:47

How's responsiveness coming along? **@Terry_t**

Terry you have a few tasks on the board oop think it's all g to complete by today? Tmr morning?

Terry_t Yesterday at 10:42

Tmr morning might be good

I have a report to do for software modelling design as well 😊

1

Tiana Yesterday at 10:43

the only thing is zak needs to deploy it

and that really should be done today in case smth doesnt work

Rebecca Yesterday at 10:43

I think Zak can deploy on Friday?

Tiana Yesterday at 10:43

we spoke abt it earlier and it'd be better to do it today

but idk

if we need to do it on friday it's ok

Rebecca Yesterday at 10:43

Yes but that might not happen

Tiana Yesterday at 10:44

i guess

i'm not entirely sure Zak will needa confirm himself

@Terry_t do u want some help with ur tasks?

i can look into the unread notif thing

Terry_t Yesterday at 10:55

Yes pleaseeee

Thanks Tiana!

Rebecca Yesterday at 11:42

ok guys so part of the problem with the horizontal scroll is that there are components that are set to 100% width right? And that means 100% of your screen. So when that's not like set smack bam in the centre or if it's moved via pixels that causes the scroll

 @Terry_t Thanks Tiana!

 **Tiana** Yesterday at 12:00

no stresso

let us know if u need any more help !

 @Rebecca ok guys so part of the problem with the horizontal scroll is that there are components that are set to 100%

 **Tiana** Yesterday at 12:01

ah okay that makes sense

 **Rebecca** Yesterday at 12:40

hey guys i made contacts and the company info isn't showing up on profile page dunno if it's just me

 **Rebecca** Yesterday at 12:50

when i try to change password  @Nicholas (edited)

Terry_t Yesterday at 13:21

Bruv, except for the main page

Everywhere else of the app is hard coded with pixels lmao

This gonna be harder than I expected omg

Rebecca Yesterday at 13:23

can you use 4 spaces btw please?

```
Code/crm/src/components/MainPageComponents/AddContact.css -13 +24
```

```
1 1 .boxes {  
2   display: flex;  
3   flex-direction: row;  
4   height: 10%;  
5   width: 100%;  
6   justify-content: center;  
7   /* padding: 10px; */  
8  
9   display: flex;  
10  position: fixed;  
11  top: 10%;  
12  flex-direction: row;  
13  left: auto;  
14  height: 10%;  
15  width: 100%;  
16  justify-content: center;  
17  
18  /* padding: 10px; */  
19 }  
20  
21 }
```

Terry_t Yesterday at 13:24

I legit try and change it, my vscode is messed up or something (edited)

Rebecca Yesterday at 13:25

also the pages you changed are a bit messed up now lol

The screenshot shows a user interface for adding a contact. It is divided into two sections: 'Client Information' on the left and 'Company Information' on the right. Both sections contain several input fields with validation asterisks (*). The 'Client Information' section includes fields for First Name, Family Name, Date of Birth, Gender, Phone Number, and Email. The 'Company Information' section includes fields for Company Name, Company Location, Position at Company, Department at Company, Priority (a dropdown menu), and Address (another dropdown menu). At the bottom of the form is a red 'ADD CONTACT' button.

Client Information		Company Information	
First Name *		Company Name *	
Family Name *		Company Location *	
Date of Birth *		Position at Company *	
Gender *		Department at Company *	
Phone Number *		Priority	Address
Email *		ADD CONTACT	

Terry_t Yesterday at 13:25

Every time i try to save, it just converted back to 2

@Rebecca also the pages you changed are a bit messed up now lol

Terry_t Yesterday at 13:25

Imma go kms real quick

Rebecca Yesterday at 13:25

i think those pages were fine on all our devices so let's not change that just revert that and focus on profile page or main

@Rebecca i think those pages were fine on all our devices so let's not change that

Terry_t Yesterday at 13:26

Idk bout that

When I put it in responsive mode

Rebecca Yesterday at 13:26

how was it appearing on your localhost before?

Terry_t Yesterday at 13:27

It's all messed up lul

Rebecca Yesterday at 13:27

sc?

it looked fine when you presented it i think

@Rebecca it looked fine when you presented it i think

Terry_t Yesterday at 13:28

yeh, it was a bit messed up

but okay, imma put it back :(((

 @Terry_t yeh, it was a bit messed up

 @Rebecca Yesterday at 13:28
wait what? it looked fine when you presented?

 @Rebecca Yesterday at 13:29
it wasn't centered back then lmao

 Terry_t Yesterday at 13:29
i mean if you can't get it to be fully responsive the previous version is better than

 Terry_t Yesterday at 13:29
very true

 Rebecca Yesterday at 13:29
rip

 Terry_t Yesterday at 13:29
cuz it wasn't coded responsively from the start haha
i can't change every single pixels to % and expect it to work :((

 Rebecca Yesterday at 13:30
yeah i think we just built it on the initial base which were the svgs and components using pixels you had
like we just replaced stuff instead of creating from ground up
f

Terry_t Yesterday at 13:30

pain

imma just focus on the profile and main then
what a waste of an hour

Rebecca Yesterday at 13:31

fffff in the chat

1

Terry_t Yesterday at 13:31

I'll miss you bby

Client Information		Company Information	
First Name *		Company Name *	
Family Name *		Company Location *	
Class affiliation *		Position at Company *	
Faculty *		Department at Company *	
Phone Number *		Priority	*
Email *		Progress	*

Add Contact

Rebecca Yesterday at 13:32

when it looks nice and pretty on your device 😭

1

Terry_t Yesterday at 13:33

Pain

Client Information		Company Information	
First Name *		Company Name *	
Family Name *		Company Location *	
Class affiliation *		Position at Company *	
Faculty *		Department at Company *	
Phone Number *		Priority	*

Add Contact

Rebecca Yesterday at 14:22

fixing the add contact page, got rid of the scroll
issue was the % off centring

@Rebecca when i try to change password @Nicholas (edited)

Nicholas Yesterday at 14:26

Should be fixed now

Terry_t Yesterday at 14:30

title bar should be fixed already

Rebecca Yesterday at 14:30

getting there lmao

Client Information		Company Information	
First Name*		Company Name*	
Family Name*		Company Location*	
Date of Birth*		Position at Company*	
Gender*		Department at Company*	
Phone Number*	Industry		
Email*	Progress		

ADD CONTACT

@Terry_t title bar should be fixed already

Rebecca Yesterday at 14:31

wym?

Terry_t Yesterday at 14:31

the main page title bar

check check

Rebecca Yesterday at 14:31

OH YES

Terry_t Yesterday at 14:31

I swear if it doesn't wor

Rebecca Yesterday at 14:31

sexy

ill check it after i fix this

ok how do we feel about this HAHA

 **Terry_t** Yesterday at 14:35

yes

*thumb up emoji

 **Rebecca** Yesterday at 14:37

our design has the button to the right

but i think central is a bit nicer and easier what do you think [@Tiana](#)

 **Tiana** Yesterday at 14:38

yea fine witj that

 **Rebecca** Yesterday at 14:39

cool

 **Rebecca** hey guys i made contacts and the company info isn't showing up on profile page dunno if it's just me 

 **Rebecca** Yesterday at 14:42

[@Zakarya](#) were you on this?

 **Zakarya** Yesterday at 14:42

Yes

Will look into it

Rebecca Yesterday at 14:43

cool

looks like all g if everyone else also wants to check! gg terry

Name	Progress	Priority
John Doe	Invited	Low
Jenny Doe	Conclude	Low

@Nicholas i don't get the error but the password doesn't actually change when i go logout and in again
ok trying to fix the main page scroll now

they really should've taught us web dev before this subject lol...

Zakarya Yesterday at 14:52

also @Nicholas were you able to handle the last contact and next meeting?

Nicholas Yesterday at 14:52

have u restarted your server?

@Zakarya also @Nicholas were you able to handle the last contact and next meeting?

Nicholas Yesterday at 14:52

im trying to do that now

clicking on the profile page just caused my whole laptop to crash tho

lol

@Nicholas have u restarted your server?

Rebecca Yesterday at 14:52

oh good idea sorry

Zakarya Yesterday at 15:04

@Rebecca , fixed company stuff

Rebecca Yesterday at 15:07

ill test again

ok check the position part @Zakarya that is not appearing still

Zakarya Yesterday at 15:15

that was just a typ

```
var company = req.body.company;
const newCompany = await Company.create({
  name: company.name,
  department: company.department,
  location: company.location,
  position: company.position
})

await newCompany.save();
```

Rebecca Yesterday at 15:15

HAHAHAH

classic

guys idk if the main page can be fixed without overhauling

Rebecca Yesterday at 15:42

ok diagnosed the issue and have gotten rid of the scroll but now tryin to figure out how to put everything the way it should be without overhauling the entire code file

Search for contacts			
Name	Progress	Priority	Filter A-Z
John Doe	Invited	Low	

Terry_t Yesterday at 15:42

does anyone else company info is blank?

Rebecca Yesterday at 15:42

yes zak is on it

zakattack

1

um terry be careful with that

Terry_t Yesterday at 15:43

oh okay, I thought I broke it

Rebecca Yesterday at 15:43

i think that may cause a scroll

Terry_t Yesterday at 15:43

??

Rebecca Yesterday at 15:43

i've done all the other pages so profile page is all you bro (edited)

1

Terry_t Yesterday at 15:43

okayy

go get some rest lmao

I have like 3 diagrams to draw for software modelling as well

2

Rebecca Yesterday at 15:44

im taking a quick donut break and im gon try fix the main page again

Terry_t Yesterday at 15:44

oh one more thing

why did u remove the left position for the search bar?

@Terry_t oh okay, I thought I broke it

Zakarya Yesterday at 15:51

no u need to pull latest version sir

@Terry_t

works fine for me

Terry_t Yesterday at 15:55

Zakarya Yesterday at 15:55

@Nicholas hows the other stuff going

Terry_t Yesterday at 15:55

mine just blank?

@Terry_t why did u remove the left position for the search bar?

Rebecca Yesterday at 15:56

in the middle of fixing that. The padding is causing scroll

Terry_t Yesterday at 15:56

ah okay lemme put it back

@Terry_t mine just blank?

Zakarya Yesterday at 15:56

u mightve removed something
cos its not even displaying the tag
tags*

Rebecca Yesterday at 15:56

ah don't change anything with the titles or scroll now im in the middle of fixing
yep zak working for me now

1

@Zakarya u mightve removed something

Terry_t Yesterday at 15:57

that's what I'm afraid oflul

Zakarya Yesterday at 15:57

i will remove other customers cos their position wasnt added cos of the typo

@Terry_t that's what I'm afraid oflul

Zakarya Yesterday at 15:57

yeah its ok, you will get it

or just stash if you havent made major changes

Rebecca Yesterday at 15:58

alignment eek

The screenshot shows a Chetohs application window with a contact record for Dulapeep Johnson. The contact details include Name: Dulapeep Johnson, Gender: Male, Contact information: Mobile: 012345678, Email: jondoe@domain.com.au. The Company Information section lists Name: ChetohsGooPs, Location: Dallas, Texas, Position: Head of something, Department: HR. The Task Information section has fields for High level description: and Timeline: (empty). The Progress section shows a dropdown menu with 'None' selected. There are two timestamped log entries: 'Last edited: 27/03/2021 09:58 PM' and 'Last modified: 27/03/2021 09:58 PM'.

→ @Rebecca alignment eek

Zakarya Yesterday at 15:58

same for me

Terry_t Yesterday at 15:58

wait what??

did yall pull yet?

Rebecca Yesterday at 15:58

some of the components are causing scroll

→ @Terry_t did yall pull yet?

Zakarya Yesterday at 15:58

yes

Terry_t Yesterday at 15:58

tf?

like the latest one?

Rebecca Yesterday at 15:59

this latest one

Dulapeep Johnson
Gender: Male
Name: CheckinResults
Location: Dallas, Texas
Position: Head of something
Department: HR

Contact
Mobile: +1423554432
Email: johnson@domain.com.au

Company Information

Task Information

Notes

Last Contact: 21/03/2021 03:58 PM

First Message: 21/03/2021 03:58 PM

Terry_t Yesterday at 15:59

ah there it is

yeh the responsive on this one way better than the main page lmao (edited)

Zakarya Yesterday at 15:59

idk if this helps with the scrolling but last semestee we put everything inside one huge box and made its position fixed

Rebecca Yesterday at 15:59

if you use z-index you can overlap the profile pic onto the rectangle on top

Zakarya Yesterday at 15:59

and its width and eight 100%

height*

@Zakarya idk if this helps with the scrolling but last semestee we put everything inside one huge box and made its position fixed

Rebecca Yesterday at 15:59

yes that is part of the problem

how the components are separate things

@Rebecca how the components are separate things

Zakarya Yesterday at 16:00

css and mui?

-  @Rebecca if you use z-index you can overlap the profile pic onto the rectangle on top
Terry_t Yesterday at 16:00
u want the picture on top of the rect?
okay
that's easy lul
-  @Terry_t u want the picture on top of the rect?
Zakarya Yesterday at 16:00
yeah like on the design
-  **Rebecca** Yesterday at 16:00
also i still dont understand why the title and client section isn't of the same component lmfao
-  @Rebecca also i still dont understand why the title and client section isn't of the same component lmfao
Zakarya Yesterday at 16:01
i think Tiana did that right
-  **Rebecca** Yesterday at 16:01
nah it was built upon from the initial svg stuff
-  **Zakarya** Yesterday at 16:01
oh ok
-  **Rebecca** Yesterday at 16:01
we really should've started from scratch lmao
-  **Zakarya** Yesterday at 16:01
yeah :))
learn from mistakes :))
-  **Rebecca** Yesterday at 16:02
so close to the home scretch!
-  @Rebecca so close to the home scretch!
Zakarya Yesterday at 16:02
YASS! 🎉

Rebecca Yesterday at 16:05

resizing the window

The screenshot shows a contact card for 'Dulapeep Johnson'. At the top right is the Chetohs logo. Below it, the contact's name 'Dulapeep Johnson' is displayed, with the gender 'Male' noted. To the left is a circular profile picture placeholder. On the left side of the card, there are two dropdown menus under 'Progress': 'New' and 'Priority' set to 'High'. Below these are two date fields: 'Last Contact' (11/10/2021 03:58 PM) and 'Next Contact' (25/10/2021 03:14 PM). The main body of the card is divided into sections: 'Contact' (Mobile: 61423554452, Email: johndoe@dominos.com.au), 'Company Information' (with a note about high-level descriptions), and 'Notes' (marked as 'Unread').

Terry_t Yesterday at 16:16

This screenshot shows a contact card for 'John Doe'. The layout is similar to the previous one, with the Chetohs logo at the top right. The contact's name 'John Doe' is shown with the gender 'Male'. The 'Progress' section includes dropdowns for 'New' and 'Priority' (set to 'High'), and date fields for 'Last Contact' (25/10/2021 03:14 PM) and 'Next Contact' (25/10/2021 03:14 PM). The main card area contains sections for 'Contact' (Mobile: 123456, Email: johndoe@dominoes.com.au), 'Company Information' (empty), and 'Notes' (marked as 'Unread'). A note in the 'Contact' section states: 'High level descriptions: Chetohs suggests better security instead than randomness. Result like to open up a lot of different ways.'

better?

Rebecca Yesterday at 16:17

seggsy

haha zak did you delete the new contacts made

 **Zakarya** i will remove other customers cos their position wasnt added cos of the typo

 **Zakarya** Yesterday at 16:18
yes
 2

 **Rebecca** Yesterday at 16:19
was quite partial to katy perry
and dua lipa

 **Zakarya** Yesterday at 16:19
HAHAHA

 **Rebecca** Yesterday at 16:19
it's ok i shall add one more
to re-test

 **Zakarya** Yesterday at 16:19
MAKE THEM AGAIN
YAS!
we only get celebrities as our customers
we that good

 **Rebecca** Yesterday at 16:21

 1
amen

Zakarya Yesterday at 16:22
are we using male icon for everyone

Terry_t @Zakarya Yesterday at 16:22
are we using male icon for everyone
there's no icon change button lmao

Zakarya @Terry_t Yesterday at 16:22
there's no icon change button lmao
no i mean what is that image
is it an svg?
or just an image

Terry_t Yesterday at 16:22
just a png

Zakarya Yesterday at 16:22
oh
then we can put a check
if gender === male then put this image
else the other one

Terry_t Yesterday at 16:23
go for it

Rebecca Yesterday at 16:23
gender doesn't have any checks rn

Terry_t Yesterday at 16:23
idk how to do it lul

Rebecca Yesterday at 16:23
so you can put anything

Zakarya Yesterday at 16:23
i can put that in

Rebecca Yesterday at 16:23

i dunno treading on dangerous waters here

🤔 1

politically

Zakarya Yesterday at 16:23

and having male as an icon for everyone isn't dangerous ? 😊

Terry_t Yesterday at 16:23

the pic look gender neutral enough

👉 @Zakarya and having male as an icon for everyone isn't dangerous ? 😊

Terry_t Yesterday at 16:24

why would you assume that's a male icon Zak 😊

👉 @Terry_t why would you assume that's a male icon Zak 😊

Zakarya Yesterday at 16:24

cos

the hairline

🤔 1

Terry_t Yesterday at 16:24

omg Zak

Zakarya Yesterday at 16:25

truth hurts dont it

👉 @Zakarya and having male as an icon for everyone isn't dangerous ? 😊

Rebecca Yesterday at 16:25

at least it's same across the board

i dunno

Terry_t Yesterday at 16:25

I'll find another gender neutral icon, if we needed hahaha
for now, just leave it there

Zakarya Yesterday at 16:26

ok

also

if we put required in a text field on a form
it shouldnt proceed until thats filled right
why does it proceed on add contact page

Zakarya Yesterday at 16:41

i just added a check

Name	Progress	Priority
John Doe	Invited	Low
Jenny Doe	Complete	Low
Johnny Bravo	Met	Medium
Marshall Mathers	Met	Medium
Elon Musk	None	High
Dwayne Johnson	Invited	High
Dua Lipa	None	High

search bar went funky

Terry_t Yesterday at 16:42

yeh, bec is on it

1

Rebecca Yesterday at 16:45

yeah sorry im fixing it rn!

1

search bar was causing scroll and title's padding too

1

Rebecca Yesterday at 19:02

Ok bc the title is a separate component to the client list the code a bit messed haha so idk how to fix without overhauling but I've done my best if anyone else wants to have a go at the rest

i also fixed the search bar in terms of how it was causing scroll but idk why it's not filling the space avail to its right (well i mean at least i got rid of the scroll which was the intention ahaha. Also I'm not on responsiveness!) (edited)

Rebecca Yesterday at 19:14

other than that im just waiting on the notif stuff to finish testing User Story 6 and uploading our communication scs

Zakarya Yesterday at 19:42

whats the notif stuff

Rebecca Yesterday at 19:43

oh like this stuff

Test ID TCB 1.2	Execution Type White box
Test Type Functional	
Objective Verify that user receives notification under the bell when a client has not been contacted for a week.	
Summary Number of executed test cases 0 Number of passed test cases 0 Number of failed test cases 0 Passed test cases percentage 0% Failed test cases percentage 0% Comments Tested for browser (Edge, Chrome and Firefox).	
Defects Total number of detected bugs 0 Bugs and their statuses and priority N/A	
Notes	

Tiana Yesterday at 19:49

yea so theres just the other notifications to implement right

do the cals work now?

Rebecca Yesterday at 19:49

cals?

Nicholas Yesterday at 19:49
still working on it

Rebecca Yesterday at 19:49
oh

Rebecca Yesterday at 20:02
ok the communication doc uploaded

Tiana Yesterday at 20:04
thanuu

Zakarya Yesterday at 20:06
Heroku already being a pain 😊

警示教育 1

Tiana Yesterday at 21:09
<https://docs.google.com/document/d/1MuNyEvn3LaejiSmIVlu5Ei-SJmP8XE-D/edit>

Google Docs - create and edit documents online, for free.

Create a new document and edit with others at the same time -- from your computer, phone or tablet. Get stuff done with or without an internet connection. Use Docs to edit Word files. Free from Google.

thats the usability test template

can everyone pls like call someone tmr if they can and do that with them

警示教育 1

Nicholas Yesterday at 22:07
ok i just wasted hours on nth apparently cos the last contact and next meeting code i did in the afternoon actually does work sometimes.
if i change it immediately after clicking on to the profile page it changes and saves but if i dont i think cos of the first call of useeffect effectively ddos-ing our own server it just hangs

警示教育 1

Zakarya Yesterday at 22:08
yeah could be, sometimes it does take a while
maybe using useeffect isnt the best option for next time

 **Nicholas** Yesterday at 22:07
ok i just wasted hours on nth apparently cos the last contact and next meeting code i did in the afternoon actually does work sometimes.
if i change it immediately after clicking on to the profile page it changes and saves but if i dont i think cos of the first call of useeffect effectively ddos-ing our own server it just hangs
😢 1

 **Zakarya** Yesterday at 22:08
yeah could be, sometimes it does take a while
maybe using useeffect isnt the best option for next time

 **Nicholas** Yesterday at 22:09
its the first call that keeps querying the server with every frame rendered

 **Zakarya** Yesterday at 22:10
oh ok
but does it work?

 **Nicholas** Yesterday at 22:10
if u do it fast enough
at least on my terrible laptop
if i stay on the profile page for too long nth works

 **Zakarya** Yesterday at 22:12
haha do it fast enough
thats not good now is it
<https://chetohs-crm.herokuapp.com/>
works 😊

22 October 2021

 **Nicholas** Today at 00:33
I think I fixed most things with the profile page
☀️ 2

 **Zakarya** Today at 03:12
love the new save changes button man!

makes it way better!
very well done! i am impressed :))
also team, if we can get everything done by like 9 pm AEDT, so I have some margin to host it. if no issues its only gonna take me 10 min but if there are issues might take me an hr or more
👍 2
hopefully we done! all the best :))

 **Tiana** Today at 06:37
also team can we pls move all tasks that are done to done before like 5pm today
👍 1
so i can screenshot

 **Nicholas** Today at 10:35
I've updated notifications to work with the new material ui date picker, implemented the notifications for last contacted, implemented the number of notifications on the bell, made notification call update every 30 minutes and implemented functionality to redirect each notification to the profile they are referring to.
👑 2 🎉 1

 **Tiana** Today at 10:36
you sre a gun

 **Nicholas** Today at 10:36
the only issue is that do we want the notifications to not count once they are viewed again e.g. say there are 7 on the bell and we view all 7 when the page is refreshed 7 shouldnt show anymore im assuming thats the case

 **Rebecca** Today at 10:37
Ummm I'll be out until like 4:30ish AEDT but are there lots of things to fix?

 @Nicholas the only issue is that do we want the notifications to not count once they are viewed again e.g. say there are 7 on the bell and we view all 7 when the page is refreshed...
Rebecca Today at 10:37
I think we settled on just a red dot

 **Nicholas** Today at 10:37
ive done the number already tho

Rebecca Today at 10:37

Oh ok sure!

I think once you click on the bell the number should disappear

Bc you've seen it

Nicholas Today at 10:38

yeah it does

but when it refreshes it reappears

Rebecca Today at 10:38

Oh yeah it shouldn't reappear bc you've already seen it

Nicholas Today at 10:38

i mean i have an idea on how to make it not

but im lazy

Rebecca Today at 10:38

HAHAHAHHA

Tiana Today at 10:42

yeah should disappear

✉️ **Nicholas** i mean i have an idea on how to make it not

Nicholas Today at 11:18

ok that should be done

hopefully nothing is broken cos i am

Rebecca Today at 15:03

again idk if i can fix profile page without overhauling that code too hahah but the colours are gone now bc that was bothering us

Zakarya Today at 15:50

Is the format fix now like before

Rebecca Today at 15:51

no im not even sure how it became this way
ill look into it ig 😞

Zakarya Today at 15:51

:(
I can look into it if u dont get it

Rebecca Today at 15:51

last day slog 😭

Zakarya Today at 15:51

Shouldnt be too bad
I am just having some problems rn

Rebecca Today at 15:52

like i get the theory of how to do it but bc of how it's set up (a grid was used?!?!)
the dev tools tell me things are a bit funky
focus on your stuff first zak!

1

Zakarya like i get the theory of how to do it but bc of how it's set up (a grid was used?!?!)

Today at 15:52

Yes i believe so

Rebecca Today at 16:54

finding it hard to fix btw

Zakarya Today at 16:58

Fix the struture

?

Rebecca Today at 16:58

this is what i got rn, slow progress

Dua Lipa
Gender: Female
Progress:
None
Mobile: 041322444
Email: dua_lipap@gmail.com

Company Information
Name: Future Music
Location: Spain
Position: Head Artist
Department: Dua Lipa

Task Information
High level description: She has some good songs and I think that she would be nice for a coffee like this!
Timeline: 1-2

Notes
Unfinished

yeah i've had to restructure it a bit

im gonna skip dinner and hopei can fix it in time lol

Zakarya Today at 16:59

I can fix that

But might take some time

Nicholas Today at 17:00

If we want to be able to edit the name then it's gonna need a box too right

Zakarya Today at 17:00

No no

U can just put the pen

Rebecca Today at 17:00

i dont think it needs a box

Zakarya Today at 17:00

And then the pop up

Rebecca Today at 17:00

a box is just a structure to hold stuff

Zakarya @Zakarya I can fix that

Rebecca Today at 17:00

im working on it now dw you have other stuff

Zakarya @Rebecca im working on it now dw you have other stuff

Zakarya Today at 17:00

We have no water since yesterday and its just a pain to manage food and water rn :(

All the best Bec! Let me know how it goes

Rebecca Today at 17:01

the problem btw with my fix is that it's not as responsive

 @Zakarya We have no water since yesterday and its just a pain to manage food and water rn :(

Rebecca Today at 17:01
ah man that's tough... good luck, stay strong!

 @Rebecca the problem btw with my fix is that it's not as responsive

Zakarya Today at 17:01
Thats ok

Ig just make it look as good as u can

All the best :))

 **Rebecca** Today at 17:02
you too!

 **Zakarya** Today at 17:04
@team is everything done in the be? I want to deply to heroku so we can get others to test

 **Rebecca** Today at 17:05
im not sure if nic is still working on anything there
what should i move where HAHA

 **Tiana** Today at 17:06

maybe just make notws smaller even

 @Rebecca im not sure if nic is still working on anything there

 **Zakarya** Today at 17:06

@Nicholas

 **Tiana** Today at 17:06

and contact aligned with task info

 @Tiana and contact aligned with task info

 **Zakarya** Today at 17:06

Yes just do this

And make them go all the way to the end

Like notes

 **Tiana** Today at 17:06

yep

 **Zakarya** Today at 17:06

So they all end at the same spot

 **Nicholas** Today at 17:06

U guys want the name to be editable? Haven't done that

 **Rebecca** Today at 17:07

aaaa ok idk how responsive that will make it haha

or if it'll be local to me

 @Nicholas U guys want the name to be editable? Haven't done that

 **Zakarya** Today at 17:07

Yeah if u can, otherwise i can tru

 **Tiana** Today at 17:07

name and age is supposed to be
but if not not the end of the world

Nicholas Today at 17:07
Gimme awhile

 @Rebecca or if it'll be local to me
Zakarya Today at 17:07
Google!!!

U got thiaas

 @Tiana name and age is supposed to be
Nicholas Today at 17:07
We don't have age stored

Tiana Today at 17:07
oh wait age not on there still

Rebecca Today at 17:07
we have DOB

Tiana Today at 17:07
yeah

 @Tiana oh wait age not on there still
Zakarya Today at 17:07
Do we want to

Rebecca Today at 17:07
which age is derived from

Tiana Today at 17:07
so age should be calculated ig???

Nicholas Today at 17:07
Do we need age then?

Tiana Today at 17:08

that was the idea right
that dob is stored and we get age from that
otherwise if thays too complicated maybe just show dob

Nicholas Today at 17:08

I mean just use the excuse that other countries count age differently ...

 1

Tiana Today at 17:08

hahahahaha
just show dob then
that's fine

Rebecca Today at 17:08

too hard, scrap it

Tiana Today at 17:09

or have age just an editable field?
with a number
idc
btw checklist is submitted
repo can cont to be updated tho

Rebecca Today at 17:11

ok should be all g
ill upload communication by tonight

Tiana Today at 17:11

perfecto

Rebecca Today at 17:25

The screenshot shows a software application window with the following sections:

- Contact**:
 - Mobile: 0451525444
 - Email: duapeepa@gmail.com
- Company Information**:
 - Name: Future Nostalgia
 - Location: Space
 - Position: Head Artist
 - Department: Dua Peep
- Task Information**:
 - High level description: She has some good songs and stuff like that, she wants to meet me for a coffee cos she [redacted]
 - Timeline: 1-2
- Notes**:
 - Levitating

looks a bit messed up when minimised but that's to do with the flex properties and such

Rebecca Today at 17:33

can someone pull the latest and check

well it's not a full fix 😐

Zakarya Today at 17:39

In 5

Rebecca Today at 17:40

wait no it keeps resetting

need to figure out

Zakarya Today at 17:45

this is mine

Rebecca Today at 17:45
yeah it works for some

Zakarya Today at 17:49
@Nicholas , do you know how long it will take for the edit name stuff

Nicholas Today at 17:52
I have to do the dob stuff as well

Zakarya Today at 17:53
thats already in the form
what u have to with dob

Nicholas Today at 17:54
but its a text box

Zakarya Today at 17:54
display?

Nicholas Today at 17:54
if the form is incorrect it wont display correctly
so i changed it to picking by date

Zakarya Today at 17:54
oh
ok cool
true
any idea how long that might take

Nicholas Today at 17:55
not sure

Zakarya Today at 17:55
isnt it similar to the last contact stuff

Nicholas Today at 17:58
somewhat

Rebecca Today at 18:15
where in the code is this margin? I can't find it

Dulapeep Johnson

Gender: Male

(colour on the right)

Zakarya Today at 18:16
yeah tryin to check

Rebecca Today at 18:22
cheers! that is what is givin me issues atm

Nicholas Today at 18:24
im done

the dob thing looks kinda awkward tho cos i cant get it to appear in the popup cos apparently clicking on the date picker thats in a popup counts as clicking off the popup which closes the datepicker immediately
and idk how to change the pen position
so its wherever it is

 @Rebecca yes!

 **Zakarya** Today at 18:50

awesome!

 @Rebecca now trying to figure out other things

 **Zakarya** Today at 18:51

ok all the best! hope we done soon!

 **Rebecca** Today at 18:51

same 😱

 **Zakarya** Today at 18:51

what else is left? 🤔

 **Rebecca** Today at 18:51

i need to upload communication

oh crap it's by AEDT

 **Zakarya** Today at 18:51

yes

we got 2 hrs

Rebecca Today at 18:51
ahhhhh

Zakarya Today at 18:52
i need to host guys
can i do it

Rebecca Today at 18:52
hold on
umm actually

Zakarya Today at 18:52
just finish up what ever in like the next 30 min
so we can host and test

Rebecca Today at 18:52
can you fix that last spacing bit ?

Zakarya Today at 18:52
which one

Rebecca Today at 18:52
and ill go do the communication
aligning the contact properly

Zakarya Today at 18:52
ok imma try

High level description:
Timeline:

ok cheers ill push

 **Zakarya** Today at 18:53
ok push

 **Rebecca** Today at 18:54
done

 **Zakarya** Today at 19:00
@Rebecca
which part do u use for the responsiveness

 **Rebecca** Today at 19:05
What do you mean?

Zakarya Today at 19:06

oh

haha

it moves whenever we change screens thats the problem

i can do some quick css if possible 😊

Rebecca Today at 19:08

oh bc i used a flexbox if it shifts down

Zakarya Today at 19:09

ooh

Rebecca Today at 19:09

if it moves across then it's sometin else

Zakarya Today at 19:20

yeah it might be

@team i am just gonna host this on heroku then

any objections?

Rebecca Today at 19:21

No. All g

Zakarya Today at 19:24

ok then

Zakarya Today at 20:02

<https://chetohs-crm.herokuapp.com/>

done

Rebecca Today at 20:04

Fantastic good job

1

I still compiling our communication lol

Zakarya Today at 20:10

is that like

taking screeshots

@Tiana did we still have usability testing left?

@Zakarya taking screeshots

Rebecca Today at 20:12

YES WE HAVE SO MANY

Zakarya Today at 20:13

WOOO!

WOW

@Zakarya @Tiana did we still have usability testing left?

Rebecca Today at 20:13

Tiana is unavailable rn but check the google doc

Zakarya Today at 20:13

I CANT IMAGINE THE TASK YOUR DOING

Rebecca Today at 20:13

No but it's legit sucky I read through our entire history

1

@Rebecca Tiana is unavailable rn but check the google doc

Zakarya Today at 20:13

wow hello Tiana's secretary 😂

1

 @Rebecca No but it's legit sucky I read through our entire history

Zakarya Today at 20:13

stalker omg

 **Rebecca** Today at 20:13

We talk a lot

 **Tiana** Today at 20:13

i did usability test

 **Zakarya** Today at 20:14

i am deleting all my chats with you

 **Tiana** Today at 20:14

w my sister

 **Rebecca** Today at 20:14

Hi tiana 😊

 @Tiana i did usability test

 **Zakarya** Today at 20:14

i did some with y friends

if u want feedback

 **Tiana** Today at 20:14

hellllo

did they do the doc?

 @Rebecca Hi tiana 😊

 **Zakarya** Today at 20:14

looks like u got fired Bec

 **Tiana** Today at 20:14

if they did

upload it

hwhahahaha

 @Zakarya looks like u got fired Bec
Rebecca Today at 20:14
No my boss is just back

 **Tiana** Today at 20:14
no

 **Zakarya** Today at 20:14
tiana why would u hire Bec

 **Tiana** Today at 20:14
bc she the best
 1

 **Rebecca** Today at 20:15
Awww tiana

 **Zakarya** Today at 20:15
subjective but ok

 @Zakarya subjective but ok
Rebecca Today at 20:15
Oof ouch

 **Tiana** Today at 20:15
thats stiff zak
 1

 **Rebecca** Today at 20:15
Tiana is always objective

 **Zakarya** Today at 20:15
tbh
idk the meaning

Rebecca Today at 20:15
HAHAHAH

Zakarya Today at 20:15
i just heard it somewhere
whats subjective objective injective surjective

Tiana Today at 20:15
i am objective

Zakarya Today at 20:15
same
 1 @Zakarya whats subjective objective injective surjective

Tiana Today at 20:15
one is maths one is english
 1

Zakarya Today at 20:16
oh
i am injective
 1

1 @Zakarya whats subjective objective injective surjective
Rebecca Today at 20:16
NOOOO NOT SURJECTIVE

Zakarya Today at 20:17
YASSS REBECCA
GO STALK OUR CHATS

Rebecca Today at 20:17
I don't want to ever think about MoC again I'm done
I have discord open on like 3 devices

Zakarya Today at 20:17
OH U DONT?
THATS OK, I WAS JUST WONDERING WHETHER TO SOME PUSH UPS TO STAY FIT OR TO DO PUSH DOWN AUTOMATAS
my mind is in this state of propositional logic

 doesn't know whether i imply or biimply

 **Tiana** Today at 20:18

why

we didnt have prop logic in the last ass

lets do some puah downs

 **Zakarya** Today at 20:18

thats why

yes

 **Tiana** Today at 20:18

love

so good

 **Zakarya** Today at 20:19

doesnt make u lose weight

but will make you lose your mind
