

Chronological order from 3/8/21 – 28/9/21

Go to #project-discussion on the team discord server for communications from 29/9/21 onwards.

 **Zakarya** 03/08/2021  
Heyy team, will be a few minutes late to class apologies for that. Had to drop off my brother at college.  
 1

 **Tiana** 03/08/2021  
where is wei 😢

 **Nicholas** 03/08/2021  
there's another 4:15 workshop

 **Tiana** 03/08/2021  
w a diff person tho

 **Nicholas** 03/08/2021  
i just checked our tut sheet  
it says our tutor is doc?  
maybe they did some reshuffling

should we hop over?

 **Rebecca** 03/08/2021  
should we swap?  
lmao so the workshop is gone?

14:27 @Zakarya we're in this zoom <https://unimelb.zoom.us/j/84661090307?pwd=MDFURVYzUnV4SHJubII2WCtZZnJzUT09>

  
**Join our Cloud HD Video Meeting**

Zoom is the leader in modern enterprise video communications, with an easy, reliable cloud platform for video and audio conferencing, chat, and webinars across mobile, desktop, and room systems. Zoom Rooms is the original software-based conference room solution used around the world in board, conference, huddle, and training rooms, as well as ex...

 **Rebecca** 03/08/2021  
does this mean our workshop is now online and not in person

Hope not 🤞

**Tiana** 03/08/2021

idk i hope not as well  
we can ask

**Tiana** 03/08/2021

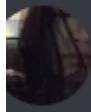

bruh

...

**Nicholas** 03/08/2021

i guess we can still swap workshops?

**Rebecca** 03/08/2021

This time works well with me tho

**Terry\_t** 03/08/2021

yeah  
same

**Rebecca** 03/08/2021

We could do it tog irl and just zoom in?

**Zakarya** 03/08/2021

i think

**Rebecca** 03/08/2021

Like be in the same room

**Zakarya** 03/08/2021

confirm with Leon first?

1

yeah ofc! :))

**Tiana** 03/08/2021

yeah we can just meet up

1

perfecto

bye bye wei 😞

3

**Zakarya** 03/08/2021

we can leave now

right?

**Terry\_t** 03/08/2021

pretty much

**Tiana** 03/08/2021

should we chat about tools tho?

just briefly

**Terry\_t** 03/08/2021

we can do it on here instead?

**Tiana** 03/08/2021

ik we wont be able to actually decide

1

**Zakarya** 03/08/2021

come on discord

yeah

perfect

**Tiana** 03/08/2021

since we have to speak to client

**Tiana** 03/08/2021

it looks like we oonly can do 8-9 on Fri night

2

hopefully the client is free lol

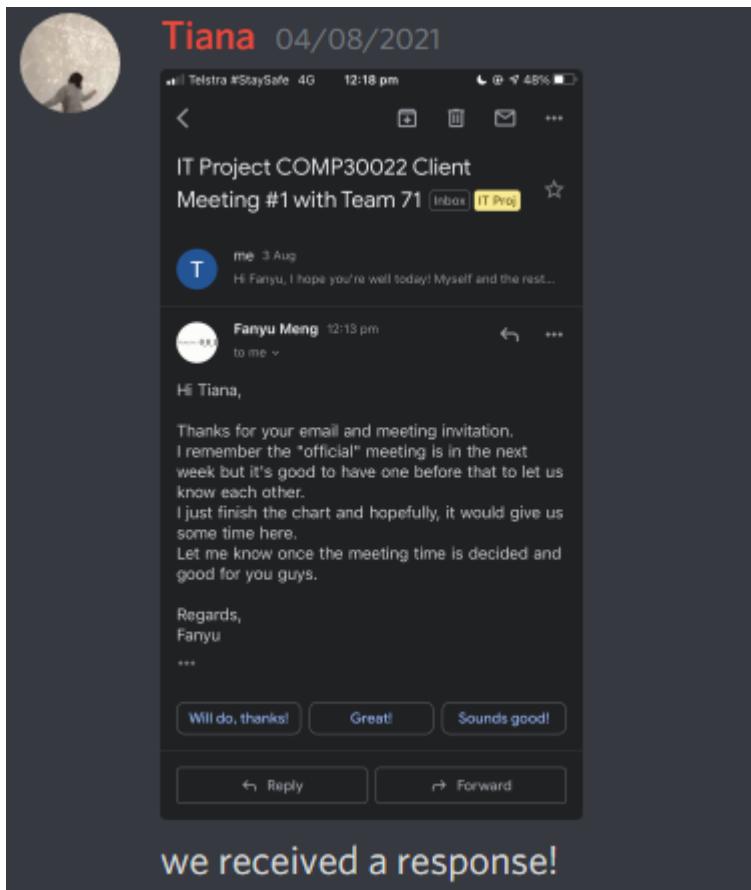

2

@Terry\_t are you free at all during the day on Sat?

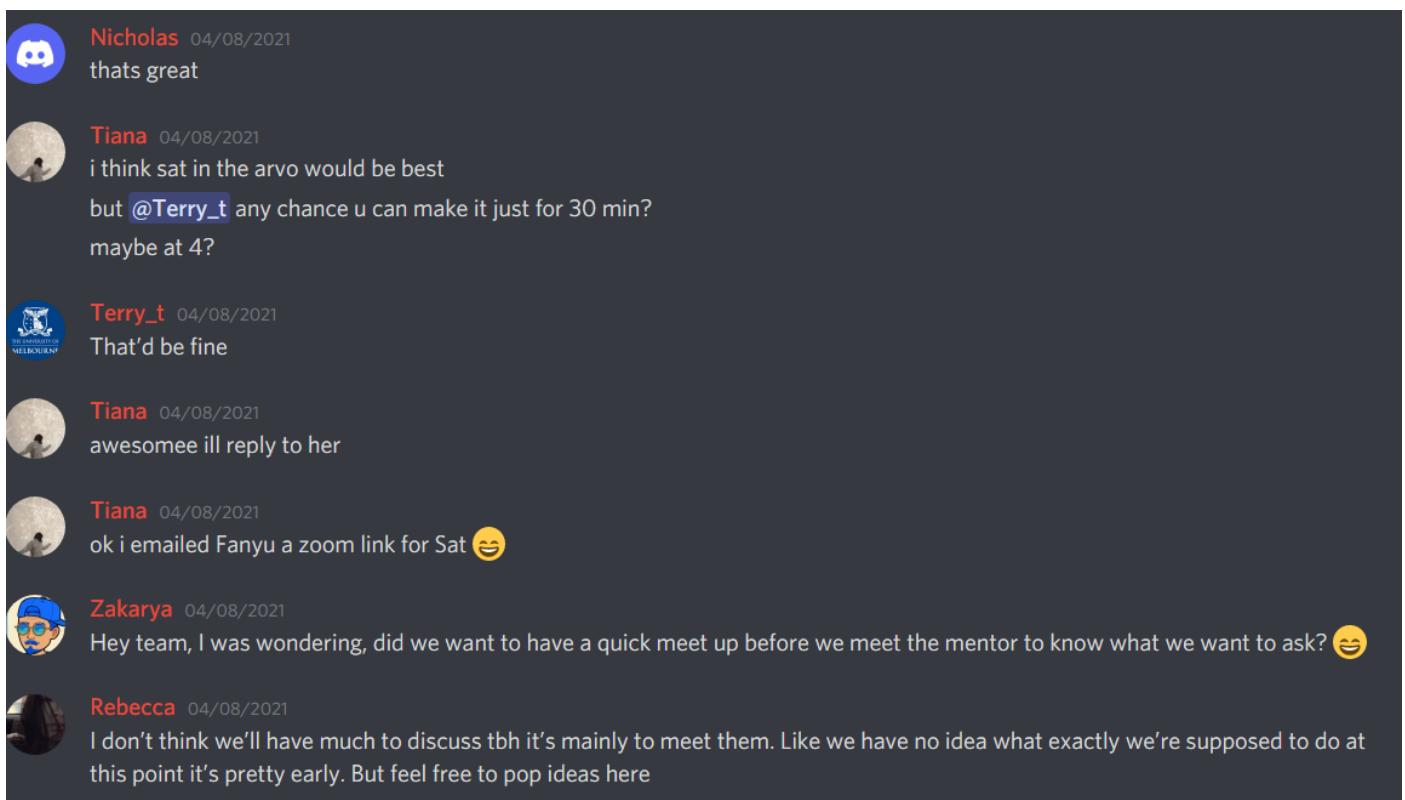

**Tiana** 03/08/2021

i sent email n cc'd yall

we received a response!

Tiana 05/08/2021

i think it's just a brief intro  
and get to know you  
like bec said  
cos the official meet is next weej  
\*week  
also if yall havent joined the trello check ur uni email n make sure u hop on it

7 August 2021

Terry\_t 07/08/2021

are we still meeting with our client today?

Tiana 07/08/2021

yep at 4 😊

1

link is in **#meetings**

i know doc said put documents on github but we don't have a repo yet and i'm not that keen on that lol so just for now ive made a notion page to write notes and we can copy it elsewhere: <https://www.notion.so/Client-Meeting-1-3a36395a454d44668db543bfeb6f2ad7>

Tiana's Notion on Notion

**Client Meeting #1**

Discussion points

but yeah idm if anyone has a preference for how we should write notes etc and we can ask doc about it on Tues

**Rebecca** 07/08/2021

you're obsessed with Notion

**Tiana** 07/08/2021

why would i not be it's so beautiful 😊

**Terry\_t** 07/08/2021

nice, notion!

**Tiana** 07/08/2021

yay another notion supporter 😁

2

**Terry\_t** 07/08/2021

it looks so good tho

1

**Tiana** 07/08/2021

exactllyyy

and it's really easy to use

but yeah we don't have to do notes on notion we can use gdocs or whatever in future

1

**Tiana** 07/08/2021

@Nicholas hop on now :))

**Zakarya** 07/08/2021

Hey team, can I have everyone github username so I can add them to the repo

⭐ 1

**Terry\_t** 07/08/2021

quanganht

Thank you!

**Rebecca** 07/08/2021

yerebecca

**Tiana** 07/08/2021

tianalitch

**Nicholas** 07/08/2021

NicholasXavierA

**Zakarya** 07/08/2021

Added everyone, let me know if anyone didnt get access 😊

👍 3 🎁 1

**Rebecca** 10/08/2021

do we get access to these slides

they would be pre useful

**Nicholas** 10/08/2021

they don't seem to be on canvas

**Zakarya** 10/08/2021

I dont think so, but I took screenshots just in case haha

**Tiana** 10/08/2021

[https://drive.google.com/drive/folders/18B25SX\\_nAZrNZtFwlEwaGKnUFdeLSJSA?usp=sharing](https://drive.google.com/drive/folders/18B25SX_nAZrNZtFwlEwaGKnUFdeLSJSA?usp=sharing)

**Zakarya** 12/08/2021

Team, we should probs add some questions and structure for the client meeting

**Tiana** 12/08/2021

yeaa sure thing

ig let's just work on it over the next day or so

**Zakarya** 12/08/2021

Yes sure, still need to watch the lecture.

**Tiana** 12/08/2021

nws no rush

Does the lecture have anything important I might need for the meeting?

**Rebecca** 12/08/2021

Hmmm a little but not like it relies on it  
It's more about structure and stuff

**Zakarya** 12/08/2021

I see

**Tiana** 12/08/2021

i think it's somewhat useful tho

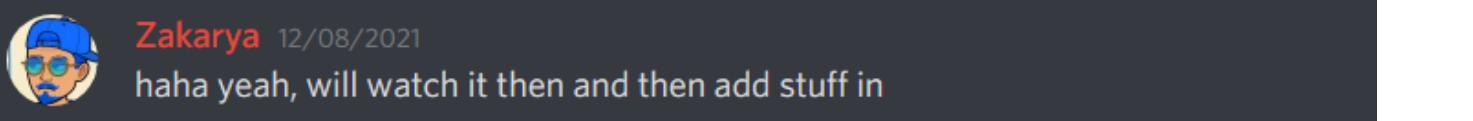

**Zakarya** 12/08/2021

I might have a look anyways

**Tiana** 12/08/2021

basically we need dat requirements doc

**Zakarya** 12/08/2021

haha yeah, will watch it then and then add stuff in

**Tiana** 12/08/2021

sounds goodd

1

**Rebecca** 12/08/2021

Also recording of minutes stuff! Which includes all our client meetings I believe

1

**Tiana** 13/08/2021

yea so we have to take minutes but do we actually have to record the interviews

**Nicholas** 13/08/2021

I rmb him saying that if we want to record to ask the client for permission to be recorded but I don't think it's necessary? Maybe just to make it easier to record down the minutes.

1

**Rebecca** 13/08/2021

Yeah he said don't record minutes by just recording the meeting and putting it in a folder bc that's lazy but you can record

Tiana 13/08/2021

yeah i think writing minutes is the easiest idk why ud bother recording it would be a pain to rewatch

1

Zakarya 13/08/2021

Hey team, there's not much questions in the doc for the client. Is there any important things we need to know tomorrow?

Rebecca 13/08/2021

Honestly I'm not even sure what to ask about the product bc I feel like we don't know jack shit about that yet lmao

And some of the questions are more for us than the client

Zakarya 13/08/2021

Yeah exactly

I really don't think we need to have a meeting based on the doc we have right now

We don't even know what we are making yet

@Zakarya Hey team, there's not much questions in the doc for the client. Is there any important things we need to know tomorrow?

Tiana 13/08/2021

ya sorry i have not been able to look at it yet

Rebecca 13/08/2021

the motivational model is prob the only thing i can think of

Tiana 13/08/2021

but yeah this whole thing is very vague

Rebecca 13/08/2021

but we also need info about the product

@Rebecca the motivational model is prob the only thing i can think of

Tiana 13/08/2021

yerrrr

Tiana 13/08/2021

ok ive put some stuff in the dc

doc

as has bec

take a looky and edit stuff as yall wish

Zakarya 13/08/2021

Cool!

Do you know when we get more details on what we making? Or do we get that from client

Tiana 13/08/2021

i don't think we get more details ngl

i think it's quite unguided

and comes from the client

Zakarya 13/08/2021

Oh I see maybe we can ask that too then 😊

**Rebecca** 14/08/2021

was useful for me:

## What is CRM?

Customer Relationship Management (CRM) enables you to better manage your interactions, communications & information sharing with your customers. Try it today.

👍 2

**Zakarya** 14/08/2021

So sorry team , my internet has crashed and I cant hear any of you guys 😞

**Rebecca** 14/08/2021

Try leave and come back?

If not, the doc is pretty good

**Rebecca** 14/08/2021

Basically all we discussed without you is that we're gonna be learning/using React @Terry\_t

👎 1    👍 1

**Tiana** 14/08/2021

ya and we're gonna spend the days before the tute checking out react and mongoDB

👎 1

Tiana 17/08/2021

u guys need to join the board

liek u joined the team but not the board i think

Rebecca 17/08/2021

i have as of today xx

Tiana 17/08/2021

ur not showing up on there

Terry\_t 17/08/2021

the board?

Tiana 17/08/2021

yep

Rebecca 17/08/2021

how do i join the board then...

im on the blody board

im annoy

i think we should clear the trello for the first sprint or have a diff board

Rebecca 17/08/2021

guys let's hop onto disc after this briefly?

Terry\_t 17/08/2021

yeh

Tiana 17/08/2021

yer

Tiana 17/08/2021

<https://trello.com/invite/b/e7Yw14Lg/11fc84b67757c196c80d1d6674147ced/kanban-board>

### Trello

Organize anything, together. Trello is a collaboration tool that organizes your projects into boards. In one glance, know what's being worked on, who's working on what, and where something is in a process.

Nicholas 17/08/2021 https://app.xterisio.com/design/851iy0bq

Nicholas 17/08/2021 template for the personas

1

Tiana 17/08/2021

wait personas?

oh i cant see it i have to make an account

thats alright tho i have a template on figma for personas

Nicholas 17/08/2021

ic

Tiana 17/08/2021

ty tho 😊

→ @Tiana oh i cant see it i have to make an account

Nicholas 17/08/2021

thats strange i didn't have to tho

→ @Nicholas thats strange i didn't have to tho

Tiana 17/08/2021

its just redirecting me back to the templates

Rebecca 17/08/2021

same

**Tiana** 17/08/2021

also when does our first sprint officially start

**Rebecca** 17/08/2021

but realistically we don't all need access as long as the person responsible gives the final product or whatever

**Rebecca** 17/08/2021  
@Tiana also when does our first sprint officially start

perhaps next week i recc

**Tiana** 17/08/2021  
@Rebecca but realistically we don't all need access as long as the person responsible gives the final product or whatever

yer ill just share the user profile when its done

**Rebecca** 17/08/2021

Does anyone wanna volunteer to take minutes then? Someone who doesn't have a role

**Nicholas** 17/08/2021

I can do it

1

**Rebecca** 17/08/2021

i think minutes are supposed to be taken for stand ups btw

**Tiana** 17/08/2021

i took some for this one  
wasnt much to write tho

**Tiana** 19/08/2021

@Rebecca in ur meet with Fanyu could u pls ask a bit more about his Goals & Interests as a SWE and for the CRM as well as his Pain Points & Concerns abt his current SWE work without the CRM and the problems he wants the CRM for to fix

1

just so i have a bit more substance for the user profile

**Rebecca** 19/08/2021

If anyone else has any other questions they want me to ask lmk

21 August 2021

**Rebecca** 21/08/2021

Can I have the motivational model? @Nicholas @Terry\_t

**Terry\_t** 21/08/2021

I'm still working on it sorry

Maybe in the afternoon?

**Nicholas** 21/08/2021

@Terry\_t I did it on the motivational model link they provided

**Terry\_t** 21/08/2021

U already finished it?

Thank you so muchh

**Nicholas** 21/08/2021

Errrr I don't think it can be called finished

**Terry\_t** 21/08/2021

All good

Imma help you with it dw

**Nicholas** 21/08/2021

I put up what I could think of but it doesn't feel complete idk

**Rebecca** 21/08/2021

I think maybe add security to concerns or smth?

I'll present whatever you have to the client at the meeting

**Terry\_t** 21/08/2021

U guys r meeting at 4 right?

Should be done before 3

-  **Rebecca** 21/08/2021  
Yep! No worries
-  **Tiana** 21/08/2021  
@Rebecca couple more things - what os does fanyu use on his phonee computer and tablet/ipad (if he has one)
-  **Rebecca** 21/08/2021  
Sure
-  **Tiana** 21/08/2021  
also if u can ask him a bit more abt what he actually does - i assume he's a freelance swe so yea just more clarification on that, like does he work with ppl etc
-  **Rebecca** 21/08/2021  
djahdldjhfhlsfd okay  
i mean if he said he wants a personal CRM - a phonebook with clients does it matter about that (in terms of working with others) (edited)
-  **Tiana** 21/08/2021  
its more just for the user profile  
ill just endd up makiing up half the inf  
o  
i alraedy have made up half of it
-  **Rebecca** 21/08/2021  
Oh ok yeah I get that

-  **Tiana** 21/08/2021  
wats up the w lgin error for the models  
i thought thtey fiixed it
-  **Rebecca** 21/08/2021  
werkin for me
-  **Tiana** 21/08/2021  
hm
-  **Rebecca** 21/08/2021  
maybe try the general lin kthey sent and try go into folder  
check your stoodent email
-  **Tiana** 21/08/2021  
ya i di  
did

**Rebecca** 21/08/2021

try you rother email  
you know how everyone has 2 emails  
like your username email and full name

**Tiana** 21/08/2021

oh so t was usn email  
it all gwd

**Nicholas** 21/08/2021

The motivational model is in the link they sent should be done  
If anyone wants to add anything they should be able to

**Nicholas** 21/08/2021

@Rebecca are you able to access it?

**Rebecca** 21/08/2021

Yep! Pretty sure I can see it

**Rebecca** 21/08/2021

Hey guys starting adding docs to the git

**Tiana** 21/08/2021

rip fanyu  
where u at brudday

**Zakarya** 21/08/2021

guys do I need to register first for the Motivational Model editor? or should I be able to login ?

**Rebecca** 21/08/2021

should be able to log in but I put a copy onto git in docs

**Zakarya** 21/08/2021

I am not able to login at the moment so will just look at the docs for now 😊 Thank you!

**Zakarya** 22/08/2021

Is there a shared doc i should add the user stories too so you guys can check it before we add it to the docs on git? 😊

**Tiana** 22/08/2021

if you check the google drive there should be a premade google doc for it  
by premade i mean just the title but yeah

**Zakarya** 22/08/2021

Got it thank you!

I had a quick question, so the user in the MM is Fanyu right? Arent we also supposed to think about the client side? Or do we not to that in a CRM?

**Tiana** 22/08/2021

so we're just thinking about fanyu  
as there isn't a client side  
it's a personal CRM just for his use, his clients can't access it

**Zakarya** 22/08/2021

Ok got it thank you! 😊

**Tiana** 22/08/2021

nws :))

lmk when ur good to go with the user stories so i can make the story points

**Zakarya** 22/08/2021

I moved it to review. in case you guys see any changes we need to make

Tiana 22/08/2021

wait wym

as in on the taskboard?

Zakarya 22/08/2021

Yes haha

Tiana 22/08/2021

ohhh right lmao

ok sounds g

Zakarya 22/08/2021

yes! If you think its all g you can move it to done then 😊 Or if theres anythign missing do let me know

Tiana 22/08/2021

sure thing ill take a look in a bit

1

@Zakarya yes! If you think its all g you can move it to done then 😊 Or if theres anythign missing do let me know

Tiana 22/08/2021

should we add some of the low request items too?

Rebecca 22/08/2021

I think it would be better to have a variety of priorities

But ig we can add over time too

Tiana 22/08/2021

yea prob just chuck eeverything he mentined on there

cos doesnt mean we have to implement them

**Zakarya** 22/08/2021

Yeah we can confirm priorities from him too  
If he wants something more then the other

**Tiana** 22/08/2021

yee i think they're pre much outlined in our initial client meet

**Zakarya** 22/08/2021

Oh yes I did have a quick glance over that, will go over one more time to add others I might havw missed

23 August 2021

**@Zakarya** Oh yes I did have a quick glance over that, will go over one more time to add others I might havw missed

**Tiana** 23/08/2021

ayo did u get to this?

also ive added the tute slides to gdrive

**Zakarya** 23/08/2021

Yes didn't find much, unless we want to get into specifics?

**Tiana** 23/08/2021

ah yeah like the notifications i think were medium prioriy

priority

same as filter

**Zakarya** 23/08/2021

So we want to add specifics?

**Tiana** 23/08/2021

is that specifics?

soz not rly sure what u meant by that

i just changed them to medium

**Zakarya** 23/08/2021

Oh I meant like specific filters

Ohh wait I think I got you now

Thanks for that

**Tiana** 23/08/2021

nws nws

btw **@Rebecca** can u clarify if theres a distinction between client and customer? i assume there isnt but maybe check and we should just use one of them for clarity

2

also am i supposed to be moving tasks etc if im scrum master

**Zakarya** 23/08/2021

No I believe the person assigned should move it to notify others in the team

**Tiana** 23/08/2021

ah i thought rhat was the whole job of the scrummaster lol

otherwise they dont do anything

 i thot the scrummaster just makes sure things are on track  
like you facilitate/lead the stand ups right

 1

 **Tiana** 23/08/2021  
ok ig it's more organising standups where ppl do the scrumming <https://www.atlassian.com/agile/scrum/scrum-master>

Atlassian

### **What is a Scrum Master? | Atlassian**

Learn what a Scrum Master is (and what they are NOT), and how the role supports and works with other members of an agile team.

 we have standups w doc but i tjink it could be good to meet on a monday or tuesday before class to sort out tasks ourselves so we have stuff to say to him

 **Rebecca** 23/08/2021  
yeah prep for the stand up

 **Tiana** 23/08/2021  
**@team** should we meet at 345/4 before class on tues or meet mon arvo?

 **Rebecca** 23/08/2021  
tues is good for me

 **Terry\_t** 23/08/2021  
I can meet at 4 on tuesday

**Tiana** 23/08/2021

ok is 15 gonna b enough

 @Rebecca i thot the scrummaster just makes sure things are on track

**Zakarya** 23/08/2021

Yes that's that I though too

 @Tiana ok is 15 gonna b enough

**Zakarya** 23/08/2021

Always good to have more then less

3 45 should be better

**Nicholas** 23/08/2021

Tues at both timings is fine with me as well

**Tiana** 23/08/2021

oke lets go for 3:45

**Terry\_t** 23/08/2021

I can't at 3.45

Finish work at 4 soz

**Tiana** 23/08/2021

ahh do u have class terry?

ph work

thats ok dw

**Terry\_t** 23/08/2021

**Tiana** 23/08/2021

we can just do 345 and when u hop o at 4 sort out anything left related to u

**Terry\_t** 23/08/2021

Aight bet

**Tiana** 23/08/2021

sweeeet

how was fanyu @Rebecca

**Rebecca** 23/08/2021

fine, i uploaded meeting notes to git

i can go through it with y'all later ig

**Tiana** 23/08/2021

oke ill take a look

**Tiana** 23/08/2021

i think pdfs upload more nicely to github

instead of word docs

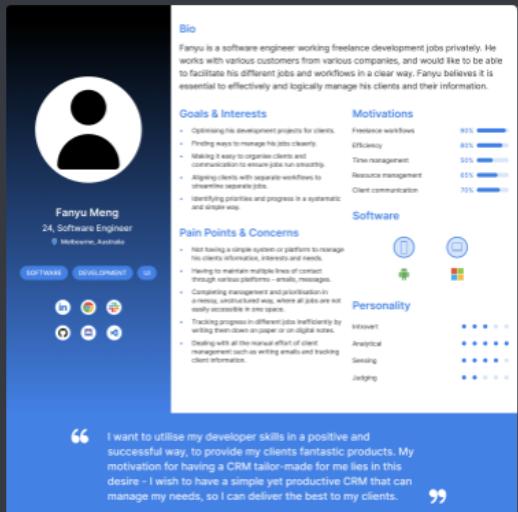

if its a pdf u can view it in the repo without having to download it

**Rebecca** 23/08/2021

ok i'll change it

 **Tiana** 23/08/2021

Fanyu Meng  
24, Software Engineer  
Melbourne, Australia

**Software** Software engineer, Developer, UI/UX

**Pain Points & Concerns**

- Not having a single platform to manage his clients effectively, interests and needs.
- Paying to maintain multiple lines of contact through various platforms - emails, messages.
- Comparing timesheets and prioritisation in different platforms when all jobs are not easily accessible in one spot.
- Tracking progress in different jobs inefficiently by looking at multiple platforms.
- Dealing with all the manual effort of client management such as writing emails and tracking client information.

**Bio**

Fanyu is a software engineer working freelance development jobs privately. He works with various customers from various companies, and would like to be able to facilitate his different jobs and workflows in a clear way. Fanyu believes it is essential to effectively and logically manage his clients and their information.

**Goals & Interests**

- Optimising his development projects for clients.
- Finding ways to manage his jobs clearly.
- Making it easy to organise clients and communication to avoid jobs getting混亂.
- Creating separate workspaces for sometimes separate jobs.
- Identifying priorities and progress in a systematic and simpler way.

**Motivations**

| Motivation           | Percentage |
|----------------------|------------|
| Freelance workflow   | 92%        |
| Efficiency           | 82%        |
| Time management      | 50%        |
| Resource management  | 65%        |
| Client communication | 70%        |

**Software**

**Personality**

| Personality Type | Score |
|------------------|-------|
| Intuitive        | 4     |
| Analytical       | 5     |
| Sensing          | 4     |
| Judging          | 3     |

**“** I want to utilise my developer skills in a positive and successful way, to provide my clients fantastic products. My motivation for having a CRM tailor-made for me lies in this desire - I wish to have a simple yet productive CRM that can manage my needs, so I can deliver the best to my clients. **”**

this is the user profile

pending fanyu pic

lmk if edits and i can do tmr before i upload it

also when we meet tmr we gotta do all the story points, ive been making tasks for each user stories  
and i had a couple questions abt the user stories to go thru

 **Tiana** also when we meet tmr we gotta do all the story points, ive been making tasks for each user stories

**Tiana** 23/08/2021

they're here, can be edited and changed tmr when we meet but leave any comments if u want preemptively

**Rebecca** 24/08/2021

0, 1, 2, 3, 5, 8, 13, 21

**Tiana** 24/08/2021

do we need to send him stuff..

**Rebecca** 24/08/2021

just let him have access to the repo

**Tiana** 24/08/2021

isnt that the point of him being in it

yea

- GitHub

    - |—— data samples/....# Documents you need to generate with all the data (inputs) necessary to simulate/demonstrate your prototype (whatever can be provided as an input in your prototype)

- My GitHub ID: iphwallace

**Zakarya** 24/08/2021

Going to add him

Added

**Tiana** 24/08/2021

oh totally forgot abt all the modelling n stuff we have to do  
shall we just divvy up those to do this week

**Zakarya** 24/08/2021

wait sorry what kind of models we talking about here

**Tiana** 24/08/2021

plus wireframes & mockups

**Zakarya** 24/08/2021

oh yes we can do that this week.

**Rebecca** 24/08/2021

we can discuss in zoom

**Zakarya** 24/08/2021

yes

**Rebecca** 24/08/2021

do you guys want me to go through the client meeting with y'all  
or do you just wanna read the notes in git

**Tiana** 24/08/2021

i have read zi notes

2

**Tiana** 24/08/2021

[https://www.figma.com/team\\_invite/redeem/SfaJF5Cv8OW71abRWHVrPy](https://www.figma.com/team_invite/redeem/SfaJF5Cv8OW71abRWHVrPy)

Figma

**Figma**

???????

**Terry\_t** 24/08/2021

I'm confused.....

**Zakarya** 24/08/2021

so was I

**Tiana** 24/08/2021

- make inception folder (artefacts)

**Zakarya** 24/08/2021

so

inception/artefacts ?

**Rebecca** 24/08/2021

name it inception

and artefacts go in there

**Zakarya** 24/08/2021

done

are requirements on git?

**Tiana** 24/08/2021

no but we can do that

**Zakarya** 24/08/2021

sheesh my net died :((

**Tiana** 24/08/2021

- **Architectural Model [4 + 1 view model]**

1. **Logical View** – system functionality provided to end users
  - Class diagrams
  - Object diagrams
  - State diagrams
2. **Process View** – runtime behaviour of system and elements of system relating to performance and availability
  - Sequence diagrams
  - Communication diagrams
  - Activity diagrams
3. **Development View** – describes software modules, dependencies and code organisation
  - Package diagrams
  - Component diagrams
4. **Physical View** – describes deployment of the system
  - Deployment diagram
5. **Scenarios** – view of system from external actors
  - Use case diagrams

**Terry\_t** 24/08/2021

the slides are actually already on canvas

**Rebecca** 24/08/2021

so not individual ones

**Terry\_t** 24/08/2021

for this week

**Tiana** 24/08/2021

are they

**Terry\_t** 24/08/2021

yeah

**Tiana** 24/08/2021

wait for his workshops r the lectures

**Terry\_t** 24/08/2021

the william lect one

pretty much same thing

lets wait for the lecture to get a better idea to choose the architecture?

1

**Tiana** 24/08/2021

yea tru

zak u fixed up the git

**Zakarya** 24/08/2021

yes

idk if that was a question or a statement but yes

**Tiana** 24/08/2021

was statement

hahah

btwim gonna make a diff minutes folder

on the gdrive

so we can write on there

1

should we finish the story pooints now

**Rebecca** 24/08/2021

what an abrupt end

**Tiana** 24/08/2021

yeah lol

bec do u mind putting ur minutes on google doc

ik its already on git

 @Rebecca do you want the word doc or the pdf

 **Tiana** 24/08/2021

umm idm whatevs easier

 **Rebecca** 24/08/2021

omg discord has threads now

slack noise intensifies

 2

 @Tiana umm idm whatevs easier

 **Rebecca** 24/08/2021

i have both but if you have a preference lmk

 **Tiana** 24/08/2021

also **@Nicholas** that way when ue meet u can write the minutes and i can write any scrum related stuff on it too

 @Tiana altho we already told him

 **Rebecca** 24/08/2021

let's tell him again

**Tiana** 24/08/2021

if its a sprint planning or whatever

 @Rebecca let's tell him again

**Tiana** 24/08/2021

true

 @Rebecca i have both but if you have a preference lmk

**Tiana** 24/08/2021

maybe do word

**Rebecca** 24/08/2021

yes ma'am

done

**Tiana** 24/08/2021

r we just gonna do the story points individually now?

**Rebecca** 24/08/2021

yep

i can finalise it again

**Tiana** 24/08/2021

oke

**Rebecca** 24/08/2021

so if everyone can go finish the story points and i can finalise by tmr

2

we should organise some time to discuss design stuff [@Tiana](#) [@Terry\\_t](#)

2

**Tiana** 24/08/2021

yeehaw

oh we need to upload the requirements solicitation

\*elicitation

not solicitation

**Rebecca** 24/08/2021

solicitation

**Tiana** 24/08/2021

idk why i wrote that tbh

**Rebecca** 24/08/2021

you want to be a solicitor

post grad law

**Tiana** 24/08/2021

ug ot me

-  @Rebecca we should organise some time to discuss design stuff [@Tiana](#) [@Terry\\_t](#)
-  **Tiana** 25/08/2021  
when r yall free
-  **Rebecca** 25/08/2021  
I have an important assignment due tmr so Fri/Sat is ideal for me
-  **Tiana** 25/08/2021  
importante  
go bec  
 1  1
-  **Rebecca** 25/08/2021  
it worth 25% 😞  
and then the week after i have a 40% assignment essay
-  **Tiana** 25/08/2021  
u got dis  
friday would be good tho  
if we need to do the wiireframee and mckup before tues

**Rebecca** 25/08/2021  
im good for fri, arvo?

**Terry\_t** 25/08/2021  
When on friday?

**Rebecca** 25/08/2021  
arvo or night

**Tiana** 25/08/2021  
uhhh afternoon prob better for me

**Terry\_t** 25/08/2021  
Is afternoon after 4 okay with yall?  
I got work in the morning

**Rebecca** 25/08/2021  
yes that's fine for me

---

26

**Tiana** 26/08/2021  
yepp

---

27

**Tiana** 27/08/2021  
meet at 4?  
also yall what are we doing about the architecutral mode

ID 1

K 1

**Terry\_t** 27/08/2021

Can we meet at 5?

I need to eat something after work, it's been real hectic today

**@Terry\_t** Can we meet at 5?

**Rebecca** 27/08/2021

Yeah sure

**Tiana** 27/08/2021

yea thats fine

**Rebecca** 27/08/2021

Hey can you guys complete the story ratings? **@Zakarya** **@Nicholas**

Cheers!

**Zakarya** 27/08/2021

Sorry about that, been super sick for the last 3 days. Will try to get it done by tonight.

1

**Rebecca** 27/08/2021

Oh no get well soon!

1

**@Rebecca** Hey can you guys complete the story ratings? **@Zakarya** **@Nicholas** Cheers!

**Nicholas** 27/08/2021

Ok

:(( feel better

guys should we chat for 15 mins tonight about what modesl we gon do

**Rebecca** 27/08/2021

yes meeting tonight would be g

**Nicholas** 27/08/2021

Yeah sure

**Rebecca** 27/08/2021

what time is good?

8?

**Nicholas** 27/08/2021

Im good any time after 7

**Tiana** 27/08/2021

same

**Rebecca** 27/08/2021

8:30 then? to give others the time

@Zakarya @Terry\_t

(in 30 mins)

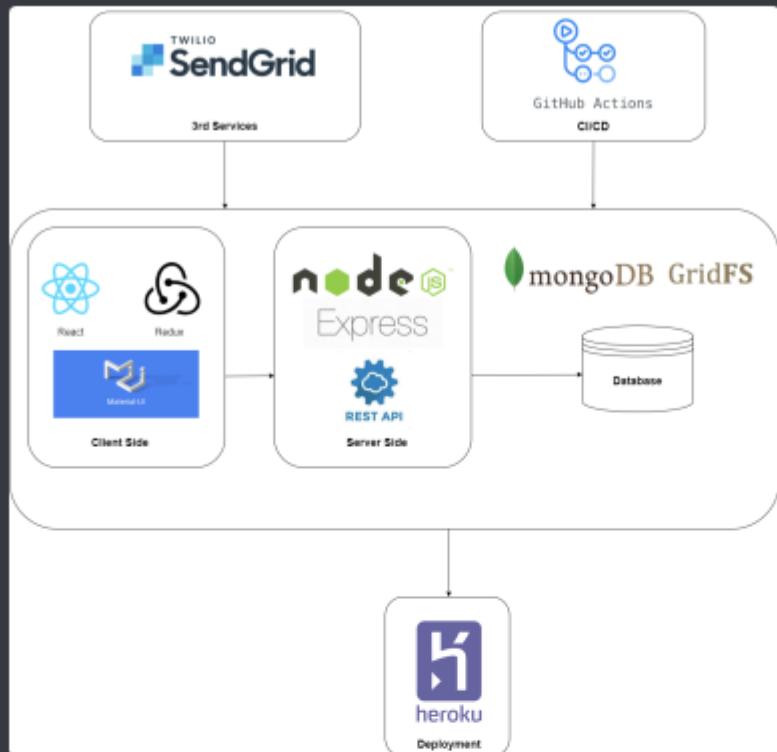

**Nicholas** 27/08/2021

Ok

Nicholas 27/08/2021

Tiana 27/08/2021

yo @Zakarya are u ok to finish up the story points tonight?  
cos need to upload them to git

Zakarya 27/08/2021

Sure I can do that right now

Can I also choose the most common one and resolve it?

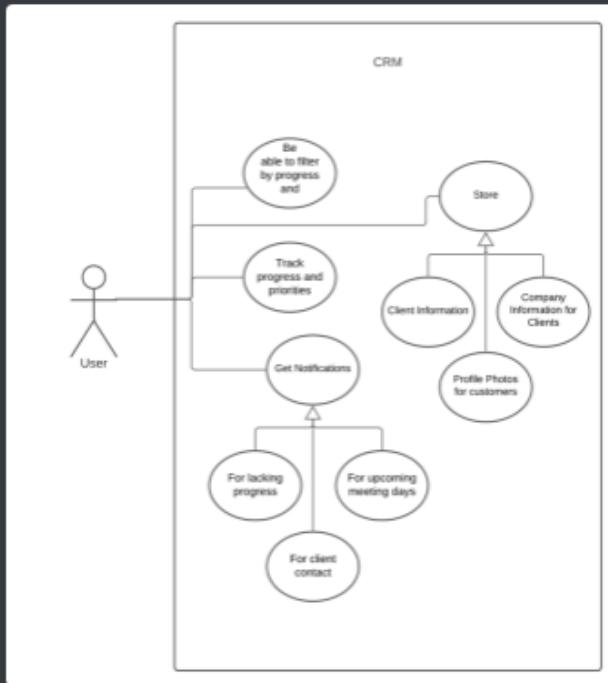

Done, I am also going to add it to the git 😊

Added.

Zakarya 28/08/2021

Hey team, was a bit unsure but am I on the right track with the use case diagram?

Tiana 28/08/2021

yeaa i think so?

go off of last sem

Rebecca 29/08/2021

let me know if either of you need help with the designs or if you're done I can review them since the wireframes look to be done

@Terry\_t @Tiana

Tiana 29/08/2021

yer i will work on mockup tonight been in meetings all day

@Terry\_t if its easiest are u happy for me to do the client mockup tonight and then u can copy the elements that are the same into the search

 @Zakarya Hey team, was a bit unsure but am I on the right track with the use case diagram? 

Tiana 29/08/2021

also i believe u need to add things like adding and editiv clients  
crap actually we didnt incl those in user stories

 @Tiana @Terry\_t if its easiest are u happy for me to do the client mockup tonight and then u can copy the elements that are the same into t...

 Terry\_t 29/08/2021

Wait, wdyt?

I was planning to do the mockups tonight as well

 @Tiana crap actually we didnt incl those in user stories

 Terry\_t 29/08/2021

Yeah, I didn't see that part as well, but adding is included in the wireframe  
And for editing client, just tap on the client button, easier that way

 @Terry\_t Wait, wdyt?

 Tiana 29/08/2021

cos stuf like the top bar are the same  
so basically we'll just copy them over

1

 @Terry\_t Yeah, I didn't see that part as well, but adding is included in the wireframe

 Tiana 29/08/2021

yeah needs to be in the use cases

 @Terry\_t And for editing client, just tap on the client button, easier that way

 Tiana 29/08/2021

client button?

 Terry\_t 29/08/2021

Just clicked on the contact name, that's what I meant soz

 Tiana 29/08/2021

are we using node for our server side

 Tiana 29/08/2021

like are we using the MERN stack?

 Zakarya 29/08/2021

Yes that's what we agreed on 

1

 Tiana 29/08/2021

okey perfect

our component diagram is basically the same as the example u gave then **@Nicholas** so cheers for that hahaha  
hows erryone going with their tasks

 Nicholas 29/08/2021

I think I'm halfway done gonna finish it tmr

1

Tiana 29/08/2021

awesomeee

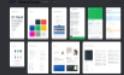

Tiana 29/08/2021

btw @Terry\_t im gonna use stuff from this [https://www.figma.com/file/tGLjYesW0shy0Ce9Z1O4zw/Material-Design-UI-kit--Components-library-\(Community\)?node-id=909%3A31307](https://www.figma.com/file/tGLjYesW0shy0Ce9Z1O4zw/Material-Design-UI-kit--Components-library-(Community)?node-id=909%3A31307)

Figma

[Material Design UI kit - Components library \(Community\)](#)

Created with Figma

bc those are actual material ui components

so will be much easier to design the same

Terry\_t 29/08/2021

hmm okay

imma adjust my mockup a bit

Tiana 29/08/2021

mockup or wireframe?

ah ok do u mind putting the mockup under hte mockup project

also yeah tbh it might be a bit hard for us to recreate that using material ui

ive also set fonts and colours - so u should use those for things

the team library fonts

that way we can easily change them between documents

@Tiana ah ok do u mind putting the mockup under hte mockup project

Terry\_t 29/08/2021

aight bet

@Tiana also yeah tbh it might be a bit hard for us to recreate that using material ui

Terry\_t 29/08/2021

nah I'll try and make it looks stream line

Tiana 29/08/2021

oke

but yea do u know how to use library fonts/colours?

Terry\_t 29/08/2021

yeh

Tiana 29/08/2021

also have we ditched the top bar

sweet

@Tiana also have we ditched the top bar

Terry\_t 29/08/2021

what happened lmao

that'd still be pretty useful haha

Tiana 29/08/2021

oh idk im just looking at your mockup and i dont see it there

also dont think we need an account page

**Terry\_t** 29/08/2021

it's in the wireframe file, you couldn't see it?

it's pretty small next to the big wireframe one's

**Tiana** 29/08/2021

yea i saw that

but theres no topbar on that one right

**Terry\_t** 29/08/2021

yeh, I left some space for it

**Tiana** 29/08/2021

ah gotcha gotcha

**Terry\_t** 29/08/2021

was waiting till yall refine the design for it first

**Tiana** 29/08/2021

sure nws

but yea i recc just rework it with materialui components  
and the library stuff

looks good otherwise

**Terry\_t** 29/08/2021

yeh

Tiana 29/08/2021

also - does anyone have opinions on editing individual components on a profile page vs being in edit mode for the whole thing

Terry\_t 29/08/2021

there's legit not a lot we can do lmao

Tiana 29/08/2021

i'm honestly not sure which would be easier

Terry\_t 29/08/2021

like there's nothing to add in....

Tiana 29/08/2021

for the search? yeah there's not much

so ig just making it as friendly to when we have to develop it as we can

Terry\_t 29/08/2021

bet bet

also tiana, can we just not use serif font?

it really bugs me when ever i see it lmao

Terry\_t 29/08/2021

nvm, it actually pretty nice

Tiana 29/08/2021

hahahahah

it's ok we can change it to whatever

i just chose random ones

alsot erry i think u accidentally made the font definition be in the page ur working on

**Terry\_t** 29/08/2021

nah I'm digging the font on the "Chetos"  
ah shit

**Tiana** 29/08/2021

oh that's kinda vibey i agree

**Terry\_t** 29/08/2021

did it mess with your part?

**Tiana** 29/08/2021

nah it should be ok ill move it back

1

**Rebecca** 29/08/2021

I don't think we need account bc there's only 1?

**Terry\_t** 29/08/2021

okay

**Rebecca** 29/08/2021

take a look at the wireframe should be placed along the same lines

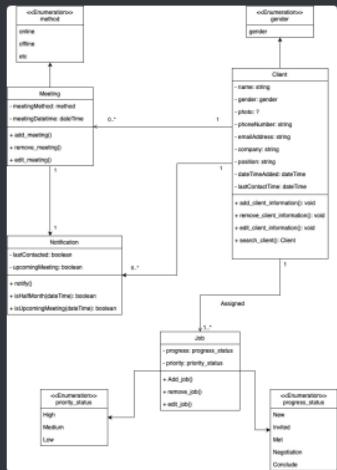

**Rebecca** 29/08/2021

should we meet tmr or tues to review the wireframes/mockups?

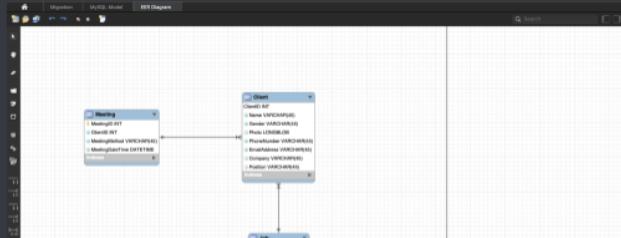

Nicholas 30/08/2021

This is what I currently have for the class domain diagram. Do you guys have any ideas on what else to add?

1

and err for the database modelling I have no idea what else to put in and my mysql is having that irritating glitch whereby making a primary key a foreign key in another table makes the primary key icon disappear

Zakarya 30/08/2021

Wait wernet we using mongodb?

Nicholas 30/08/2021

Wait is the modelling diff for mongo?

Zakarya 30/08/2021

I believe so cos it's non relational

Nicholas 30/08/2021

O whoops

Zakarya 30/08/2021

And types are different

Yeah did u have a quick look over Mongodb diagrams?

Nicholas and err for the database modelling I have no idea what else to put in and my mysql is having that irritating glitch whereby makin... 🤦

Nicholas 30/08/2021

I did look at some diagrams and some of them look very similar to this and some of them aren't so idk

Zakarya 30/08/2021

Just make sure to use correct types then

**Zakarya** 31/08/2021

Hey team, found out why I been so sick, just tested positive for Covid 19 and it's been pretty bad. I will try my best to make it to meeting tomorrow but if I don't could you let doc know that I did use cases and coding guidelines. Thank you and hope I feel better tomorrow :)

😊 1

**Tiana** 31/08/2021

hey Zak oh no that's not good at all hope ur resting up !!! take it easy we can talk to doc especially cos it might take you a bit to recover

🎉 1

take care 😊

**Rebecca** 31/08/2021

Oh that's awful Zak. Don't worry about anything for now, we'll talk to doc. Just focus on getting better!

🎉 1

**Terry\_t** 31/08/2021

Get better man :((

🎉 1

**Tiana** 31/08/2021

should we discuss the mockups before class

**Rebecca** 31/08/2021

yes we need to do a meeting before the tute anyway

**Tiana** 31/08/2021

yea i mean even earlier than that potentially  
not sure we'll have enough time to make changes otherwise

**Rebecca** 31/08/2021

hmm yes ok what time

im free

Tiana 31/08/2021

im free as well

actually @Terry\_t are u working

 @Zakarya Hey team, found out why I been so sick, just tested positive for Covid 19 and it's been pretty bad. I will try my best to make it to me...

Nicholas 31/08/2021

That sucks hope you get better soon

 1

Im free too

 @Tiana actually @Terry\_t are u working

Terry\_t 31/08/2021

Still at work 😊

Rebecca 31/08/2021

that's fine just hop on when you can

Tiana 31/08/2021

Rebecca 31/08/2021

week 6 checklist due 3 sep

looks like we hit every box, just checked

 1

**Tiana** 31/08/2021

ive started filling out the checklest  
\*checklist

**Rebecca** 31/08/2021

ok that's good  
i assume only 1 person hands in so that'll be you ig

**Tiana** 31/08/2021

ill put it on drive  
oop  
i need to change Fanyu's name  
should be fictional  
ill fix the persona

1

**Rebecca** 31/08/2021

Yufan

**Rebecca** 31/08/2021

is it ok to add myself as reviewer to the wireframe/mockup for login? [@Tiana](#)

**Tiana** 31/08/2021

yea sure thing

**Rebecca** 31/08/2021

thanks pardner

i was gon review them anyway

**Tiana** 31/08/2021

bec r u gonna have time to do all those things this week

also i would like 2 have a go at frontend too

if thats ok

**Rebecca** 31/08/2021

the 21 point stuff no

yeah come hop on it w me

**Tiana** 31/08/2021

ah

we prob dont need to delegate that til next wk then

**Rebecca** 31/08/2021

i was thinking i could do the other stuff idk

**Rebecca** 31/08/2021

i was thinking i could do the other stuff idk

**Tiana** 31/08/2021

but sure i shall

**Rebecca** 31/08/2021

im just wary of Zak

**Tiana** 31/08/2021

cos dont we have 1 week after this

or no

**Rebecca** 31/08/2021

not sure

**Tiana** 31/08/2021

hm

**Rebecca** 31/08/2021

but yea i dont think we can complete all of that in 1 week

**Tiana** 31/08/2021

but yes we can do code togethah

throwback thursday

or tuesday

**Rebecca** 31/08/2021

pls

**Rebecca** 31/08/2021

remember to update the story points to git that you've edited today @Tiana

**Tiana** 31/08/2021

yea i did

**Rebecca** 31/08/2021

i think we should start the 21 point stuff next week?  
or not have to complete by next week

**Terry\_t** 31/08/2021

the ladder probably

1 September 2021

**Tiana** 01/09/2021

yo dudes we need to finalise and upload the designs to a new folder

**Rebecca** 01/09/2021

the wireframes are done

**Tiana** 01/09/2021

yea ill upload em now but the mockups

**Rebecca** 01/09/2021

i think the mock ups are fine. It's not like the final product will look exactly like that anyway  
or we will prob end up changing things (but ofc we will try to make it look close tot eh mock ups)

**Rebecca** 01/09/2021

should we tell Fanyu about Zak? Not sure what it's best to tell the client

Or we could tell him during sprint review ig

2 September 2021

**Tiana** 02/09/2021

yo **@Nicholas** rmbr to upload the diagrams u did and the team meeting mins  
to git

↳ **@Rebecca** Or we could tell him during sprint review ig

**Tiana** 02/09/2021

yea we can tell him then ig

i just uploaded all the wireframes and mockups

[https://docs.google.com/document/d/1Tq5NshebOjvtl6kFZn1kzLsa9OIZ6GQcCI0xk90m\\_mE/edit](https://docs.google.com/document/d/1Tq5NshebOjvtl6kFZn1kzLsa9OIZ6GQcCI0xk90m_mE/edit)

going to submit the checklist as above if **@team** everyone can just check it if they want

also we should all read over the code standards and comment any changes if u think its necessary

[https://docs.google.com/document/d/1wNBxyRDCByy7cnI45V69rY1i2J\\_IL2ZEP2hXOIB5RDk/edit](https://docs.google.com/document/d/1wNBxyRDCByy7cnI45V69rY1i2J_IL2ZEP2hXOIB5RDk/edit)

### Google Docs - create and edit documents online, for free.

 @Tiana yo @Nicholas rmbr to upload the diagrams u did and the team meeting mins

**Nicholas** 02/09/2021  
Ok

 **Tiana** 02/09/2021  
im not sure where zak has put his use cases but thats ok we can upload ltaer

3 September 2021

 **Rebecca** 03/09/2021  
Guys I'm travelling the whole day tmr and will be a bit busy for the next few days so I may or may be able to complete my tasks but the stand up. I can try!!

 **Tiana** 03/09/2021  
didd u upload the database one too?

 **Nicholas** 03/09/2021  
Err I'm it seems GitHub isn't letting me upload for some reason  
After I uploaded the class diagram it doesn't let me upload anymore  
I just tried again just now

 **Tiana** 03/09/2021  
oh .. that's weird  
u can send it to me here and ic an uplaod  
im gonna submit the checkliist

 **Nicholas** 03/09/2021

ok yeah i just tried again the page just hangs for some reason when i try to commit

**Tiana** 04/09/2021

all g i posted it

**@Zakarya** i hope ur doing ok!! let us know how ur feeling

also i just realised our repo is priv we probs need to change that so they can verify things on our checklist

**@Tiana @Zakarya** i hope ur doing ok!! let us know how ur feeling

**Zakarya** 04/09/2021

Doing better thank you! 😊

2

**@Tiana** also i just realised our repo is priv we probs need to change that so they can verify things on our checklist

**Zakarya** 04/09/2021

Isnt Doc verifying that? He has been added to the repo

**Rebecca** 04/09/2021

other supervisors should be able to and our lecturer etc.

**Zakarya** 04/09/2021

But if its public then others can see our work and may even lead to plagiarism no? :((

**Tiana** 04/09/2021

hmmm

im not sure

maybe we should ask doc

**Rebecca** 04/09/2021

can we get rid of the ":" for the prototypes in the git bc it's messin with my windows git pull bc it illegal lol

**Tiana** 04/09/2021

wat :

oh

idk why it did that

i used a / in the names

ill change them tho

fixed it

**Rebecca** 04/09/2021

Thanks shish

**Rebecca** 04/09/2021

that's the first sprint over, shall we organise a sesh with Fanyu? @Tiana

**Tiana** 04/09/2021  
@Rebecca that's the first sprint over, shall we organise a sesh with Fanyu? @Tiana

yehaw

\*yeehaw

tmr?

or can we wait til after tues

**Rebecca** 04/09/2021

i would prefer if we could do it after tues but i am free all day tmr ❤️  
except for my mandated lunch and dinner

**Tiana** 04/09/2021

i need to finish thinking sci  
so maybe after tues

1

5 September 2021

**Tiana** 05/09/2021

should we ask fanyu if we can do it on tues

and then we can do our team sprint retrospective on tues before class?

idk

**Rebecca** 05/09/2021

i would prefer it not to be on tuesday as i have thinking sci to do by then  
and as long as we do it, should be fine

**Tiana** 05/09/2021

okeydoke

**Rebecca** 05/09/2021

but yeah we actually if fanyu is available we could it it in da time before the tooty  
21:34 just prefer it not be after as that is peak time

**Tiana** 05/09/2021

PEAK@TIME

grind

**Rebecca** 05/09/2021

i've lost 2 hours as well 😞

**Tiana** 05/09/2021

tru

**Tiana** 06/09/2021

wat we doin

rebec

**Rebecca** 06/09/2021

Let's ask when Fanyu is available first? Then go from there

**Tiana** 06/09/2021

ya r we fonna ask him if he can do tmr tho?

**Rebecca** 06/09/2021

Yes sure. Before our tute

**Tiana** 06/09/2021

okeydoke

7 September 2021

**Rebecca** 07/09/2021

Hey guys unfortunately I haven't been able to do much if at all this week for the project. I've had an intense week and unprecedeted events (I've flown back home recently) (and my laptop charger isn't working lmao rip) (edited)  
I'm very sorry!

**Tiana** 07/09/2021

no strezzzo

@team we gotta do our sprint #2 planning todaay

so pls come at 345 (or 4 cos u got work Terry) so we can do dat

and ig we can do sprint #1 retrospective later this week once bec and i ahve met with fanyu

**Tiana** 07/09/2021

bec we r talking

**Rebecca** 07/09/2021

can you hear me

**Tiana** 07/09/2021

yea

**Rebecca** 07/09/2021

ugh ok gimme a sec i try to fix

**Tiana** 07/09/2021

**Tiana** 07/09/2021

@Zakarya do u mind mkaing a week 9 folder on git  
under docs

**Zakarya** 07/09/2021

Sure!

we dont have a week 6

**Tiana** 07/09/2021

yea that's inception

**Zakarya** 07/09/2021

oh yeah sorryy

**Tiana** 07/09/2021

no ur good

we can rename that but we linked to inception on the document i submitted lat week

\*last

so better just leave it

**Zakarya** 07/09/2021

Oh ok

Made the week 9 file

**Zakarya** 07/09/2021

can someone send the zoom link

it says expired on the lms one

nvm got it

**Rebecca** 07/09/2021

Guys good timing with the end of the meeting

The police just came by

1

Zakarya 07/09/2021

@Terry\_t , could you add the FE to the github repo so we can try connecting them together?

1

correct me if I am wrong but we still use routers if we are using react right?

I can make an empty react folder for now to test for now ig

Zakarya 07/09/2021

@Nicholas if you can, could you also push or send me the login page UI you made on react?

1 @Zakarya @Nicholas if you can, could you also push or send me the login page UI you made on react?

Nicholas 07/09/2021

It's quite scuffed so far tho I'm gonna look it over again

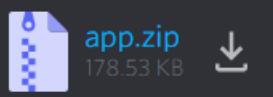

Zakarya 07/09/2021

That's OK @Nicholas i just need the template for now :)

U can send the code here if u want

Nicholas 07/09/2021

2

Zakarya 07/09/2021

@team , could we from now work on the same repo for FE and BE? It will make sure our ports are consistent and also will ensure consistency in the code we are putting up. I have added the login page from Nicholas and it handles a login now, so if you could just handle the rest of the UI by pulling from the repo that would be the best 😊

1

The login for now is:

username:frankSmith

pw: frankSmith

1 @Zakarya @team , could we from now work on the same repo for FE and BE? It will make sure our ports are consistent and also will ensure c...

Tiana 07/09/2021

yes !! 😊 ty for setting up

1

are we planning on branching?

Zakarya 07/09/2021

If we need to, right now its mainly one person working on one feature I think...

Tiana 07/09/2021

yeaa oke so not branching per feature then?

Rebecca pinned a message to this channel. See all pinned messages.

8 September 2021

Terry\_t 08/09/2021

I put my part on the MainPageComponents folder

1

**Zakarya** 08/09/2021

Thanks so much man!

**Terry\_t** 08/09/2021

but I also have some adjustments in the App.js file  
should I put it up there as well?

**Zakarya** 08/09/2021

Is it all done?

**Terry\_t** 08/09/2021

The main page as a whole?

**Zakarya** 08/09/2021

Umm yeah sure, if it doesn't effect the rest

**Terry\_t** 08/09/2021

nah

**Zakarya** 08/09/2021

Also I am not able to redirect after a successful login could you check that too? When u have time :)

**Terry\_t** 08/09/2021

should be fine I hope 🤞

**Terry\_t** 08/09/2021

jeez

 @Terry\_t nah

**Zakarya** 08/09/2021

That's all g, I just wanted to get started with the search function haha

**Terry\_t** 08/09/2021

lemme see

 @Terry\_t jeez

**Zakarya** 08/09/2021

Haha bro I tried like redirect and history. Push

Nothing seem to work

I was like maybe Terry know

 2

 @Zakarya I was like maybe Terry know

**Terry\_t** 08/09/2021

I'll check lul

and lemme update the search function to a button first

I forgot and left it as <p> haha

**Zakarya** 08/09/2021

Oh yes please

Make it a input box from which I can access the value when the search button is clicked

If that's possible in react

Terry\_t 08/09/2021

will have to see

searching for that rn

Zakarya 08/09/2021

Coolie!

All the best man, and do let me know when you done tonight so I can start work :)

1

Terry\_t 08/09/2021

video0.mov

1.93 MB

Chetohs

Search for contacts

Name Status

John Doe new

This should be good enough right @Zakarya

**Zakarya** 08/09/2021

Looks perfect man! Legend!

🎉 1

Dont forget to push :))

└─ @Zakarya Dont forget to push :))

**Terry\_t** 08/09/2021

all g

**Zakarya** 08/09/2021

Wait before you go, how can I access this page? What URL is it set on?

And also were you able to do the redirect stuff from login?

└─ @Zakarya Wait before you go, how can I access this page? What URL is it set on?

**Terry\_t** 08/09/2021

How do I find out which URL am I setting it on?

cuz I created a different app from as a whole so yeh

**Zakarya** 08/09/2021

What url do you have open right now?

oooohhh

**Terry\_t** 08/09/2021

localhost:3000

🤔 1

**Zakarya** 08/09/2021

ok but right now you added it in as a component?

**Terry\_t** 08/09/2021

yeh

**Zakarya** 08/09/2021

oh ok, if you pushed, I can try to make a url and add it to taht

**Terry\_t** 08/09/2021

ok ok

**Zakarya** 08/09/2021

and I will let you know too so when you run it you can work on that url  
idk how it works on react but will try to get something

👉 1

any idea how I can redirect? :((

**Terry\_t** 08/09/2021

u da mvp

👉 @Zakarya any idea how I can redirect? :((

**Terry\_t** 08/09/2021

Idk how react works lmao

Zakarya 08/09/2021

you the real mvp haha

1

@Terry\_t Idk how react works lmao

Zakarya 08/09/2021

ok we both on same page then dw 😂  
all the best to me then :))

@Zakarya ok we both on same page then dw 😂

Terry\_t 08/09/2021

wait what the size of the web app that Nic sent you

Zakarya 08/09/2021

you better sleep man pretty late init 😴

@Terry\_t wait what the size of the web app that Nic sent you

Zakarya 08/09/2021

he just sent me components too, they are on the github

Terry\_t 08/09/2021

cuz I'm working on 1440-1024px

ok ok

@Terry\_t cuz I'm working on 1440-1024px

Zakarya 08/09/2021

umm not sure, but they work fine on my laptop

Shouldnt be a probem for now

Cos I think hes still working on them

Terry\_t 08/09/2021

yeh just use developer tools and laptop size 1440p

Zakarya 08/09/2021

gotcha! 😊

Terry\_t 08/09/2021

that's what I use for the responsive design, otherwise everything gonna be a mess 😞  
and the phone design as well smh

Zakarya 08/09/2021

yeah thats good! and yeah it sure can be!

👉 @Terry\_t and the phone design as well smh

Zakarya 08/09/2021

i think once we get a rough idea of how it works it should be pretty simple css handling

🔥 1

I will have a look on how you did it and I am pretty sure its just basic css and setting breakpoints  
wasnt a problem in hbs so I hope its the same in REACT :))

👉 @Zakarya wasnt a problem in hbs so I hope its the same in REACT :))

Terry\_t 08/09/2021

same my dud, same...

😂 1

aight imma push then head off

Zakarya 08/09/2021

so sorry my net died :((

yes perfecto thanks so much man!

and goodnight to you! 😊

1

Terry\_t 08/09/2021

I included a version of my App.js in the MainPageComponents folder for reference, cuz I don't wanna jinx Nic's code

1

Zakarya 08/09/2021

Oh got it thanks for letting me know! :))

9 September 2021

Zakarya 09/09/2021

Do we have Fanyus email? Maybe hes forgotten about discord or something? @Rebecca

Rebecca 09/09/2021

Yeah good idea I'll try to find it, I know we initially emailed him

1

Tiana 09/09/2021

its in the important links

Rebecca 09/09/2021

yeah gottit

sending off now

Zakarya 09/09/2021

@Terry\_t , finally got routes to work!

So when you npm start you will be taken to the home route, just login using frankSmith which will take you to the home page route at <http://localhost:3000/user> and you can work on the rest of the FE there :)). Let me know if theres any confusion and I can help there 😊

1

Only thing is your main App.js file is now in the User folder and is named UserHome.js so you can add components there 😊

Tiana 09/09/2021

@Nicholas do u still wanna do the customer stuff in the backend?

otherwise im happy to do it if u wanna do smth else im on in the frontend instead

just cos what ive done on the be is related

1 @Tiana just cos what ive done on the be is related

Nicholas 09/09/2021

Ok

Tiana 09/09/2021

up to u tho completely

i am not fusse

maybe take a look n see if theres something on the FE im allocated to that ud be happy to do instedad

**Nicholas** 09/09/2021

Yeah it's fine since you've alr done some mongo stuff right?

**Tiana** 09/09/2021

\*instead

yeah

zak gave me a good crash course

~~100~~ 2

lmk which task u wanna switch tho :))

**Rebecca** 09/09/2021

Yo guys in case you didn't know we have to do peer reviews now lmao. It's due in like 10 days  
They took 2/15 points away from the pro communication report for it

1

10 September 2021

**Rebecca** 10/09/2021

what font are we using? rn just assuming sans serif normal  
(<https://www.cssfontstack.com/>)

### **CSS Font Stack: Web Safe and Web Font Family with HTML and CSS code.**

Web safe CSS font stacks and web fonts. Select, preview, and generate CSS and HTML for your font family.

**Tiana** 10/09/2021

uhhh

had some funky fonts on figma

but idk we dont have to use those

i just used those based off of good website font combos (edited)

**Rebecca** 10/09/2021

Hey guys so btw we are using Material UI (as that's what we used in the figma designs)

↪ @Tiana i just used those based off of good website font combos (edited)

**Terry\_t** 10/09/2021

Use google Opens Sans

I changed from Work Sans cuz it was a bit funky

↪ @Terry\_t Use google Opens Sans

**Tiana** 10/09/2021

yeah idm we can use whatever

**Rebecca** 10/09/2021

So atm if you're using the login guys pls use the top username and passwords (the stuff in the box put random stuff in they're mainly design rn)

edit: all g should be working now (edited)

1

**Tiana** 11/09/2021

ayo guys on Tues before class we'll do the Sprint #1 retrospective during our usual meet

**Rebecca** 11/09/2021

Okie dokie

**Tiana** 11/09/2021

Ok

~~100~~ 2

**Tiana** 11/09/2021

@Nicholas yo im a bit confused about the registration  
why did we add that?

**Nicholas** 11/09/2021

I mean if it's not needed we can take it out I guess  
So we just store a hashed password directly into the database?

**Rebecca** 11/09/2021

also frankSmith wasn't working so i made a new log to use lmao  
U: dulapeep  
P: dulapeep

**Tiana** 11/09/2021

i dont rly think we need it just bc not just anyone will be using it  
but idm

@Zakarya do u kno why frankSmith wouldnt be working anymore

**Nicholas** 11/09/2021

Yeah cos I did the hashing so franksmith wasn't hashed so it couldn't login

**Tiana** 11/09/2021

oh right

**Rebecca** 11/09/2021

all g

ah ok

so theres a bunch of users now on compass  
i assume some were tests

@Nicholas Yeah cos I did the hashing so franksmith wasn't hashed so it couldn't login

Zakarya 11/09/2021

Wait how did you do this? Did you push that version?

@Zakarya Wait how did you do this? Did you push that version?

Nicholas 11/09/2021

Yeah it's pushed

@Tiana i assume some were tests

Nicholas 11/09/2021

Yeah was just testing

Rebecca 11/09/2021

meeting has started **@Tiana**

Nicholas 11/09/2021

sry someone's at the door gonna be away for awhile  
back

Rebecca 11/09/2021

<https://www.visual-paradigm.com/scrum/what-is-sprint-review/>  
this is what i was talking about **@Tiana**

### What is Sprint Review?

The Best Scrum learning guide written for all scrum teams. This scrum guide explains Sprint Review Meeting in detail.

**Rebecca** 13/09/2021

Can you come on a call with me and Tiana when you're free? [@Zakarya](#)

**Zakarya** 13/09/2021  
@Rebecca Can you come on a call with me and Tiana when you're free? [@Zakarya](#)

**Zakarya** 13/09/2021

What time suits you guys and what's this for if you don't mind me asking :)

**Rebecca** 13/09/2021

Just about the profile page stuff

Umm now works for me ig just a short call

**Zakarya** 13/09/2021

OK gimme like 2 min :)

1

**Rebecca** 13/09/2021

Just fiddled a bit and found that `/user/profile` is accessible without logging in

**Zakarya** 13/09/2021

working on that

**Zakarya** 13/09/2021  
fixed and going to push

**Rebecca** 13/09/2021  
Sick  
Finding defects is really bringing my internship days back haha

**Zakarya** 13/09/2021  
haha thats a good thing, keep it up :))

**Rebecca** 13/09/2021  
not sure if it's just me but i pulled the recent changes and /user/profile is now a blank screen

**Zakarya** 13/09/2021  
oh  
so on the userhome page  
click on any user to take you to the page of that user

**Rebecca** 13/09/2021  
Ah I see nice  
Will prob need to refactor that a little once I'm finished the UI stuff by next week-ish

**Tiana** 14/09/2021  
@Terry\_t hop on once ur done with work if u can we just have the sprint retrospective

**Terry\_t** 14/09/2021  
okay, but our client legit said to build a web app.....

**Nicholas** 14/09/2021  
errr do the protected routes work for you guys cos i can still just access the other stuff with /user

**Tiana** 14/09/2021  
o rly  
havent tested it

 @Nicholas errr do the protected routes work for you guys cos i can still just access the other stuff with /user  
**Zakarya** 14/09/2021  
you can once you login I believe  
cos theres no logout function  
to set the authentication as false

 **Nicholas** 14/09/2021  
o

 **Tiana** 14/09/2021  
@Zakarya ohh i just realised so u ended up setting up the company stuff as well  
🤔 1  
thats what u were saying before lol didnt even register  
ty for doing that didnt get the chance to last night  
🌟 1

 @Tiana ty for doing that didnt get the chance to last night  
**Zakarya** 14/09/2021  
allg, happy to do a quick review of the code too if you want too 😊  
so funny as well... 😊

 @Zakarya you can once you login I believe  
**Nicholas** 14/09/2021  
i can still do that without login though

 @Nicholas i can still do that without login though  
**Zakarya** 14/09/2021  
oh sheesh, not doing that for me

 **Zakarya** oh sheesh, not doing that for me

**Zakarya** 14/09/2021

now it is, will look into it again :((

 **@Zakarya** now it is, will look into it again :((

**Nicholas** 14/09/2021

i think i have a solution but dont want to break your code if it works

 **@Nicholas** i think i have a solution but dont want to break your code if it works

**Zakarya** 14/09/2021

try it and if it doesnt just git stash it

**Zakarya** 14/09/2021

haha yeah thats good

go for it and let me know

you can always stash it if it doesnt work

**Rebecca** 14/09/2021

uh everything seems to be ok with me rn so pop into the chat if anyone makes changes to that

ill be werkin on the main page UI

so prob won't affect too much

@Rebecca uh everything seems to be ok with me rn so pop into the chat if anyone makes changes to that  
**Zakarya** 14/09/2021  
to the routing?

**Rebecca** 14/09/2021  
ye

**Zakarya** 14/09/2021  
yeah shouldnt, and plus your working on a new branch right?  
so his code wont affect yours

**Rebecca** 14/09/2021  
not branching main page atm  
should i?

**Zakarya** 14/09/2021  
we should  
yeah

**Rebecca** 14/09/2021  
hmm ok ill pull all changes now then create a branch

**Nicholas** 14/09/2021  
wait i think i can push now tho

**Zakarya** 14/09/2021  
also, for the profile page, are you using the same boxes create  
that I created \*

**Rebecca** 14/09/2021

um not sure yet i haven't really taken a look at the profile stuff, Tiana was working on it

**Zakarya** 14/09/2021

or did u make new ones

oh ok

i will ask her then

→ **@Nicholas** wait i think i can push now tho

**Zakarya** 14/09/2021

did you fix the routing?

**Nicholas** 14/09/2021

it should work

hopefully doesnt break anything

**Zakarya** 14/09/2021

yeah hope so too

u tested it locally before?

**Nicholas** 14/09/2021

yup

**Zakarya** 14/09/2021

should be good then

**Nicholas** 14/09/2021

yeah so i've pushed the code

one of the sort of "major" change is that the /user page is now just /

so idk might need to change the /user/profile

@Nicholas one of the sort of "major" change is that the /user page is now just /

Zakarya 14/09/2021

but why

what about the login page  
that was at /

Nicholas 14/09/2021

err cos

i think there was a misunderstanding lol  
what i did at the start was

Zakarya 14/09/2021

wait can we jump on the call

Nicholas 14/09/2021

if theres no token

ok

Zakarya 14/09/2021

@Rebecca you said /user didnt do anything for you?

Rebecca 14/09/2021

What do you mean? (edited)

/user is currently main page for me

have you guys changed stuff?

oh wait yeah i said /user/profile wasn't working it just blank screens me  
is that what you fixed?

**Zakarya** 14/09/2021

no no

i mean when you are on the login page  
and you dont login but change the url  
does it just let you in?

**Rebecca** 14/09/2021

oh i can go back to /user by changing the path

**Zakarya** 14/09/2021

from login?  
without logging in?

**Rebecca** 14/09/2021

from user/profile

**Zakarya** 14/09/2021

oh i was asking from the login

**Rebecca** 14/09/2021

oh yeah i can just go straight to /user

**Zakarya** 14/09/2021  
without logging in?

**Rebecca** 14/09/2021  
yep

**Zakarya** 14/09/2021  
ok thats bad then init  
i thought it was working

**Rebecca** 14/09/2021  
did anyone change the path for `/user/profile`?  
it was working before  
not sure what changed but i did pull the code this morning

**Zakarya** 14/09/2021  
I think I said that you can just go straight to the profile by clicking the user  
it takes you to that specific user id

**Rebecca** 14/09/2021  
oh fuck yeah i forgot about that sorry

**Zakarya** 14/09/2021  
haha all g

**Rebecca** 14/09/2021  
but yes currently the code i have im able to manually visit pages  
without logging in

okie :((

Also only John Doe has all the details stored in the db right now...

1

Rebecca 14/09/2021

okay ill just pull stuff now and give it a check over

Rebecca 14/09/2021

my backend isn't working now?

```
C:\Users\rebec\Documents\Programming\it_project\Code\backend>node server.js
internal/modules/cjs/loader.js:892
      throw err;
      ^
Error: Cannot find module 'dotenv'
Require stack:
- C:\Users\rebec\Documents\Programming\it_project\Code\backend\server.js
  at Function.Module._resolveFilename (internal/modules/cjs/loader.js:889:15)
  at Function.Module._load (internal/modules/cjs/loader.js:745:27)
  at Module.require (internal/modules/cjs/loader.js:961:19)
  at require (internal/modules/cjs/helpers.js:92:18)
  at Object.<anonymous> ((C:\Users\rebec\Documents\Programming\it_project\Code\backend\server.js:9:1)
  at Module._compile (internal/modules/cjs/loader.js:1072:14)
  at Object.Module._extensions..js (internal/modules/cjs/loader.js:1101:10)
  at Module.load (internal/modules/cjs/loader.js:937:32)
  at Function.Module._load (internal/modules/cjs/loader.js:778:12)
  at Function.executeUserEntryPoint [as runMain] (internal/modules/run_main.js:76:12) {
  code: 'MODULE_NOT_FOUND',
  requireStack: [
    'C:\Users\rebec\Documents\Programming\it_project\Code\backend\server.js'
  ]
}
```

also does anyone know if i use git stash and then pop it if it overrides all changes i've pulled bc of my differing file and how to just apply the bits i changed without gettin rid of the git pull stuff? (my code doesn't intersect with what was actually changed, it's just bc i had some changes on the file it conflicts)

@Rebecca my backend isn't working now? 🤔

Zakarya 14/09/2021

we didnt even use dotenv

@Rebecca also does anyone know if i use git stash and then pop it if it overrides all changes i've pulled bc of my differing file and how to just ...

Zakarya 14/09/2021

git stash is for saying whatever I did since the last pull or push, just get rid of it

@Rebecca also does anyone know if i use git stash and then pop it if it overrides all changes i've pulled bc of my differing file and how to just ...

Zakarya 14/09/2021

git stash is for saying whatever I did since the last pull or push, just get rid of it

You need to manage the conflicts though, where were the conflicts in?

@Zakarya we didnt even use dotenv

Rebecca 14/09/2021

Hmm well that's the bit that's no longer working since I pulled lmao fk I'll just do a hard reset ugh

Zakarya 14/09/2021

no no

just get rid of that line

@Zakarya git stash is for saying whatever I did since the last pull or push, just get rid of it

Rebecca 14/09/2021

Yes but it's for the purpose of popping it to reapply the changes you made before you pulled smth

Zakarya 14/09/2021

go to server.js and remove the dotenv line

1

@Zakarya You need to manage the conflicts though, where were the conflicts in?

Rebecca 14/09/2021

I just had silly little changes to login only for UI

@Rebecca Yes but it's for the purpose of popping it to reapply the changes you made before you pulled smth

Zakarya 14/09/2021

i did not know that

i just commit then pull and then push my code

Zakarya 14/09/2021

I am going to make a branch for the home page @Terry\_t @Rebecca

if you havent made it yet

Zakarya 14/09/2021

also sorry, you shouldnt hide the dotenv, just npm install it if it doesnt work..

Zakarya 14/09/2021

So new updates mainly for the main branch:

- You can only access other pages if you login, the main page is not at /user not it will automatically load at just / when you login.
- You might need to go to the server.js route and

```
npm install dotenv
```

- New branch has been made for the main page under the name home-page
- Back end for adding a new customer has been added (edited)
- To access the login page, ideally we should make a logout button, but for now we dont have that, so just open a new tab and open the home route there again and it should show the login page

Nicholas 14/09/2021

i added a sorta scuffed logout button to userhome its all the way on the bottom left for now u have to scroll down to see it

Rebecca 14/09/2021

Cool seems everything is working 👍

ok clicking on the profiles give me white screens btw

think it's bc the route wasn't updated perhaps

**Zakarya** 14/09/2021

what noooo

will check soon

**Rebecca** 14/09/2021

yeah no problems just letting you know 😊

**Zakarya** 14/09/2021

wait is it just like an empty white screen or just that the boxes are shown but empty  
works fine for me for John Doe

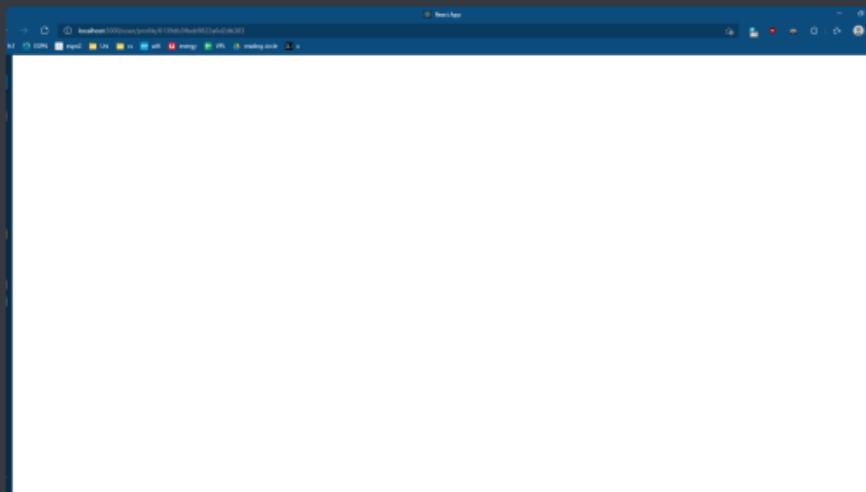

when you click on a customer is this the route it takes

`http://localhost:3000/user/profile/6139db3fbebe9822a6d2db38`

**Rebecca** 14/09/2021

john doe

whatever name i click on it's the same path btw

i put in your url too and not working

**Zakarya** 14/09/2021

oh

wait

did u pull latest version

**Rebecca** 14/09/2021

yep

**Zakarya** 14/09/2021

like rn?

**Rebecca** 14/09/2021

yes

ill restart the servers

**Zakarya** 14/09/2021

are you free to share screen quickly

**Rebecca** 14/09/2021

lemme try restarting the servers

**Zakarya** 14/09/2021

okkk

if it still dont work then just show me the userRouter.js class in the backend routers folder

**Rebecca** 14/09/2021

ill send it to you anyway

```
///////////////////////////////
// Author(s): Zakarya Butt
// Date Made: 09/09/2021
/////////////////////////////
```

```
const userRouter = require('express').Router();
```

▼ Expand ↕

userRouter.js 1 KB

**Zakarya** 14/09/2021

add this on line 9

```
const Company = require('../models/company');
```

**Rebecca** 14/09/2021

has that not been pushed yet?

**Zakarya** 14/09/2021

it is there on mine  
on the latest push

**Rebecca** 14/09/2021

weird... i just git pulled

**Zakarya** 14/09/2021

i also checked github and its there  
did the page work

**Rebecca** 14/09/2021

uhhh then i should really hard rest mabe aHAHA

**Zakarya** 14/09/2021

oh just the BE

**Rebecca** 14/09/2021

ok i added that line didn't reset  
when i go for localhost it immediately takes me to main page

**Zakarya** 14/09/2021

No I meant reset the server. Js  
Did u do that

**Rebecca** 14/09/2021

but when i logout it logs out and doesn't allow me manual access  
yes

Zakarya 14/09/2021

I think that's right

What about clicking on customers

Does it take uto profiles

Rebecca 14/09/2021

nope

Zakarya 14/09/2021

I feel like there's some code missing for you

Rebecca 14/09/2021

probably

ill just hard reset

i thing my latest push did smth idk

Zakarya 14/09/2021

U can but I don't think that Wil make a difference

Rebecca 14/09/2021

are you all up to date with the pulls

Zakarya 14/09/2021

Oh u made a push

Rebecca 14/09/2021

yeah it made weird deletions

im so confused

**Zakarya** 14/09/2021

I think so

**Rebecca** 14/09/2021

i only npm installed that new thing that's it

**Zakarya** 14/09/2021

Oj

Then shouldn't breakit

**Rebecca** 14/09/2021

there's one file that has like 20k deletions apparently

**Zakarya** 14/09/2021

U free in 10min so I can have a quick look over your ode

Code

**Rebecca** 14/09/2021

uh yeah sure

**Terry\_t** 14/09/2021

```
PROBLEMS OUTPUT DEBUG CONSOLE TERMINAL

```

yo can anyone help me with dis?

why can't I npm start the website

**Rebecca** 14/09/2021

i think it's my latest push

1

@Rebecca uh yeah sure

**Zakarya** 14/09/2021

Perfect

**Rebecca** 14/09/2021

im going to revert actually

it should work after that i reckon

**Zakarya** 14/09/2021

What

**Rebecca** 14/09/2021

ill revert the last push i did

**Zakarya** 14/09/2021

Who deleted package. Json

@Tiana so package.json was deleted?

Zakarya 14/09/2021

package-lock.json was deleted for the FE

Its fixed now congrats! 😊

@Terry\_t you can try now

Rebecca 14/09/2021

i figured it out

all good

pull

Zakarya 14/09/2021

Also make sure to be on the right branch when working on something :))

Rebecca 14/09/2021

yes

im not gonna branch login but ill finish that up soon

Zakarya 14/09/2021

Okk

@Zakarya package-lock.json was deleted for the FE

Tiana 14/09/2021

did i do that

but yay glad its workin

Zakarya 14/09/2021

No it magically happened haha

@Tiana but yay glad its workin

Zakarya 14/09/2021

Yes everything back on track, just waiting to hear from @Terry\_t

@Zakarya No it magically happened haha

Tiana 14/09/2021

weird as

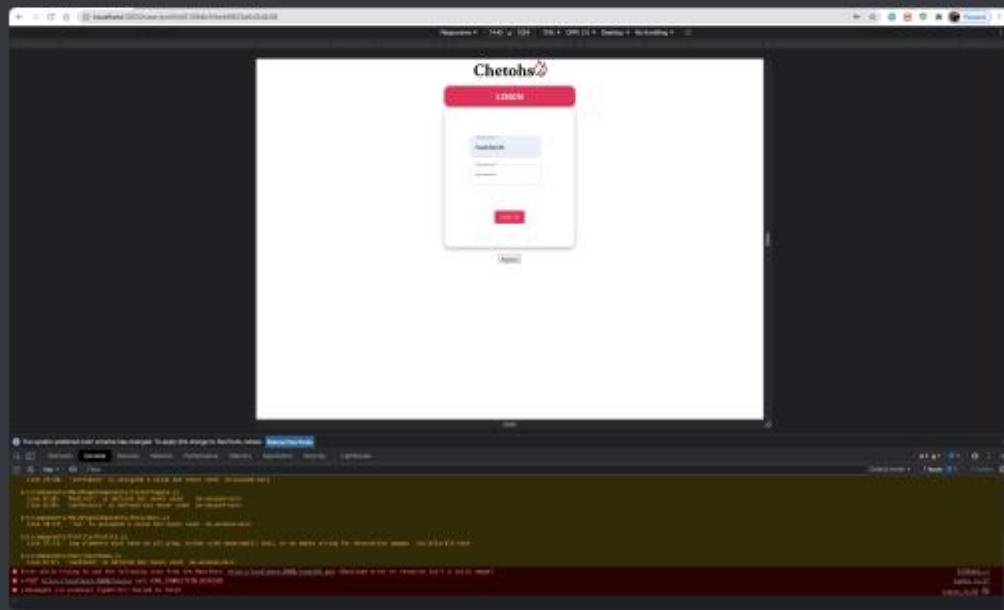

1

15 September 2021

Terry\_t 15/09/2021

I can't seem to log in weird...

Zakarya 15/09/2021

Did you run the back end?

Terry\_t 15/09/2021

no

Zakarya 15/09/2021

Go to the backend folder

On a separate terminal

And type node server.js

That should run the backend

The try logging in

Terry\_t 15/09/2021

```
cd "/Users/terrytran/Documents/GitHub/it_project/Code"
(base) terrytran@Terrys-Pro ~ % cd "/Users/terrytran/Documents/GitHub/it_project/Code"
(base) terrytran@Terrys-Pro ~ % node server.js
internal/modules/cjs/loader.js:892
    throw err;
    ^

Error: Cannot find module '/Users/terrytran/Documents/GitHub/it_project/Code/server.js'

  code: 'MODULE_NOT_FOUND',
  requireStack: [
    '/Users/terrytran/Documents/GitHub/it_project/Code/backend/server.js'
  ]
}
:(((
```

do i have to install anything?

Zakarya 15/09/2021

Whatever module u don't have  
Just npm install it  
So in this case  
Npm install express

Terry\_t 15/09/2021

```
found 0 vulnerabilities

(base) terrytran@Terrys-Pro backend % node server.js
server is listening on port 5000
MongoDB database connection established successfully
wrong password

wrong password
```

i got wrong password for frankSmith smh

**Rebecca** 15/09/2021

it doesn't work for me either

Try dulapeep

**Terry\_t** 15/09/2021

dulapeep works!

1

I'm in

**Zakarya** 15/09/2021

Yaaay!

 @Rebecca it doesn't work for me either

**Zakarya** 15/09/2021

Wait login no work?

**Tiana** 15/09/2021

frank smith doesnt work

1

@Zakarya Wait login no work?

**Rebecca** 15/09/2021

Frank smith doesn't work bc of the new hashing

@Rebecca Try dulapeep

**Zakarya** 15/09/2021

No like you said doesn't work for me what was that

@Rebecca it doesn't work for me either

**Zakarya** 15/09/2021

This 9ne sorry

**Tiana** 15/09/2021

oh i just realised we shoud be using the materialui appbar

@Zakarya No like you said doesn't work for me what was that

**Rebecca** 15/09/2021

I meant login franksmith doesn't work for me

1

⌚ @Rebecca Login UI free for review (edited)

Zakarya 15/09/2021

didnt we say we get rid of the register button?

Nicholas 15/09/2021

Just leaving it there for now cos I think some of the code can be reused for changing the pw

Rebecca 15/09/2021

We needed to leave it there for now bc of the password stuff right?

Smth to do with the hashing?

⌚ @Nicholas Just leaving it there for now cos I think some of the code can be reused for changing the pw

Zakarya 15/09/2021

yeah we can keep the backend

we dont need the frontend button there

Rebecca 15/09/2021

Ok would you like me to comment the code out and get rid of the visual button?

Zakarya 15/09/2021

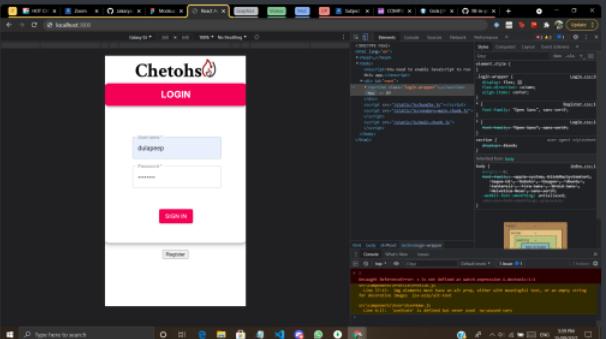

yes if we want to finalise the login page :))

i think we agreed to make a default password

and then add a change pw feature where we can hash it

unless someone had a different better idea...

21:00 Could we fix the margins on the phone version? If its not too much work

 **Rebecca** 15/09/2021

Hmm well if we decide on smth lmk ? I can make some changes tmr

  @Zakarya Could we fix the margins on the phone version? If its not too much work 

 **Rebecca** 15/09/2021

How much do we care about the mobile version haha? I mean we will present a web version and that's what our client wants idk

  @Rebecca How much do we care about the mobile version haha? I mean we will present a web version and that's what our client wants idk

 **Zakarya** 15/09/2021

I feel like if we agreed to a web app then it should be responsive, maybe he tests the live server on his phone and that might cause problems, or in the presentation doc brings it up. We can ask Fanyu if he wants to just use it on his laptop and not phone then at least we have a better idea or reason to not do it.

Let me know what you guys think... :))

16 September 2021

 **Rebecca** 16/09/2021

Hmm ok I can look into that not quite sure how to scale it

 **Rebecca** 16/09/2021

It seems Tiana's latest push has deleted 20k lines in package-lock so if anyone on that branch wants to revert that if it's messing smth up 

 1  1

 **Rebecca** 16/09/2021

commented out the register button and added a forgot password text with an empty onClick function whoever wants to do that

(edited)

 1

 **Zakarya** 16/09/2021

I made a add-customer branch to handle the BE and FE of the add customer page.

So when you click the button add customer on the add-customer branch it will take you to the page :))

 @Rebecca It seems Tiana's latest push has deleted 20k lines in package-lock so if anyone on that branch wants to revert that if it's messing s...

 **Tiana** 16/09/2021

....

idkw hy lol

but it didn't create an issues did it?

 @Tiana but it didn't create an issues did it?

 **Zakarya** 16/09/2021

It might later on for deployment I think. Not 100% sure but it sometimes does.

 @Zakarya It might later on for deployment I think. Not 100% sure but it sometimes does.

 **Tiana** 16/09/2021

any idea why that would've happened?

the deletions

 **Zakarya** 16/09/2021

In the latest push on that branch does it still exist or no?

 **Tiana** 16/09/2021

as in my push?

 **Zakarya** 16/09/2021

yes I think so

yeah it is yours

 **Tiana** 16/09/2021

im a bit confused

cos when i look at the profile-page branch

the package lock hasn't been changed in 6 days

**Zakarya** 16/09/2021

yeah thats what i saw too  
6 days  
weird as

**Tiana** 16/09/2021

so where's the 20k deletions from package lock coming from? lol im so lost

**Zakarya** 16/09/2021

yeah it is odd

**Rebecca** 16/09/2021

Dunno but happened to me once and some stuff stopped werkin

**Zakarya** 16/09/2021

no i dont think it should stop anythign

**Tiana** 16/09/2021

but where id u see that  
did  
cos i dont see that

**Zakarya** 16/09/2021

its more deployment

**Rebecca** 16/09/2021

If we run into any problems we could easily see what was deleted and put it back?

**Zakarya** 16/09/2021

is it working fine for you Tiana

**Rebecca** 16/09/2021

Not quite sure

@Rebecca If we run into any problems we could easily see what was deleted and put it back?

**Zakarya** 16/09/2021

yeah should be doable

**Tiana** 16/09/2021

yeah it works fine

**Zakarya** 16/09/2021

then should be good

@Rebecca If we run into any problems we could easily see what was deleted and put it back?

**Tiana** 16/09/2021

but like

where are you seeing there were deletions from package lock (edited)

**Zakarya** 16/09/2021

oh

**Tiana** 16/09/2021

cos yeah mine says it hasn't been updated in 6 days

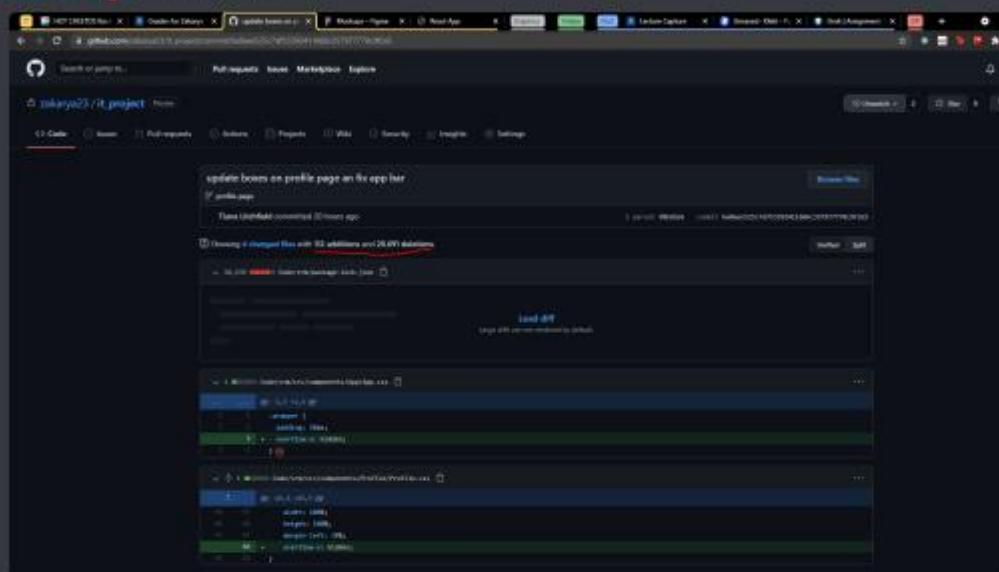

so if you click your commit  
it says 20k deletions

**Tiana** 16/09/2021  
oh okay i see that

**Zakarya** 16/09/2021

right here  
yeah  
thats why

**Tiana** 16/09/2021  
i think my npm version is outdated

**Zakarya** 16/09/2021  
oh that could be why

**Tiana** 16/09/2021  
yeah

Tiana 16/09/2021

yeah

i tried updating and it was giving me some random errors so i just left it  
but ill look into it if that's maybe what's wrong

Zakarya 16/09/2021

make sure you npm install in the crm directory

i see a package-lock in the home directory where there is no code which hasnt been updated in 6 days and is pretty much empty  
the one the commit is referring to is in code/crm  
which was last updated 20 hrs ago

Zakarya 16/09/2021

I wanted to let the people working on Rebecca and Terry that I fixed the search bar value and now working on the BE for that.

Rebecca 16/09/2021

Um I changed the app bar to reflect to Profile but I can't seem to push

Zakarya 16/09/2021

what is it saying

Rebecca 16/09/2021

i did the checkout to the remote branch and it's now a head detached  
it seems im not currently on a branch which is strange...

@Rebecca i did the checkout to the remote branch and it's now a head detached

Zakarya 16/09/2021  
which remote branch

**Rebecca** 16/09/2021

it's bc i don't have it locally or smth

🤔 1

haha omg im scared!

ok i did it

**Zakarya** 16/09/2021

yeah idk either so lets go for it

and.. good news or bad?

**Rebecca** 16/09/2021

fairly certain it worked

**Zakarya** 16/09/2021

ok yaay

**Rebecca** 16/09/2021

lemme check the git

**Zakarya** 16/09/2021

cool

**Rebecca** 16/09/2021

so that means you haven't pushed the serach bar fix?

**Zakarya** 16/09/2021

no I havent yet

**Rebecca** 16/09/2021

ok cool go ahead when you're ready if it's working

**Zakarya** 16/09/2021

yeah i fixed it i can change it in yours too if you havent

**Rebecca** 16/09/2021

ill continue to work and will try to get the UI up to scratch for the home page by the weekend or smth  
yeah just push it, ill pull

**Zakarya** 16/09/2021

sounds good

**Rebecca** 16/09/2021

if pull works HAHA

**Zakarya** 16/09/2021

didnt you just push

did u check git

**Rebecca** 16/09/2021

yeah git all g

**Zakarya** 16/09/2021

ok cool

lemme pull and then push

@Rebecca the documentation on the detached thing is interesting and annoying (edited)

Zakarya 16/09/2021

as long as it works we good haha

 2

pushed :))

Rebecca 16/09/2021

ah now im a detached head again! sick

maybe i should do a rebase

Zakarya 16/09/2021

idk what that means, did you want to merge and make a new branch again

Rebecca 16/09/2021

um idk im just concerned about how our paths seem a bit diverged

but you merged them so im just gonna reset head to your merge.. think that should do the trick?

cool looks like the rebasing worked

@Rebecca cool looks like the rebasing worked

Zakarya 16/09/2021

you got it to work properly?

Rebecca 16/09/2021

more like i merged the commit paths

hmm it seems i can't seem to switch to the actual branch, only the commit

**Zakarya** 16/09/2021

are you merging the home-page branch to the main

**Rebecca** 16/09/2021

no no i rebased where my head was to your latest commit  
(home-page)

**Zakarya** 16/09/2021

ok

it works

**Rebecca** 16/09/2021

but it seems i've been tracking commits rather than the branch so now im confused haha

**Zakarya** 16/09/2021

whenever you wanna push just use the command they said  
does that make it simple?

**Rebecca** 16/09/2021

yeah seems like it works so will stick with it for now

**Zakarya** 16/09/2021

yes

**Tiana** 16/09/2021

rebecca stop beheading ur git  
that is not very nice  
big middle ages energy

**Zakarya** 17/09/2021

Guys, you know for the userHome page we have broken code up into components. We havent that on other pages and its causing lots of problems in the search function. I just feel like it will be easier if we just make it one file for the code like the others. What do you guys think? I can put all the code into one if your ok with it.

1

**Rebecca** 17/09/2021

Yeah we've kept it that was since that was how Terry set it up originally. I'm fine with whatever as long as it's consistent but I'm not sure what exactly is best practice

1

**Zakarya** 17/09/2021

I believe best practice would be the components, but the search is causing a lot of pain. I can try without the components and if it works then we can keep it otherwise we can try in the component form. Sound good or no? :))

1

**Terry\_t** 17/09/2021

go for it

**Rebecca** 17/09/2021

Making it work takes priority over making it pretty haha

→ @Rebecca Making it work takes priority over making it pretty haha

**Tiana** 17/09/2021

agree

**Zakarya** 17/09/2021

@team , dont forget to submit the peer reviews :))

1

**Tiana** 17/09/2021

also - do we think we should be storing DOB and calculating age

→ @Terry\_t I thought we only submit the first one?

**Tiana** 17/09/2021

i was just confused and worried so i did both  
im sure it doesnt matter

→ @Tiana also - do we think we should be storing DOB and calculating age

**Terry\_t** 17/09/2021

Prolly not

→ @Terry\_t Prolly not

**Tiana** 17/09/2021

so just let fanyu manually set their age?  
and have to change it when they get older lel

1

**Zakarya** 17/09/2021

@Tiana should be better if we do automatically don't ya think

 @Tiana also - do we think we should be storing DOB and calculating age

**Rebecca** 17/09/2021

Probably if we're calculating age lol

 @Rebecca Probably if we're calculating age lol

**Zakarya** 17/09/2021

Shouldn't be too bad right

**Rebecca** 17/09/2021

i don't think so but again we'll have to see when we go in to implement it HAHA

**Zakarya** 17/09/2021

Yeha true, Tiana you working on it?

 @Zakarya @Tiana should be better if we do automatically don't ya think

**Tiana** 17/09/2021

yer

 100 1

 @Zakarya Yeha true, Tiana you working on it?

**Tiana** 17/09/2021

no lol sorry

i'm just making the create client designs

Zakarya 17/09/2021

I can have a go if your OK with it

Tiana 17/09/2021

ofc ! go for it

100 1

the create client mockups r almost done ill upload in like 5

but ive put adding a profile photo on there

however we can leave implementing that til last

1

Zakarya 17/09/2021

Yrs sounds good

Rebecca 17/09/2021

let's try get the main bits down first i reckon

Zakarya 17/09/2021

ok yes I agree

Zakarya 17/09/2021

YESSSSS FINALLY MADE SEARCH WORK, THAT WAS A PAIN BUT I GOT IT! :))

2 1 1

Major changes:

- I removed the client toggle and searchbar components on the home-page branch, so handle those there instead of individually.
- Thank you

Zakarya 24/09/2021

Hey @Rebecca @Terry\_t , any updates on the home page? You think you guys can complete the tasks by Tuesday or did you need a hand? 😊

E+ ← #

Tiana 24/09/2021

yall we got bumped up by a mark

1

sweet

Rebecca 24/09/2021

I've been taking a break bc it's mid sem rn but I think the UI can be done by then

1

Zakarya 24/09/2021

Thats all g! I just needed the filter button front end functionality so I can test it. :))

If you could implement that first that would be awesome! 🎉

Rebecca 24/09/2021

could you look into this? @Terry\_t

**Terry\_t** 24/09/2021

Yeah, I think we can finish it off before tuesday

**Zakarya** 24/09/2021

@Terry\_t , is it possible to do the filter functionality before cos i need to get it done by Tuesday

**Terry\_t** 24/09/2021

Idk tbh

I'll try to get it up and running by sunday

**Zakarya** 24/09/2021

ok cool thanks man! :))

**Terry\_t** 24/09/2021

But I can't guarantee anything :((

Wait

**Zakarya** 24/09/2021

thats ok! Do let us know asap if you cant do it by Sunday so someone else can take on the task?

1

26 September 2021

**Zakarya** 26/09/2021

Hey team, does anyone need a hand with any of the tasks they are doing or might not be able to get to? :))

**Zakarya** 26/09/2021

Just wanted to let everyone know to make updates for the specific pages on the specific branches rather then on the main branch. If there is none and you believe there should be one, you can make a new branch. Thank you :))

**Zakarya** 27/09/2021

So I merged the home-page branch cos there were lots of changes made in the main and made the filter function there. Just wanted to let you know that we arent using Client Toggle anymore so it can be deleted, I just kept it for now as I didnt know which things you wanted to keep so be sure to make those changes and then delete Client Toggle.js. :))

**Rebecca** 27/09/2021

A little concerned about the amount we have left to do

**Tiana** 27/09/2021

yer we gotta grind this nezt week

its fine if we dont fknidh it all

cos some of the low priority shit we dont even neef to fo

do

like dark mode

**Zakarya** 27/09/2021

Yeah that's why I asked if someone needs a hand do let me know, I have done my tasks so happy to share tasks. If not I can start work on hosting as well 🌟

**Rebecca** 27/09/2021

Ok yeah sure just pick up whatever is backlogged

1

**Zakarya** 27/09/2021

hey team, where are we putting these

| Name         | Status   | Progress |
|--------------|----------|----------|
| John Doe     | New      | High     |
| Jane Doe     | New      | Low      |
| Jenny Dope   | Conclude | Medium   |
| Johnny Bravo | New      | High     |

**Rebecca** 27/09/2021

Hmmm we were supposed to set it up using a filter button. I've got the button itself locally but I'm not so sure

**Tiana** 27/09/2021

yea was gonna be a button w a menu that comes up or something

i guess logout edit info and change password can be down the side under create contact

tho wouldnt change password be under edit info

also haha it says edit inforation rn

**Zakarya** 27/09/2021

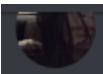

Shouldn't we make a separate settings page?

Or I can try making a pop up menu

Which shows all these

We could make a settings button on the top right next to the bell

That could either lead to a new page or be a small pop up menu with not buttons but links?

Preferably this when you click on a button/icon which I haven't pushed but it's just an icon lol

SS =

**Zakarya** 27/09/2021

so this button icon will lead to the settings page or a pop up menu right  
and its not on the main page anymore

**Rebecca** 27/09/2021

Preferably pop up menu instead of a new page

**Zakarya** 27/09/2021

okk

**Rebecca** 27/09/2021

Pop up menu makes more sense too

Still on the main page

**Zakarya** 27/09/2021

yeah but it is more challenging to do haha

**Rebecca** 27/09/2021

Yeah if it's too hard we need to think of something else

Like just having the filter being on the left like you have now

**Zakarya** 27/09/2021

i cant see the icon on the main page

**Rebecca** 27/09/2021

I haven't pushed any of my local stuff

**Zakarya** 27/09/2021

did Terry remove it

oh are u working on main?

**Rebecca** 27/09/2021

Home page

**Zakarya** 27/09/2021

oh i thought i merged that

how is the branch still there

ok nvm

**Rebecca** 27/09/2021

Says it's still a separate branch?

**Zakarya** 27/09/2021

yeah it does idek why

i merged it and i also messaged in the group to work on main

for the homepage

anyways all g

we can merrge again ig?

**Rebecca** 27/09/2021

Yeah but the branch is still there so not sure what went wrong

**Zakarya** 27/09/2021

yeah same :((

how much code do u have on the home page branch?

new code \*

**Rebecca** 27/09/2021

Shouldn't be too much

**Zakarya** 27/09/2021

i was wonderiing if you could just directly add it to the main

if not thats all g too

**Rebecca** 27/09/2021

Just go ahead and merge properly and close the branch

Are you sure we should just work on main for home page?

Hhaa

 @Rebecca Just go ahead and merge properly and close the branch

**Zakarya** 27/09/2021

thats what i thought i did

and the merging was a pain

**Zakarya** 27/09/2021

uhhhhh

we can try again ig?

**Rebecca** 27/09/2021

Yeah sure

**Zakarya** 27/09/2021

do you know how to merge?

is it just git merge branch-name ?

**Rebecca** 27/09/2021

You can just run a command to delete the branch once merged if we are completely done with the branch

Zakarya 27/09/2021

yeah like i merged everything

Rebecca 27/09/2021

Idk usually I just do a pull req and someone takes care of it AHAH

1

yeah just delete the branch if everyone is sure we don't need it

Zakarya 27/09/2021

it was just me and you working on it

Rebecca 27/09/2021

Hmmm I think it should be fine?

Zakarya 27/09/2021

yeah :))

Rebecca 27/09/2021

I'll just copy out the bits I did and discard all my changes and pull from main

Zakarya 27/09/2021

yes awesome thank you

1

let me know when u push

so I can start work on the settings thingy

Rebecca 27/09/2021

Hmm once you're done with the branch stuff I'll just add the icon for you to meddle with. Don't really wanna push the stuff I'm playing around with rn haha

@Zakarya that even possible

Rebecca 27/09/2021

According to git yeah 😂

1

@Rebecca Hmm once you're done with the branch stuff I'll just add the icon for you to meddle with. Don't really wanna push the stuff I'm pla...

Zakarya 27/09/2021

i am working on main rn

cos i though i merged everythign properly

@Rebecca Hmm once you're done with the branch stuff I'll just add the icon for you to meddle with. Don't really wanna push the stuff I'm pla...

Zakarya 27/09/2021

could u add it to main branch for now or no?

@Rebecca I can see you also merged main into main lol

Zakarya 27/09/2021

i never did that

i am so weirded out

:((

Rebecca 27/09/2021

Commits on Sep 27, 2021

Merge branch 'main' of [https://github.com/zakarya23/it\\_project](https://github.com/zakarya23/it_project) into main

Zakarya Ahmed Butt committed 1 hour ago

@Rebecca Yeah I can are you done merging?

Zakarya 27/09/2021

yeah

@Rebecca Click to see attachment

Zakarya 27/09/2021

noo thats different surely

Rebecca 27/09/2021

Commits on Sep 16, 2021

Merge branch 'home-page' of [https://github.com/zakarya23/it\\_project](https://github.com/zakarya23/it_project) i...

...nto home-page

Zakarya Ahmed Butt committed 11 days ago

dunno

Just looks like you're merging a branch into itself HAHA

**Zakarya** 27/09/2021

but then

how does the code from one branch get to the other

**Rebecca** 27/09/2021

I'm so confused but as long as nothing is messed up should be ok

**Zakarya** 27/09/2021

that makes no sense then right

yeah nothing is

i am abke to work on the main fine

and the search and filter work

**Rebecca** 27/09/2021

oh dang i need to reauthenticate

Well idk I just saw whatever was on git haha

weird

**Zakarya** 27/09/2021

its ok

its working for now which is good

**Rebecca** 27/09/2021

ok just gave you the button. I'll be messing around with the line and the box where the info is held so it's not just an image pasted

**Zakarya** 27/09/2021  
great thanks!

**Zakarya** 27/09/2021  
@Rebecca dont you think it will look better up here?

top left

like a drawer on a phone app

the other place it is rn looks soo odd and doesnt even tell me if its settings or not  
any other opinions also appreciated :))

**Rebecca** 27/09/2021

Um not particularly tbh

If you think about similar filter functions they're usually near or in line with the information it's filtering

**Zakarya** 27/09/2021

wait what

i thought we were talking about the 3 weird buttons

logout, edit ....

**Rebecca** 27/09/2021

OH sorry haha I thought you were talking about the filter since it's 3 lines and the filter button is 3 liens

**Zakarya** 27/09/2021

thats why i was suggesting a settings button

oh man

biggest mix up

in the history of mix ups

**Rebecca** 27/09/2021

I reckon we can just keep it on the same page and have them stacked just more work to keep adding stuff

**Tiana** 27/09/2021

yeah same

**Rebecca** 27/09/2021

Like we just keep adding more work for ourselves!!! Bad!!! Not good

**Tiana** 27/09/2021

just stacked under create contact

**Zakarya** 27/09/2021  
@Rebecca I reckon we can just keep it on the same page and have them stacked just more work to keep adding stuff

i can make a pop up menu

**Rebecca** 27/09/2021

We can change it later if we have time

**Zakarya** 27/09/2021

this looks so bad

**Tiana** 27/09/2021

maybe put change password within edit info

it's okay lol

**Zakarya** 27/09/2021

and we might lose marks for it

**Tiana** 27/09/2021

just have them vertically stacked

i doubt it

it

**Zakarya** 27/09/2021

well looks unprofessional

i can try

**Rebecca** 27/09/2021

I'm not sure they'll take off marks to have 3 buttons on the side lol

**Zakarya** 27/09/2021

to make it a pop up

**Tiana** 27/09/2021

maybe do the filter pop up first

or did u already do that

**Zakarya** 27/09/2021

nops

**Rebecca** 27/09/2021

the 3 buttons don't need to be a pop up

**Tiana** 27/09/2021

cos that's higher priority

the 3 buttons are fine yea

**Rebecca** 27/09/2021

filter if you can bc that's how we envisioned it

**Zakarya** 27/09/2021

i dont like them

**Tiana** 27/09/2021

we can make it a proper sidebar

**Zakarya** 27/09/2021

imma try doing both

**Tiana** 27/09/2021

we can change it at the end

**Zakarya** 27/09/2021

finish it by tonight

ok

**Tiana** 27/09/2021

just like not super high priority i dont think idk

**Zakarya** 27/09/2021

okk

**Rebecca** 27/09/2021

we have so much else to do lol

**Zakarya** 27/09/2021

sounds good

 @Rebecca we have so much else to do lol  
**Zakarya** 27/09/2021  
but like its unclear if someone is actually doing a certain task, if you think you cant or arent able to do a certain task then maybe remove your name from a tag?

 **Rebecca** 27/09/2021  
I think some of the stuff we've put on the board is already also part of the bigger picture/inprogress  
But yeah maybe need to reevaluate a bit  
 1

 **Zakarya** 27/09/2021  
Hows the profile coming along?  
like profile page?

 **Rebecca** 27/09/2021  
Tiana's on that I believe

 **Tiana** 27/09/2021  
yeah i am  
its ok

 **Zakarya** 27/09/2021  
hows that going Tiana?

 **Tiana** 27/09/2021  
still having horizontal scroll issues

 @Tiana still having horizontal scroll issues  
**Zakarya** 27/09/2021  
for all the boxes or just the top row like before?

 @Zakarya for all the boxes or just the top row like before?  
**Tiana** 27/09/2021  
wait wdyd  
the whole thing was horizontal scrolling

 **Rebecca** 27/09/2021  
Tiana I can help after I figure out swapping out the images for material UI components on home

 @Tiana the whole thing was horizontal scrolling  
**Zakarya** 27/09/2021  
oh ok  
If you cant figure it out, let me know, I can have a look tonight

 **Tiana** 27/09/2021  
sure ty zak  
 1

 @Rebecca Tiana I can help after I figure out swapping out the images for material UI components on home  
**Tiana** 27/09/2021  
and danke bec

**Tiana** 27/09/2021

oh also yall ill send the acceptance cirteria and tests before tmr if someone can look  
\*before tmrs class

**Rebecca** 27/09/2021

oh lol material ui just totally ported over to mui i think lmao

**Tiana** 27/09/2021

edym

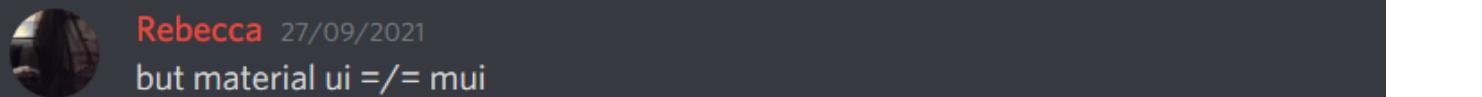

**Rebecca** 27/09/2021

before it was half material-ui and now it mui  
and they updated the site and everything

**Tiana** 27/09/2021

oh yea im looking now  
that is cool

**Rebecca** 27/09/2021

but material ui =/= mui

**Tiana** 27/09/2021

oop

**Rebecca** 27/09/2021

also guys if we could be consistent with indentations that would be nice  
(4 is the norm whether space or tab if that's too hard to switch)

**Tiana** 27/09/2021

was 4 on our code standards  
if noot we should update but i dont rmbr

**Terry\_t** 27/09/2021

Anyone know how to change font-color based on text value?

**Zakarya** 27/09/2021

Wait could you elaborate  
What did you want to change

**Terry\_t** 27/09/2021

for each like high, medium, low priority we have different colour tag for them  
so do anyone know how I can change the colour of the tag individually?

**Zakarya** 27/09/2021

Set a condition  
Using the curly brackets

**Terry\_t** 27/09/2021

in css or js?

**Zakarya** 27/09/2021

Js

does that make sense?

Terry\_t 27/09/2021

yeh

lemme try it out

Zakarya 27/09/2021

```
<p className = "status">{d.status}</p>
```

you see this line

you can make a function

Terry\_t 27/09/2021

within it?

Zakarya 27/09/2021

pass d.status in it and then output the html accordingly too

yeah you can make a function in it too

upto you whatever is easier

inline function will be something like this

```
The user is <b>{isLoggedIn ? 'currently' : 'not'}</b> logged in.
```

Terry\_t 27/09/2021

```
<p className = {d.progress === 'High' ? styles.progressHigh : styles.progressMedium}>{d.progress}</p>
```

I tried this

and it didn't works 😞

**Zakarya** 27/09/2021

lemme have a quick try :))

**Tiana** 27/09/2021

btw @team i think we need to go to the lecture on wed

**Rebecca** 27/09/2021

wym?

**Tiana** 27/09/2021

r they recording it?

its s guest lecture

specifically the one we're getting assessed on

**Rebecca** 27/09/2021

we can rewatch it tho can't we

**Terry\_t** 27/09/2021

when r they assessing it?

**Rebecca** 27/09/2021

end of sem

we have to write a professional communication report on it i think

**Tiana** 27/09/2021

i mean we can rewa th just wasnt sure if it was being recordwd  
ig it has to be  
they recorded the week 7 one

**Rebecca** 27/09/2021  
yeh should be fine

**Terry\_t** 27/09/2021

```
<p className = "progress" style ={{color: d.progress === 'High' ? "Red" : 'Medium' ? "Orange" : "yellow"}}>{d.progress}</p>
```

🤔 1

@Zakarya I tried this one and it doesn't seem like it works either :((((

**Zakarya** 27/09/2021  
that work?

**Terry\_t** 27/09/2021  
nope

**Zakarya** 27/09/2021  
i got another idea but it might be a bit odd

**Terry\_t** 27/09/2021  
how can access each d.progress individually?\n\*|

**Rebecca** 27/09/2021  
It's a loop

instead of checking strings  
we can make a boolean

1

like 3 bools  
H, M, L  
and then check them  
that will make it easier

**Rebecca** 27/09/2021  
that's not really a bool haha

**Zakarya** 27/09/2021  
no no

**Terry\_t** 27/09/2021  
3 isH, isM, isL?

**Rebecca** 27/09/2021  
oh you meant 3 sets of bool to check which is t/f?

**Terry\_t** 27/09/2021  
3 constant?

**Zakarya** 27/09/2021  
all of them will be false  
and then here we can check  
which ones set to true

**Rebecca** 27/09/2021

hmmm that doesn't seem like the most efficient way but yeah sure if it works

**Zakarya** 27/09/2021

haha i mean it isn't but that's how it works sometimes

maybe try messing around with it for a few more minutes

imma do the same

**Terry\_t** 27/09/2021

got it boss

**Zakarya** 27/09/2021

mayne we get to something

yeah lets try :))

all the best

**Zakarya** 27/09/2021

The screenshot shows a Windows desktop environment with a browser window open to the Chetohs application. The application has a header with the logo 'Chetohs' and a search bar. Below the header is a navigation bar with buttons for 'CREATE CONTACT', 'LOG OUT', 'EDIT INFORMATION', and 'CHANGE PASSWORD'. A sidebar on the left contains 'Filter By' sections for 'Progress' and 'Priority'. The 'Progress' section includes checkboxes for 'New', 'Invited', 'Met', 'Negotiation', and 'Candidate'. The 'Priority' section includes checkboxes for 'High', 'Medium', and 'Low'. The main content area displays a table of contacts with columns for 'Name', 'Status', and 'Progress'. The contacts listed are John Doe (High, High), Jane Doe (Low, Low), Jenny Dope (Medium, Medium), and Johnny Bravo (High, High). The browser taskbar at the bottom shows various open tabs and pinned icons.

| Name         | Status | Progress |
|--------------|--------|----------|
| John Doe     | High   | High     |
| Jane Doe     | Low    | Low      |
| Jenny Dope   | Medium | Medium   |
| Johnny Bravo | High   | High     |

**Terry\_t** 27/09/2021

bruvvvvv

what did you do?

**Zakarya** 27/09/2021

guess

**Terry\_t** 27/09/2021

did you do the 3 bools thing?

**Zakarya** 27/09/2021

nops

i just copied yours

**Terry\_t** 27/09/2021

.....

**Zakarya** 27/09/2021

HAHAHAHA

OK FUN FACT

sometimes refreshing doesn't update it

**Terry\_t** 27/09/2021

why doesn't it works on mine lmao

**Zakarya** 27/09/2021

u need to do a hard refresh

click ctrl + f5

**Terry\_t** 27/09/2021

i don't have an f5 on my laptop ahahahahhh

**Zakarya** 27/09/2021

did it work?

**Terry\_t** 27/09/2021

 macbook

**Zakarya** 27/09/2021

oh man

macbook 😳

surely theres a way to hard refresh

otherwise open a new browser on something you havent run it on before

and then log in

sometimes the cookies stored inside dont let you change it and you feel like you right but computer doesnt want you to be so hard refresh helps :))

let me know if it still doesnt change

**Terry\_t** 27/09/2021  
nah it didn't work lul

😳 1

how bout you try pushing the same code up to git  
then I'll pull then try again smh

**Zakarya** 27/09/2021  
yeah we can do that  
pushed  
well done Terry :))  
wait no  
pushing now

**Terry\_t** 27/09/2021  
bruv 😂

**Zakarya** 27/09/2021  
can i dude theres so much conflicts  
can i negate yours?

**Terry\_t** 27/09/2021  
yeh  
do that

Zakarya 27/09/2021

i did that

Terry\_t 27/09/2021

it didn't let you push?

Zakarya 27/09/2021

this is scary

no

ok now pushed

Terry\_t 27/09/2021

tf

Zakarya 27/09/2021

woohooo

see if it works

Terry\_t 27/09/2021

| + CREATE CONTACT |          | Search for contacts |  |  |  |

Zakarya 27/09/2021

That's pretty interesting init

1

Can u show me the code at the bottom

The loop

Terry\_t 27/09/2021

the

```
<div className = "clients">
  (this.state.data.map((<br>
    </>
    // A loop to handle customers directly from the database </>
    <button className = "client" onClick={()=> window.location.href='/user/profile/' + id.id}>
      <p> className = "name">(id.firstName) (id.familyName)</p>
      <p> className = "status">(id.status)</p>
      <p> className = "progress">(id.progress)</p>
    </button>
    <img width="110px" height="27" viewBox="0 0 1100 27" title="here" alt="https://www.w3.org/2000/svg" =
      <path d="M 21194 21.0330" stroke="#004444" stroke-opacity="0.5" stroke-width="2.0117"/>
    </img>
  ))</div>
</div>
```

there's nothing

I think you deleted your changes as well

okay I'm convinced my laptop is just dumb

Zakarya 27/09/2021

I did

Terry\_t 27/09/2021

I reverted the changes already

still nothing smh

I even changed to safari still the same haha

**Zakarya** 27/09/2021

Wth

Just copy the code u sent me

Just know it works

You.an continue

**Terry\_t** 27/09/2021

imma just leave it like that for now

let ask if the others see the changes

cuz mine busted somehow

**Zakarya** 27/09/2021

Yeah leave it for now

Just add that line

1

Sorry my nets bad :(

It will work sooner or later for you too haha

1

All the best and let me know if there's anything else you need help with :))

1

**Rebecca** 27/09/2021

nice one

1

um someone got rid of my changes lol

**Zakarya** 27/09/2021

On what page

**Rebecca** 27/09/2021

Ah **@Nicholas** reverted the colour changing?

**@Rebecca** Ah **@Nicholas** reverted the colour changing?

**Nicholas** 27/09/2021

Oh whoops did I?

Wasn't intentional

**Rebecca** 27/09/2021

Hmmm my page doesn't seem to have the colour changes atm

Also the box and other stuff has been like removed lol

**Zakarya** 27/09/2021

On home page?

Can you revert or add the code back

**Rebecca** 27/09/2021

all the changes i made here were removed on home page (main) some time since the commit:

[https://github.com/zakarya23/it\\_project/commit/44fae11edfd3b15a3388eb5536772b8bf1e4705b](https://github.com/zakarya23/it_project/commit/44fae11edfd3b15a3388eb5536772b8bf1e4705b)

I'm ngl this is a bit irritating

Guys can we merge or commit better lmao

I think I know the problem

Zak's parent commit seems to be since his main merge

We need to track the head of the branch better?

**Nicholas** 27/09/2021

I didn't change anything since an hour ago tho

**Rebecca** 27/09/2021

Omg wait haha sorry `quanganht` is Terry then? my bad

2

↳ @Rebecca Guys can we merge or commit better lmao

**Zakarya** 27/09/2021

Wdym..

**Zakarya** 27/09/2021

? \*

**Rebecca** 27/09/2021

Your parent commit is your last commit before mine

OMG ok I think I konw what happened

Zak your second colour changing fixed it like brought back my changes

But then Terry reverted your commit that brought back the changes

**Zakarya** 27/09/2021

I think when I reverted Terry's changes, yours were gone too

SOO what's wrong now...

**Rebecca** 27/09/2021

Regardless of revert whatever the current commit doesn't change the colour stuff

**Zakarya** 27/09/2021

Can I see code at bottom

**Zakarya** 27/09/2021  
Can I see code at bottom

**Rebecca** 27/09/2021  
The problem is that along the way whatever happened my changes were reverted I believe  
My current code is the latest pull so it's the latest commit  
im updated to this commit:  
[https://github.com/zakarya23/it\\_project/commit/517bbc7e7023e09c7f41ab4e3530e8bacead9af](https://github.com/zakarya23/it_project/commit/517bbc7e7023e09c7f41ab4e3530e8bacead9af)

**Zakarya** 27/09/2021  
I will have a look

**Rebecca** 27/09/2021  
ok cheers  
this is giving me a headache 😭

**Zakarya** 27/09/2021  
Was your code in user Home?

**Rebecca** 27/09/2021  
Here are all my changes: [https://github.com/zakarya23/it\\_project/commit/44fae11edfd3b15a3388eb5536772b8bf1e4705b](https://github.com/zakarya23/it_project/commit/44fae11edfd3b15a3388eb5536772b8bf1e4705b)  
so it touched Components, Line3, Userhome

1

The commit you did was so weird, it sayd everything was changed so I had to look specifically, but I replaced all the svgs with whatever you had. Let me know if I missed anything.

| Name         | Progress | Priority |
|--------------|----------|----------|
| John Doe     | New      | High     |
| Jane Doe     | New      | Low      |
| Jenny Dope   | Conclude | Medium   |
| Johnny Bravo | New      | High     |

Also colours are changing  
so please pull before you start work

**Rebecca** Yesterday at 00:40  
Cool cheers Zak. The only thing I can notice that is off is the material UI box shadow stuff

**Zakarya** Yesterday at 00:41  
Could you specify which part? Like search bar?

**Rebecca** Yesterday at 00:41  
The section with the names

**Zakarya** Yesterday at 00:41  
Oh ok  
I will try to do that then

**Rebecca** Yesterday at 00:42

Yeah just copy over the code if you're not reverting or smth

**Zakarya** Yesterday at 00:42

Yeah that'd what I did

And apparently everything changed  
So it was kinda hard to figure it out  
Will try to change it

**Rebecca** Yesterday at 00:43

Oh weird hmmm

**Zakarya** Yesterday at 02:14

| Name         | Progress | Priority |
|--------------|----------|----------|
| John Doe     | New      | High     |
| Jane Doe     | New      | Low      |
| Jenny Dope   | Conclude | Medium   |
| Johnny Bravo | New      | High     |

02:15 hope that fixes it

**Terry\_t** Yesterday at 14:31

for notification

**Tiana** Yesterday at 14:32

oh lol i didnt know terry sorry

i can do that today

1 @Tiana yea i need to take myself off of that im not gonna have itme

**Terry\_t** Yesterday at 14:32

@Tiana I might take over that if you can't

**Tiana** Yesterday at 14:32

i took myself off of the backend

designing it will take me like 15 mins

1

**Terry\_t** Yesterday at 14:33

just try to finish it today, and I'll work on that part for this week

**Tiana** Yesterday at 14:33

terry arent u assigned to some stuff on the main page?

**Terry\_t** Yesterday at 14:33

yeh

**Zakarya** Yesterday at 14:34

yeah make a new task, fix filter

1

can i do that

**Rebecca** Yesterday at 14:34

zak all youmate

1

Haha

**Zakarya** Yesterday at 14:35

also imma host it so we can test online

**Terry\_t** Yesterday at 14:35

So I'm still on notification?

**Zakarya** @Terry\_t Yesterday at 14:36

front end yes, like a drop down

**Terry\_t** @Zakarya Yesterday at 14:37

I thought we making a whole new page?

But a drop down should be fine, idm tbh

**Tiana** Yesterday at 14:37

ah yea we talked abt it in the meet just then

**Tiana** Yesterday at 14:37

@Nicholas did u write the minutes

**Nicholas** Yesterday at 14:38

yeah its in my notes

**Tiana** Yesterday at 14:38

but a popup we decided on i think  
sweet as

@Terry\_t I thought we making a whole new page?

**Rebecca** Yesterday at 14:38

drop down if you can, notifs are usually like a drop down (e.g. fb)

**Tiana** Yesterday at 14:38

\*dropdown  
not popup  
soz

**Terry\_t** Yesterday at 14:38

ah I see  
okie

**Tiana** Yesterday at 14:38

yea even like on the material ui site is an example  
but yea ill do that mockup tonite

**Zakarya** Yesterday at 14:54

noo

my net broke out at the wrong time

**Terry\_t** Yesterday at 14:54

zak wyd

**Zakarya** Yesterday at 14:54

no ones in the main

i cant go to breakout rooms

cos he closed the thingy

**Terry\_t** Yesterday at 14:54

he's in our breakout room lul

**Zakarya** Yesterday at 14:54

tell him

to move me

please

thank you

Terry\_t Yesterday at 14:55

Easy

Zakarya Yesterday at 15:04

| Name         | Progress | Priority |
|--------------|----------|----------|
| John Doe     | New      | High     |

| Johnny Bravo | New      | High     |

```
<p className = "progress" style ={{color: d.progress === 'High' ? "Red" : 'Medium' ? "Green" : 'Small'? "Red": "Purple"}}>{d.progress}</p>
```

```
<p className = "progress" style ={{color: d.progress === 'High' ? "Red" : 'Medium' ? "Green" : 'Low'? "Yellow": "Purple"}}>{d.progress}</p>
```

Zakarya Yesterday at 15:27

also team, we can also search by phone number :))

Rebecca Yesterday at 15:34

i can compile our screenshots lol

2

@Rebecca i can compile our screenshots lol

Tiana Yesterday at 15:36

of trello too

@Rebecca but we're linking our trello so no need right

Tiana Yesterday at 15:36

yeah true

1

**Zakarya** Yesterday at 15:58

anyone working on Line3 at the moment?

**Rebecca** Yesterday at 16:07

no i dont think so (edited)
