Sprint #2 (Week 9) Review
Date: 2.10.21
Attendees: Tiana (Scrummaster), Nicholas (minute taker), Rebecca (Product Owner), Fanyu

Minutes

Status of the sprint
- What we've done so far
  - Main page
  - Filtering
  - Searching
  - Client profiles - information about client, about the company
  - Progress and the priority work
  - Add client feature
  - Edit info
  - Logout
  - Notifications
- What has not been done
  - Profile page - progress and priority
  - Last contact
    - Low - 1 month
    - Medium - 2 weeks
    - High - 1 week
  - Next meeting
    - Manually input date of next meeting
  - Backend of notifications

- Work removed from sprint
  - Profile page - progress and priority
  - Last contact
    - Low - 1 month
    - Medium - 2 weeks
    - High - 1 week
  - Next meeting
    - Manually input date of next meeting
  - Backend of notifications

- What we're going to do
  - Low priority
    - Profile photos
    - Dark mode
    - Ordering
      - Sort by alphabetical order if the ordering is too hard
  - Make progress and priority a drop down menu
  - Make dates input have a calendar popup?
  - Make the notification bell display pending notifications

Demo
- Log-in page - minor design changes
- Homepage design
- Notifications design
- Filter by priority and progress
- Search bar - live search
- Does add client have limitations on the form entries?
- Finish edit information
- Add drop downs for gender, progress and priority
  - Change status to progress

Questions
- Menu
  - Looks like a mobile menu
  - Would prefer a menu that is static on the desktop version
  - If possible, otherwise don't worry about it

Key changes
- Searching for full name
  - Need to implement - Zak is currently working on this
  - Search by mobile no longer necessary
- Notifications
  - Don't need notifications for progress anymore
  - Delete this user story
- Doesn't need dark mode
  - Only if we want to or have time
- Doesn't need to be able to add other users even for future
- Doesn't need to be able to order by anything other than alphabetical, filter is sufficient
