Sprint #3 Retrospective
Date: 26/10/21
Attendees: Rebecca, Nicholas, Terry, Tiana

Minutes

What we did well
- Made a web app!!
- Fulfilled client's major needs
- Learned many things in a semester
- Built a web app that met the requirements necessary
- Learned how to merge really well and solve conflicts in code

What we can do better
- Have a cleaner codebase from the start
- Plan the entire project and product at the beginning
- Better follow the coding standards
- More user testing and consulting other users
- More comprehensive and continuous testing

Actions (for future projects)
(Actions that can be taken to improve problem areas)
- Have a cleaner design from the start
- Have comprehensive coding standards that everyone sticks to
- Test throughout project, cohesively, and document this
